Our Land Before We Die Jeff Guinn, 2005-01-13 In *Our Land Before We Die* Jeff Guinn traces the little known history of the runaway slaves who fled to the Florida Everglades to live alongside the Seminole Indians Deeply rooted in tribal oral history and based on extensive interviews with descendants this book describes the incredible circumstances of a people who sought shelter in the shadow of a tribe whose land and welfare already hung in the balance And yet in their tireless journey from Florida to Indian Territory in Oklahoma on the seven hundred mile flight from persecution that took them across the Rio Grande into Mexico and then back across the Rio Grande to Texas they never surrendered the hope of one day attaining land of their own *Our Land Before We Die* brings to life the largely forgotten history of a courageous people and the descendants for whom this story is their only legacy

Australian Aboriginal English Ian G. Malcolm, 2018-05-22 The dialect of English which has developed in Indigenous speech communities in Australia while showing some regional and social variation has features at all levels of linguistic description which are distinct from those found in Australian English and also is associated with distinctive patterns of conceptualization and speech use This volume provides for the first time a comprehensive description of the dialect with attention to its regional and social variation the circumstances of its development its relationships to other varieties and its foundations in the history conceptual predispositions and speech use conventions of its speakers Much recent research on the dialect has been motivated by concern for the implications of its use in educational and legal contexts The volume includes a review of such research and its implications as well as an annotated bibliography of significant contributions to study of the dialect and a number of sample texts While Aboriginal English has been the subject of investigation in diverse places for some 60 years there has hitherto been no authoritative text which brings together the findings of this research and its implications This volume should be of interest to scholars of English dialects as well as to persons interested in deepening their understanding of Indigenous Australian people and ways of providing more adequately for their needs in a society where there is a disconnect

between their own dialect and that which prevails generally in the society of which they are a part **Dhuuluu-Yala Anita Heiss, 2003** This overview about publishing Indigenous literature in Australia from the mid 1990s to 2000 includes broader issues that writers need to consider such as engaging with readers and reviewers Although changes have been made since 2000 the issues identified in this book remain current and to a large extent unresolved **Aboriginal Peoples, Colonialism and International Law Irene Watson, 2014-10-17** This work is the first to assess the legality and impact of colonisation from the viewpoint of Aboriginal law rather than from that of the dominant Western legal tradition It begins by outlining the Aboriginal legal system as it is embedded in Aboriginal people s complex relationship with their ancestral lands This is Raw Law a natural system of obligations and benefits flowing from an Aboriginal ontology This book places Raw Law at the centre of an analysis of colonisation thereby decentring the usual analytical tendency to privilege the dominant structures and concepts of Western law From the perspective of Aboriginal law colonisation was a violation of the code of political and social conduct embodied in Raw Law Its effects were damaging It forced Aboriginal peoples to violate their own principles of natural responsibility to self community country and future existence But this book is not simply a work of mourning Most profoundly it is a celebration of the resilience of Aboriginal ways and a call for these to be recognised as central in discussions of colonial and postcolonial legality Written by an experienced legal practitioner scholar and political activist **Aboriginal Peoples Colonialism and International Law Raw Law** will be of interest to students and researchers of Indigenous Peoples Rights International Law and Critical Legal Theory **Adams County Bigfoot Jay Vernon, 2022-02-09** One man s personal journey into the unknown What started out as an uneventful upbringing on a farm quickly turned into a series of strange and unexplainable encounters that defied all logic This story covers Jay s personal encounters with Bigfoot on a farm encounters that would haunt him for the rest of his life Bigfoot s presence was felt but was he a friend or foe Read about this true story of unbridled fear for the first time ever **Creating Consilience Edward Slingerland, Mark Collard, 2012-01-19** Calls for a consilient or vertically integrated approach to the study of human mind and culture have for the most part been received by scholars in the humanities with either indifference or hostility One reason for this is that consilience has often been framed as bringing the study of humanistic issues into line with the study of non human phenomena rather than as something to which humanists and scientists contribute equally The other major reason that consilience has yet to catch on in the humanities is a dearth of compelling examples of the benefits of adopting a consilient approach **Creating Consilience** is the product of a workshop that brought together internationally renowned scholars from a variety of fields to address both of these issues It includes representative pieces from workshop speakers and participants that examine how adopting such a consilient stance informed by cognitive science and grounded in evolutionary theory would concretely impact specific topics in the humanities examining each topic in a manner that not only cuts across the humanities natural science divide but also across individual humanistic disciplines By taking seriously the fact that science humanities integration is a two way

