Me-Generation Eugenia Ossana, 2024-12-31 Nigerian Authors and the Me Generation New Shades of Black explores African literary issues and focuses on Nigerian generations throughout history. It also underscores women authors relatively unknown or dispersed role and their positions regarding Western feminism. Concurrently, the book acknowledges the emergence of a current Generation called the Me Generation dealing with erstwhile taboo themes and genre experimentation. Three contemporary novels are singled out and analysed: *My Sister the Serial Killer* by Oyinkan Braithwaite, *A Small Silence* by Jumoke Verissimo and *Freshwater* by Akwaeke Emezi. They deal with the trope of blackness as humour and satire as a healing space and as Igbo spiritual cosmovision which contests Western givens. This book can become a reference for those interested in African literature and particularly Nigerian literature. Concurrently, it can be a starting point to enrich the debate on African literature.

With All My Heart Emma Merritt, Emma Bennett, 1984 *Happily Ever After* Kristin Ramsdell, 1987 Briefly sketches the history of romance novels, discusses modern romance genres and provides an annotated list of romances and useful references.

Cincinnati Magazine, 1984-04 Cincinnati Magazine taps into the DNA of the city exploring shopping, dining, living and culture and giving readers a ringside seat on the issues shaping the region.

Feminist Criticism and Social Change (RLE Feminist Theory) Deborah Rosenfelt, Judith Newton, 2013-05-20 This lively and controversial collection of essays sets out to theorize and practice a materialist feminist criticism of literature and culture. Such a criticism is based on the view that the material conditions in which men and women live are central to an understanding of culture and society. It emphasises the relation of gender to other categories of analysis such as class and race and considers the connection between ideology and cultural practice and the ways in which all relations of power change with changing social and economic conditions. By presenting a wide range of work by major feminist scholars, this anthology in effect defines as well as illustrates the materialist feminist tendency in current literary criticism. The essays in the first part of the book examine race ideology and the literary canon and explore the ways in which other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism. The second part of the book contains examples of such criticism in practice with studies of individual works, writers and ideas. An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist feminist project. *Feminist Criticism and Social Change* demonstrates the important contribution of materialist feminist criticism to our understanding of literature and society and fulfils a crucial need among those concerned with gender and its relation to criticism.

Love in the Time of Self-Publishing Christine M. Larson,2025-09-16 Lessons in creative labor solidarity and inclusion under precarious economic conditions As writers musicians online content creators and other independent workers fight for better labor terms romance authors offer a powerful example and a cautionary tale about self organization and mutual aid in the digital economy In *Love in the Time of Self Publishing* Christine Larson traces the forty year history of Romancelandia a sprawling network of romance authors readers editors and others who formed a unique community based on openness and collective support Empowered by solidarity American romance writers once disparaged literary outcasts became digital publishing s most innovative and successful authors Meanwhile a new surge of social media activism called attention to Romancelandia s historic exclusion of romance authors of color and LGBTQ writers forcing a long overdue cultural reckoning Drawing on the largest known survey of any literary genre as well as interviews and archival research Larson shows how romance writers became the only authors in America to make money from the rise of ebooks increasing their median income by 73 percent while other authors plunged by 40 percent The success of romance writers Larson argues demonstrates the power of alternative forms of organizing influenced by gendered working patterns It also shows how networks of relationships can amplify or mute certain voices Romancelandia s experience Larson says offers crucial lessons about solidarity for creators and other isolated workers in an increasingly risky employment world Romancelandia s rise and near meltdown shows that gaining fair treatment from platforms depends on creator solidarity but creator solidarity in turn depends on fair treatment of all members

Run to Rapture Margot Prince,1984 *Conflict and Colonialism in 21st Century Romantic Historical Fiction* Hsu-Ming Teo,Paloma Fresno-Calleja,2024-06-13 This book explores how postmillennial Anglophone women writers use romantic narrativisations of history to explore revise repurpose and challenge the past in their novels exposing the extent to which past societies were damaging to women by instead imagining alternative histories The novelists discussed employ the generic conventions of romance to narrate their understanding of historical and contemporary injustice and to reflect upon women s achievements and the price they paid for autonomy and a life of public purpose The volume seeks firstly to discuss the work of revision or reparation being performed by romantic historical fiction and secondly to analyse how the past is being repurposed for use in the present It contends that the discourses and genre of romance work to provide a reparative reading of the past but there are limitations and entrenched problems in such readings
