Godfrey, 2024-04-24 From only a few feet away my attacker fired her large caliber handgun directly at me Round after round struck my body as I began praying even more fervently than I already had been She had broken into my home and laid in wait for Glenn and me to return home from a family outing She had already delivered two rounds into Glenn downstairs before rushing upstairs to kill me But as I prayed God's strength welled up inside me and I walked away from her as she yelled at me to stop I grabbed the phone and called 911 Turning to see where she was I saw her look in my direction but not at me She saw something behind me The look on her face suggested she saw a manifestation of a mighty angel that God had sent to protect me She retreated from the room and returned downstairs to kill Glenn with one final shot before ending her own life I was safe but my battle was just beginning As the wife of a 32 year Alaska State Trooper and the mother of four children I had always served our household in a support role during Glenn's long and illustrious career But his position and frequent travels exposed this small town boy to temptations greater than he could resist Soon infidelity plagued our relationship for many years culminating in that fateful August morning This survival story is not a testament to anything other than God's goodness and faithfulness Through my own suffering God can speak to others who have experienced physical or psychological trauma I pray that this story brings you comfort and draws you closer to our Father who loves you and has plans to prosper your soul **Footprints in the Jungle** Ian A. practices and selective usage The Energy Mistake Hans-Joachim Zillmer,2013-01-28 In recent years the statement that crude oil and natural gas are running out has a profound influence on the world economic strategies and on world politics as well as on the future of all humankind But is this scientific conception of the world totally wrong This is a must read book The renewed interest in the planets that resulted during the 2000s from the space probe investigations caused by Hans Joachim Zillmer to think about the origin of planetary bodies and the various volatile substances of their atmospheres Scientists are surprised and have no lucid explanation that abundant hydrocarbons even occur on comets and as already proofed on other planets or its moons In this book is described that this volatile substances on planetary bodies are not of biology origin These inorganic components of the Earth s mantle are continually out gassing toward the surface by geological and mechanical forces Our planet would be replete with methane and we are not running out of petroleum The energy crises would be over There are many other reasons for wanting to understand the principle of operation of our solar system with the energy supply of planetary bodies Suppose someone claimed that life on Earth started below the surface of our planet and if we find extraterrestrial life it is likely to be within but not on other planets Darwin s theory of macroevolution must be rewritten This heretic science book rejects the ideas of conventional geology geophysics and astronomy but instead demonstrates in layman s terms how the Earth originated and where the continents the ocean and the atmosphere came from This highly exciting and controversial German bestselling book The Energy Mistake shows that the history of Earth must also be replaced We see a brilliant thinker as he develops a revolutionary view about the fundamental workings of our planet and the solar systems This is a must read book **Northern Athabascan Survival** Phyllis Ann Fast,2002-11-01 The Northern Athabascan peoples of the Alaskan interior and the Yukon have survived centuries of contact and attempted domination by outsiders Their lives today are rich in meaning and tradition yet are also complicated by numerous challenges such as poverty alcoholism domestic violence suicide and troubled leadership Combining scholarly analysis first person accounts and her own experiences and insights as a Koyukon Athabascan artist and anthropologist Phyllis Ann Fast illuminates the modern Athabascan world Her conversations with Athabascan women offer revealing glimpses of their personal lives and a probing assessment of their professional opportunities and limitations Also showcased is the crucial but ambiguous role of Athabascan leaders who are needed to champion reform and social healing but are often undermined by conflicting notions of decision making personhood and leadership in Athabascan society A troubling observation of this study is the vast extent to which addiction manifested as both substance abuse and economic dependency pervades Northern Athabascan society and threatens to curtail its cohesion and aspirations But Northern Athabascans are far from victims As Fast discovers Northern Athabascan men and women are well aware of these widespread social problems and many have undertaken initiatives to deal with and heal them Rigorous and compassionate Northern Athabascan Survival provides an uncompromising view of a remarkable and troubled world **The Independent** ,1925 **Animal Movement Across Scales** Lars-Anders