exchange this volume takes a new approach to bridging the cultures of science and the humanities The editors and contributors formulate how to develop a new shared framework of consilience beyond mere interdisciplinarity in a way that both sides can accept Indigenous Biography and Autobiography Peter Read, Frances Peters-Little, Anna Haebich, 2008-12-01 In this absorbing collection of papers Aboriginal Maori Dalit and western scholars discuss and analyse the difficulties they have faced in writing Indigenous biographies and autobiographies The issues range from balancing the demands of western and non western scholarship through writing about a family that refuses to acknowledge its identity to considering a community demand not to write anything at all The collection also presents some state of the art issues in teaching Indigenous Studies based on auto biography in Austria Spain and Italy Telling Tennant's Story Dean Ashenden, 2022-03-01 Tennant Creek and Australia's Unresolved Past Winner of the 2022 Australian Political Book of the Year Award A drily elegant bracing work from a pained and open heart Helen Garner Refreshing and original A unique window on Australia's past and its barbed resonance today Essential reading for anyone interested in the challenge of truth telling Mark McKenna A graceful unostentatiously scholarly wise and highly readable book on a subject of overwhelming and enduring significance for all Australians Robert Manne The tale of a town and a nation Returning after fifty years to the frontier town where he lived as a boy Dean Ashenden finds Tennant Creek transformed but its silence about the past still mostly intact Provoked by a half hidden account Ashenden sets out to understand how the story of relations between two racial groups within a single field of life has been told and not told in this town and across the nation In a riveting combination of memoir reportage and political and intellectual history Ashenden traces the strange career of the great Australian silence from its beginnings in the first encounters of black and white through the work of the early anthropologists the historians and the courts in landmark cases about land rights and the Stolen Generations to still continuing controversy In a moving finale Ashenden goes back to Tennant Creek once more to meet for the first time some of his Aboriginal contemporaries and to ask how the truths of Australia's story can best be told **Migrant Emotions** Sonia Cancian, Peter Leese, Soňa Mikulová, 2024-08-21 Migrant Emotions explores the interrelationships and tensions between mobility and immobility emotions affects and experiences inclusion and exclusion as well as narratives and representations in both local and global discourses The overall objective of the volume is to underscore the significance of emotions in the analysis of mobile lives in the past and the current socio political climate The book provides a new framework that brings together the study of emotions and migration by focusing on the feelings or emotions of exclusion and inclusion through a range of theoretical lenses Specifically it offers a series of complex interconnected studies on diverse experiences responses and voices of migrants including refugees asylum seekers undocumented and others on the move both in the twentieth and the twenty first centuries and across the continents including Europe Molesini Daniel Stock Castillo Goncalves Cancian Leese Africa Cancian Kilpel inen and Zechner Asia Mutiara Paul Ridgway and Oceania Heckenberg Integral to the volume's original

objective is an emphasis on the global diversity of contributors and studies and the global reach of readership for purposes of comparison

Hunter-Gatherer Childhoods Barry S. Hewlett, 2017-07-28 In the vast anthropological literature devoted to hunter gatherer societies surprisingly little attention has been paid to the place of hunter gatherer children Children often represent 40 percent of hunter gatherer populations thus nearly half the population is omitted from most hunter gatherer ethnographies and research This volume is designed to bridge the gap in our understanding of the daily lives knowledge and development of hunter gatherer children The twenty six contributors to Hunter Gatherer Childhoods use three general but complementary theoretical approaches evolutionary developmental cultural in their presentations of new and insightful ethnographic data For instance the authors employ these theoretical orientations to provide the first systematic studies of hunter gatherer children s hunting play infant care by children weaning and expressions of grief The chapters focus on understanding the daily life experiences of children and their views and feelings about their lives and cultural change Chapters address some of the following questions why does childhood exist who cares for hunter gatherer children what are the characteristic features of hunter gatherer children s development and what are the impacts of culture change on hunter gatherer child care The book is divided into five parts The first section provides historical theoretical and conceptual framework for the volume the second section examines data to test competing hypotheses regarding why childhood is particularly long in humans the third section expands on the second section by looking at who cares for hunter gatherer children the fourth section explores several developmental issues such as weaning play and loss of loved ones and the final section examines the impact of sedentism and schools on hunter gatherer children This pioneering volume will help to stimulate further research and scholarship on hunter gatherer childhoods th

Malcolm,2008-08-22 The languages of Aboriginal Australians have attracted a considerable amount of interest among scholars from such diverse fields as linguistics political studies archaeology or social history As a result there is a large number of studies on a variety of issues to do with Aboriginal Australian languages and the social contexts in which they are used There is however no integrative reader that is easily accessible to the non specialist in any of the areas concerned The collection edited by Leitner and Malcolm fills this gap Looking at Aborigines and Torres Strait Islanders and their changing habitats from pre colonial times to the present the book covers languages from a structural and functional linguistic perspective moves on to the issue of cultural maintenance and then turns to language policy planning and the educational and legal dimensions Among the many themes discussed are the social and linguistic history of language contact after 1788 including the Macassans the demographic base of indigenous

languages traditional indigenous languages results of language contact such as the modification of traditional languages and the rise of contact languages pidgins creoles esp Kriol Torres Strait Creole and Aboriginal English the impact of the Aboriginal languages on mainstream Australian English maintenance shift revival and documentation of indigenous and contact languages language planning language in education language in the media language in the law courts The contributors are leading experts in their fields The book can serve as a reader for university courses but also as a state of the art work and resource for specialists like applied linguists or educational planners **Holding Up the Sky** ,1999 In this unique collection nine Aboriginal women from around the country recount their lives These are ordinary women mothers grandmothers workers with extraordinary life experiences Their stories vary widely but all touch in some way on what it has been like to grow up as a black woman in white Australia Heartfelt funny courageous disturbing poignant angry Holding Up the Sky is a testament to its contributors spirit strength and fortitude
