Lustig, 2013-12-31 The landmark New York Times best seller that reveals how the explosion of sugar in our diets has created an obesity epidemic and what we can do to save ourselves Robert Lustig is at the forefront of war against sugar showing us that it's toxic it's addictive and it's everywhere because the food companies want it to be His 90 minute YouTube video Sugar The Bitter Truth has been viewed more than 7 million times Now in this landmark book he documents the science and the politics that have led to personal misery and public crisis the pandemic of obesity and chronic disease over the last thirty years In the late 1970s when the U S government declared that we needed to get the fat out of our diets the food industry responded by pumping in more sugar to make food more palatable and more salable and by removing the fiber to make food last longer on the shelf The result has been a perfect storm for our health disastrously altering our biochemistry to make us think we're starving drive our eating habits out of our control and turn us into couch potatoes If we cannot control how we eat it's because of the catastrophic excess of sugar in our diet the resulting hormonal imbalances have rewired our brains To help us lose weight and recover our health Lustig presents strategies we can each use to readjust the key hormones that regulate hunger reward and stress as well as societal strategies to improve the health of the next generation With scientific rigor and even a little humor Fat Chance categorically proves that a calorie is not a calorie and takes that knowledge to its logical conclusion an overhaul of the global food system *Fat Chance!* Jane Ogden, 1992 Examines why so many people spend their lives dieting yet so few ever lose any weight Showing how the process of dieting itself sets you up for failure Ogden explodes many of the myths about dieting and offers an alternative to dieting a way to feel good about yourself *Summary of Fat Chance by Robert Lustig: Chance Beating the Odds Against Sugar, Processed Food, Obesity, and Disease* Thomas Francis, 2024-06-07 Fat Chance Fat Chance Beating the Odds Against Sugar Processed Food Obesity and Disease by Robert Lustig sets the stage for the rest of the book by providing a comprehensive overview of the current state of our society's relationship with food and health Lustig begins by highlighting the stark reality of the obesity and metabolic disease epidemics citing alarming statistics and trends that demonstrate the severity of the problem He notes that these conditions are not only devastating for individuals but also have a profound impact on our healthcare system and economy The author then delves into the root causes of these epidemics arguing that they are not solely the result of personal choice or lack of willpower Rather they are the consequence

of a complex interplay between biology environment and societal factors Lustig contends that our modern diet dominated by processed foods and added sugars is a primary driver of these epidemics [The Fat Chance Guide to Dieting](#) Claudia Pattison,2011-12-29 Think nothing tastes as good as slim feels You re obviously not eating the right food Holly Naomi and Kate are determined to win the battle of the bulge So it s down to the local slimming club where carbs are strictly off the menu and there s no escaping the scales But calorie counting isn t the only thing on their minds Newly engaged Holly should be over the moon So why does she blush every time her sexy boss walks into the room Curvaceous Naomi finds herself the object of a very unusual fetish and a shocking secret is revealed when an unexpected visitor arrives on Kate s doorstep Yet with a little group support and a particularly brutal weight loss boot camp the women manage to stick to their regime in time for the glamorous Slimmer of the Year Awards But with tempting buffet tables highly competitive contestants and even the odd fat fetishist lurking it s anyone s guess as to what will happen *Fat Chance* Deborah Blumenthal,2011-09-15 Plus size Maggie O Leary is America s Anti Diet Sweetheart Her informed column about the pitfalls of dieting is the one sane voice crying out against the dietocracy She is perfectly happy with who she is and the life she leads Until she gets the chance to spend some quality time with Hollywood s hottest star Maggie knows she can t exactly show up looking like well herself So she swallows her words and vows to become the skinniest fat advocate Tinseltown has ever seen Swearing her trusted assistant to silence Maggie embarks on a secret makeover From showdowns with her boss who is convinced his star columnist is losing her edge er girth to run ins with her closest male friend the trip through the famed red door of beauty is anything but graceful But despite her doubts about abandoning the comfortable life she s known not to mention deceiving legions of loyal readers who still think of her as their champion L A bound Maggie is hell bent on getting her just desserts Bursting with wit insight and humor Deborah Blumenthal s *Fat Chance* is a guilt free pleasure that is good to the last page
