including some foreign language material      *Henry James and the Suspense of Masculinity* Leland S. Person, 2013-06-15

Using insights from feminist studies men s studies and gay and queer studies Leland Person examines Henry James s subversion of male identity and the challenges he poses to conventional constructs of heterosexual masculinity Sexual and gender categories proliferated in the nineteenth and early twentieth centuries and Person argues that James exploited the taxonomic confusion of the times to experiment with alternative sexual and gender identities In contrast to scholars who have tried to give a single label to James s sexuality Person argues that establishing James s gender and sexual identity is less important than examining the novelist s shaping of male characters and his richly metaphorical language as an experiment in gender and sexual theorizing Just as an author s creations can be animated by his or her own sexuality Person contends James s sexuality may be most usefully understood as something primarily aesthetic and textual As Person shows in chapters devoted to some of this author s best known novels Roderick Hudson The American The Portrait of a Lady The Bostonians The Ambassadors The Golden Bowl James conducts a series of experiments in gender sexual construction and deconstruction He delights in positioning his male characters so that their gender and sexual orientations are reversed ambiguous and even multiple Ultimately he keeps male identity in suspense by pluralizing male subjectivity      **Mystery Voices** Dale Salwak, 1991-01-01 A series of interviews with authors such as P D James and Julian Symons      [100 Must-read Crime Novels](#) Nick Rennison, Richard Shephard, 2009-01-01 Want to become a crime novel buff or expand your reading in your favourite genre This is a good place to start From the publishers of the popular Good Reading Guide comes a rich selection of the some of the finest crime novels ever published With 100 of the best titles fully reviewed and a further 500 recommended you ll quickly become an expert on the world of crime The book also allows you to browse by theme includes a reader s fast guide to the world of crime fiction as well listing the top 10 crime characters and their creators award winners and book club recommendations      *The Skin of the System* Benjamin Robinson, 2009-09-28 The Skin of the System objects to the idea that there is only one modernity that of liberal capitalism Starting from the simple conviction that whatever else East German socialism was it was real this book focuses on what made historical socialism different from social systems in the West In this way the study elicits the general question what must we think in order to think an other system at all To approach this question Robinson turns to the remarkable writer Franz F hmann the East German who most single mindedly dedicated himself to understanding what it means to transform from fascism to socialism F hmann s own serial loyalties to Hitler and Stalin inform his existential meditations on change and difference By placing F hmann s politically alert and intensely personal literary inventions in the context of an inquiry into radical social rupture The Skin of the System wrests the brutal materiality of twentieth century socialism from attempts to provincialize both its desires and its failures as antimodern ideological follies      *The Essential Mystery Lists* Roger M Sobin, 2011-09-30 For the first time in one place Roger M Sobin has compiled a list of nominees and award winners of virtually every mystery award ever presented He has also included

many of the best of lists by more than fifty of the most important contributors to the genre Mr Sobin spent more than two decades gathering the data and lists in this volume much of that time he used to recheck the accuracy of the material he had collected Several of the best of lists appear here for the first time in book form Several others have been unavailable for a number of years Of special note are Anthony Boucher's Best Picks for the Year Boucher one of the major mystery reviewers of all time reviewed for The San Francisco Chronicle Ellery Queen Mystery Magazine and The New York Times From these resources Mr Sobin created Boucher's Best and Important Lists to Consider lists that provide insight into important writing in the field from 1942 through Boucher's death in 1968 This is a great resource for all mystery readers and collectors Winner of the 2008 Macavity Awards for Best Mystery Nonfiction     Proceedings of the Royal Society of Medicine Royal Society of Medicine (Great Britain),1920 Comprises the proceedings of the various sections of the society each with separate t p and pagination     *No Mysteries Out of Ourselves* Peter J. Bellis,2018-01-09 In this book Peter J Bellis aims to show how Melville's career is shaped by his desire to define and represent the self to find a secure identity on which to base personal and social relations Using Typee Pierre White Jacket Redburn Billy Budd and Moby Dick as models Bellis isolates three forms of selfhood the integrity of the physical body the son's genealogical link to his father and the coherence of an autobiographical text that Melville explores throughout his work He shows how as Melville texts each of these his work becomes increasingly self reflexive and self critical his search for an absolute ground for both self and text ends by undermining the very authority it would establish In this Melville differed markedly from Whitman and Thoreau who did find or create identities for themselves in their writing Bellis examines Melville's last novel The Confidence Man to show his method as ultimately deconstructive culminating in fact in the abandonment of Melville's own career as a novelist     *Psychopathia Sexualis* Richard Krafft-Ebing,1925     A Treatise on the Diseases of the Ox John Henry Steel,2024-02-25 Reprint of the original first published in 1881     *The Monthly journal of medical science* ,1850     **The London medical gazette** ,1851     Practical Observations in Midwifery John Ramsbotham,1821     **Full House** Stephen Jay Gould,2011-10 Gould shows why a more accurate way of understanding our world is to look at a given subject within its own context to see it as a part of a spectrum of variation and then to reconceptualize trends as expansion or contraction of this full house of variation and not as the progress or degeneration of an average value or single thing
