Footprint Vietnam:

Footprint Vietnam Claire Boobbyer, 2008 Covers from watery plains to mountain scenery and magical deserted beaches noodle carts to nouvelle cuisine This guide helps you if you are planning a visit to Vietnam It also includes history and background section as well as various places to eat and sleep It provides what you need to know about navigating communist bureaucracy Living within a Fair Share Ecological Footprint Robert Vale, Brenda Vale, 2013-09-02 According to many authorities the impact of humanity on the earth is already overshooting the earth's capacity to supply humanity's needs This is an unsustainable position This book does not focus on the problem but on the solution by showing what it is like to live within a fair earth share ecological footprint The authors describe numerical methods used to calculate this concentrating on low or no cost behaviour change rather than on potentially expensive technological innovation They show what people need to do now in regions where their current lifestyle means they are living beyond their ecological means such as in Europe North America and Australasia The calculations focus on outcomes rather than on detailed discussion of the methods used The main objective is to show that living with a reduced ecological footprint is both possible and not so very different from the way most people currently live in the west The book clearly demonstrates that change in behaviour now will avoid some very challenging problems in the future The emphasis is on workable practical and sustainable solutions based on quantified research rather than on generalities about overall problems facing humanity **Footprint Vietnam** John Colet, 2004 From watery plains to mountain scenery and magical deserted beaches War wounds and historical symbolism Crossing the Mekong Delta and trekking opportunities in Northern Vietnam All you need to know about navigating communist bureaucracy with a sense of humour Highly regarded war history and background section Historical Dictionary of Ho Chi Minh City Justin Corfield, 2014-11-01 Offering a concise overview of Ho Chi Minh City's history and development the Historical Dictionary of Ho Chi Minh City presents a comprehensive historical survey of the city in the form of an alphabetical list of keywords and names with accompanying definitions Both well researched and authoritative the volume draws upon a wide range of modern sources and contains an introductory essay about the city a chronology a list of acronyms and abbreviations photographs and appendixes of supplemental information *Community-Based Tourism in the Developing World* Peter Wiltshier, Alan Clarke, 2019-10-16 This book analyses community based approaches to developing and regenerating tourism destinations in the developing world addressing this central issue in sustainable tourism practices It reviews a variety of systems useful for analysing and understanding management issues to offer new insight into the skills and resources that are needed for implementation ongoing monitoring and review of community based tourism Adopting a multidisciplinary approach this book explores alternatives to the dominant interpretation which argues against tourism as a benefit for community development International case studies throughout the book illustrate and vouch for tourism as a transformative force while clarifying the need to manage expectations in sustainable tourism for community development rejuvenation and regeneration Emphasis is

placed on accruing relevant decision support material and creating services products and management approaches that will endure and adapt as change necessitates This will be of great interest to upper level students researchers and academics in the fields of tourism impacts sustainability ethics and development as well as the broader field of geography Supertight Graham Crist, John Doyle, 2021-12-27 Supertight is an exploration of high density urban life and reducing the footprint of cities through adaptations in design and behavior Tightness is a positive urban quality examined through the observations of designers with a focus on the cities of Asia The rapidly growing large cities of Asia are critical to understanding our future footprint Asian cities provide insights into new ways of being densely urbanised The by product of this unprecedented metropolitan convergence will be the emergence of new urbanisms and new architectures new models for living and making culture The Supertight refers to the small intense robust and hyper condensed spaces that emerge as a by product of extreme levels of urban density Tightness arises as consequence of density but tightness itself is not density Tightness is a series of social economic and cultural practices that have developed in cities as a response to the rapid growth and consolidation of cities While architectural models of density have been heavily explored this project investigates the culture of tightness that has emerged in Asian cities over the past thirty years and the role that designers play in the material and social behaviours of tightness To be tight is to be small and constrained but also to be open to the economies and social intimacy of being close Ultimately this project aims to unpack and convey both the delight and difficulty that emerges through the close occupation of large cities With Contributions of Yoshiharu Tsukamoto Atelier Bow wow Atelierco Rafael A Balboa with Yasemin Sahiner Sanuki Daisuke Drawing Architecture Studio Desiree Grunewald Sue Hajdu Tohru Horiguchi Alban Mannisi Yazid Ninsalam Charles Anderson Minsuk Cho Mass Studies New Office Works Archie Pizzini Andrew Stiff Superimpose Taishin Shiozaki Shiozaki Lab WOHA **Re-thinking Water and Food Security** Luis

Martinez-Cortina, Alberto Garrido, Elena Lopez-Gunn, 2010-09-30 This book provides an overview by leading world experts on key issues in global water and food security The book is divided in a series of over arching themes and sections The first part of the book provides an overview of water and food security The second and third sections look at global trade and virtual water trade and provide some *In the Dragon's Shadow* Sebastian Strangio, 2020-08-07 A timely look at the impact of China's booming emergence on the countries of Southeast Asia Today Southeast Asia stands uniquely exposed to the waxing power of the new China Three of its nations border China and five are directly impacted by its claims over the South China Sea All dwell in the lengthening shadow of its influence economic political military and cultural As China seeks to restore its former status as Asia's preeminent power the countries of Southeast Asia face an increasingly stark choice flourish within Beijing's orbit or languish outside of it Meanwhile as rival powers including the United States take concerted action to curb Chinese ambitions the region has emerged as an arena of heated strategic competition Drawing on more than a decade of on the ground experience Sebastian Strangio explores the impacts of China's rise on Southeast Asia the varied ways in which

the countries of the region are responding and what it might mean for the future balance of power in the Indo Pacific

East Asia Riikka Rajalahti,2021-12-29 Agricultural innovation has played a critical role in the economic transformation of developing East Asian countries over the past half century The Green Revolution in the form of modern seed varieties chemical fertilizers pesticides and modern machinery has contributed to increased crop yields and farm incomes and decreased poverty across the region Although policy makers traditional focus on expanding and intensifying agricultural production has brought many benefits the focus on productivity has come at a rising cost The environmental sustainability of agricultural production is increasingly under threat Moreover as countries in the region have become more urbanized and demand for processed foods has risen inadequate food safety systems and related food safety hazards have created a new form of food insecurity As detailed in Agricultural Innovation in Developing East Asia Productivity Safety and Sustainability a new generation of innovation in agriculture has the potential to address the challenges of productivity sustainability and food safety to deliver a triple win To make the most of this promising wave of agricultural innovations policy makers in the region will need to act to strengthen countries agricultural innovation systems This effort will require a cross cutting approach including policy and institutional reforms improved governance of countries agri food systems and efforts to build farmers and firms capacities to adopt new technologies and to innovate **Sustainable Development Goals and Pandemic**

Planning Venkatachalam Anbumozhi,Kaliappa Kalirajan,Fukunari Kimura,2022-06-10 This book assesses the progress in the implementation of Sustainable Development Goals SDGs in ASEAN India and China using the above framework conditions in the context with three main propositions First translating the SDGs into regional economic integration strategies during the pandemic recovery can enhance the link between global objectives and the multifaceted reality of an ASEAN community building process and providing a strategic option to strengthen the regional approaches Secondly a regional approach on complementarities to SDGs can facilitate the definition of relevant targets indicators and enhance the monitoring and evaluation framework In so doing it could also offer the scope to integrate more closely ASEAN community s social and

environmental concerns into existing economic social and political frameworks Thirdly focusing just on the geo economic sphere the area where south east and East Asian economic integration is relatively more advanced will prove the hypothesis that effective regional integration through mega trade agreements such as the Regional Comprehensive Economic Partnership RCEP can support the Asia s transformation agenda and foster more inclusive and sustainable growth
