## **Fatal Attachment:**

**A Fatal Attachment** Robert BARNARD,1993      **The Works of Charlotte Smith, Part I Vol 1** Stuart Curran,2020-03-25 Reveals the extent to which Charlotte Turner Smith s work constitutes as significant an achievement as her poetry representing the turbulent decade of the 1790s on its social and political as well as literary planes with an unparalleled richness of detail and an unblinkered vision      **Fatal Attachments** Viola Mecke,2004-06-30 Five year old Tommy killed himself at home where he lived with parents who said he was unwanted and deficient College student Jennifer committed suicide by swallowing a huge mixture of pills at a motel miles from the house where she lived with an imposing unemotional mother who d long thought the girl a burden Bob a father of two and computer company manager might have survived his attempt at suicide but his wife did not call 911 for 10 minutes after she found him in his running car in the garage so he died on the way to the hospital All of these cases described in detail by author Mecke share a factor aside from the fatality Each person was clearly motivated by an instigator someone who provoked the suicide Instigators create a crushing relationship with a potentially suicidal person that as Mecke puts it becomes a fatal attachment Mecke with more than 40 years experience as clinical psychologist believes instigators are responsible in a significant number of the more than 30 000 suicides that occur in the United States each year Through vivid and compelling text we understand the minds of suicide victims and their instigators and also learn how early trauma associated with death or abandonment can make one become an instigator Finally Mecke shows us how we can intervene to try and break the instigator s grip to foil the attachment As she explains one of her primary points relating to both the suicidal and their instigators is that children require careful nurturing especially during their early lives And the bent their personalities take following a trauma places responsibility upon us all to watch to explain to care for them In addition to tragic stories drawn from her practice Mecke also describes the instigators in larger scale suicides and those of historical figures from the cult suicide of hundreds moved by Jim Jones at Jamestown and the suicide bombings motivated by Osama bin Laden to the suicide of poet Sylvia Plath and the person who precipitated her death Classical literature and Greek mythology is also used extensively to address the issue of what triggers suicide The insights apply universally This is a must read for clinicians counselors and anyone interested in knowing about suicide and its causes      Sequels Janet G. *The Works of Charlotte Smith, Part I* Stuart Curran,2022-07-30 Reveals the extent to which Charlotte Turner Smith s work constitutes as significant an achievement as her poetry representing the turbulent decade of the 1790s on its social and political as well as literary planes with an unparalleled richness of detail and an unblinkered vision      **Aircraft Noise Abatement** United States. Goulding,2015-09-30 This edition of *Romance Readers and Romance Writers 1810* is the first modern scholarly publication of what is arguably Green s most famous novel As with many of her other works Green adopts numerous sophisticated methods to parody her contemporaries

*Remembering the Neoliberal Turn* Veronika Pehe,Joanna Wawrzyniak,2023-08-25 This book discusses how societies groups and individuals remember and make sense of global neoliberal change in Eastern Europe Such an investigation is all the more timely as the 1990s are increasingly looked to for answers explaining the populist and nationalist turn across the globe The volume shows how the key processes that impacted many lives across the social spectrum in Eastern Europe such as deindustrialization privatization restitution and abrupt social reorganization are collectively remembered across society today and how memory narratives of the 1990s contribute to current identities and political climate This volume establishes the memory of economic transformation as a research focus in its own right It investigates different levels of memory from the national through the local to the cultural analysing key myths of the transformation giving special recognition to the social space and vernacular memories of the transformation period and reflecting on how the changes of the 1990s are mediated in cultural representations Given the book s interdisciplinary scope that covers several fields it will prove to be of interest to those working in memory studies contemporary history sociology East European area studies and literary and film studies It will also serve as a significant point of reference for those researching the interdisciplinary and rapidly expanding field of transformation studies and thus is an invaluable source across different fields

**The Picturesque, The Sublime, The Beautiful: Visual Artistry in the Works of Charlotte Smith (1749-1806)** Valerie Derbyshire,2019-12-04 This book considers the relationships between British Romantic era novelist poet and writer of educational works for children Charlotte Smith 1749 1806 and a number of visual artists of the eighteenth century with whom she had connections By exploring these associations with artists such as George Smith of Chichester George Romney James Northcote John Raphael Smith and Emma Smith the book demonstrates how the artwork of these individual artists influenced Charlotte Smith s literary corpus It also shows a mutual influence how the literary works of Charlotte Smith impacted the corpora of these artists This study uncovers information which was not heretofore known regarding these artists it reveals a mistaken attribution of a sketch which accompanied the second volume of Smith s *Elegiac Sonnets* 1797 and sheds light on a print held by the British Museum which was previously shrouded in mystery The artworks also enhance the existing scholarly knowledge about Smith s biography This book analyses the tropes and motifs employed by Smith s artist associates in the context of the popular aesthetics of the period and undertakes parallel readings between such visual artistry and Smith s literary works The book deliberates on how Smith utilises these aesthetics as narrative devices making use of the tropes of the picturesque the sublime and the beautiful as well as that of a national British heraldic artwork in order to produce and enhance meaning in her literary oeuvre Thus Smith uses aesthetic structures as vehicles for social critique commentating on political gender moral and class concerns in addition to enhancing the perceived

authenticity of her own artistry The scholarship aims to correct the common misperception that Smith was a lonely marginal figure of Romanticism and instead asserts her central position in an enormous network of key artistic figures of British Romanticism     **The Cities and Wilds of Andalusia** Robert Dundas Murray,1849     **The Dignity of Human Nature** James Burgh,1767     *Auction catalogues of books* Puttick and Simpson (messrs.),1846     *Strathallan* Mrs. Lefanu (Alicia),1816     The Oxford Handbook of the Eighteenth-Century Novel J.
