Fate Of The Forest Developers Destroyers And Defenders Of The Amazon:

The Fate of the Forest Susanna B. Hecht, Alexander Cockburn, 2011-01-15 The Amazon rain forest covers more than five million square kilometers amid the territories of nine different nations It represents over half of the planet's remaining rain forest Is it truly in peril What steps are necessary to save it To understand the future of Amazonia one must know how its history was forged in the eras of large pre Columbian populations in the gold rush of conquistadors in centuries of slavery in the schemes of Brazil's military dictators in the 1960s and 1970s and in new globalized economies where Brazilian soy and beef now dominate while the market in carbon credits raises the value of standing forest Susanna Hecht and Alexander Cockburn show in compelling detail the panorama of destruction as it unfolded and also reveal the extraordinary turnaround that is now taking place thanks to both the social movements and the emergence of new environmental markets Exploring the role of human hands in destroying and saving this vast forested region *The Fate of the Forest* pivots on the murder of Chico Mendes the legendary labor and environmental organizer assassinated after successful confrontations with big ranchers A multifaceted portrait of Eden under siege complete with a new preface and afterword by the authors this book demonstrates that those who would hold a mirror up to nature must first learn the lessons offered by some of their own people

River Without a Cause Sam Moses, 2024-03-05 A riveting journey down Theodore Roosevelt's river of doubt with a diverse crew of adventurers scientists and Indigenous leaders who shine light on the past present and future of a natural wonder Sam Moses took part in the adventure of a lifetime when he along with seventeen men and two women embarked on the Rio Roosevelt Expedition They would follow the former president's wake down five hundred miles of extreme whitewater into the dark heart of the Amazon The party was guided by two chiefs from the Cinta Larga tribe the same tribe that stalked Roosevelt's expedition in 1914 who between rapids tell the story of the tribe's own Trail of Tears After the wildest whitewater is past Moses travels with the chiefs to their village to witness the massive illegal mahogany logging from their forest the Roosevelt Indigenous Territory *River Without a Cause* puts us in the raft during those heart pounding rapid descents as we experience the drama dynamics and disputes between the Bull Moose and his co leader Brazil's most famous explorer the rigid Colonel Candido Rondon As the Amazon stands on the precipice of hope with the election of a new Brazilian president *River Without a Cause* is a moving and galvanizing tale of adventure that is a fitting tribute to this world wonder

Human Impacts on Amazonia Darrell Addison Posey, Michael J. Balick, 2006 Of late religion seems to be everywhere suffusing U S politics and popular culture and acting as both a unifying and a divisive force This collection of manifestos Supreme Court decisions congressional testimonies speeches articles book excerpts pastoral letters interviews song lyrics memoirs and poems reflects the vitality diversity and changing nature of religious belief and practice in American public and private life over the last half century Encompassing a range of perspectives this book illustrates the ways in which individuals from all along the religious and political spectrum have engaged religion and viewed it as a crucial aspect of society The anthology

begins with documents that reflect the close relationship of religion especially mainline Protestantism to essential ideas undergirding Cold War America Covering both the center and the margins of American religious life this volume devotes extended attention to how issues of politics race gender and sexuality have influenced the religious mainstream A series of documents reflects the role of religion and theology in the civil rights feminist and gay rights movements as well as in conservative responses Issues regarding religion and contemporary American culture are explored in documents about the rise of the evangelical movement and the religious right the impact of new post 1965 immigrant communities on the religious landscape the popularity of alternative New Age and non Western beliefs and the relationship between religion and popular culture The editors conclude with selections exploring major themes of American religious life at the millennium including both conservative and New Age millennialism as well as excerpts that speculate on the future of religion in the United States The documents are grouped by theme into nine chapters and arranged chronologically therein Each chapter features an extensive introduction providing context for and analysis of the critical issues raised by the primary sources

Amazonian Geographies Jacqueline Vadjunec, Marianne Schmink, 2014-07-16 Amazonia exists in our imagination as well as on the ground It is a mysterious and powerful construct in our psyches yet shares multiple trans national borders and diverse ecological and cultural landscapes It is often presented as a seemingly homogeneous place a lush tropical jungle teeming with exotic wildlife and plant diversity as well as the various indigenous populations that inhabit the region Yet since Conquest Amazonia has been linked to the global market and after a long and varied history of colonization and development projects Amazonia is peopled by many distinct cultural groups who remain largely invisible to the outside world despite their increasing integration into global markets and global politics Millions of rubber tappers neo native groups peasants river dwellers and urban residents continue to shape and re shape the cultural landscape as they adapt their livelihood practices and political strategies in response to changing markets and shifting linkages with political and economic actors at local regional national and international levels This book explores the diversity of changing identities and cultural landscapes emerging in different corners of this rapidly changing region This book was published as a special issue of the Journal of Cultural Geography

Properties and Management of Soils in the Tropics Pedro A. Sanchez, 2019-01-10 The long awaited second edition of this classic textbook expands on the first edition to include advances made in the last four decades bringing the topic completely up to date The book addresses critical issues such as whether humanity can feed itself and whether it can do so in environmentally sound and sustainable ways Written from agronomic environmental and ecological

standpoints the textbook employs a multidisciplinary approach including policymaking and plant genetic improvements as well as ecosystem services climate change biodiversity sustainability and resilience New chapters in this second edition focus on organic carbon in soil soil biology soils in relation to livestock production and forestry and agroforestry The new edition will again be the go to textbook for courses on tropical soils and a reference textbook for soil and agricultural scientists and development professionals working in the tropics

The Struggle for Amazon Town Richard Pace,1998 In his dissertation research on the Amazon region in the 1980s 1990s Pace anthropology Middle Tennessee State U revisited the small rural town that served as the site of Charles Wagley s classic study of indigenous campones small farm life Amazon Town A Study of Man in the Tropics 1976 Pace records local adaptations to poverty ideological conflicts and liberation theology Paper edition unseen 17 95 Annotation copyrighted by Book News Inc Portland OR *African Rain Forest Ecology and Conservation* William Weber,Lee J. T. White,Lisa Naughton-Treves,Amy Vedder,2001-01-01 Extending from west Africa to Madagascar from the vast lowland Congo Basin to the archipelago of forest islands on its eastern rim the African rain forest is surpassed in size only by the Amazon This book sheds light on the current efforts to understand and conserve the African rain forest an area in need of urgent action to save its biological wealth cultural heritage and economic potential Written by conservation scientists and practitioners based in the African rain forest the book offers a multidisciplinary perspective that integrates many biological and social sciences Early chapters trace the forces from paleoecological factors to recent human actions that have shaped the African forest environment The next chapters discuss the dominant biological patterns of species ranging from the distinctive elephants gorillas and okapi to the less well known birds butterflies and amphibians Other chapters focus on how such different groups as hunter gatherers forest farmers bushmeat hunters recent immigrants and commercial foresters have used the forests Several authors stress the need for tighter links between research and conservation action The final section draws lessons from the collective experience of those working in an Africa wracked by political strife and economic hardship

Exploring Apocalyptica Frank Uekötter,2018-08-11 Environmental alarmism has long been a political bellwether Tell me what you think about the green apocalypse and I ll tell you where you stand on the issues But as the environmental heydays of the 1970s move into perspective the time has come for a reassessment Horror scenarios create a legacy whose effects have largely escaped attention Based on case studies from four continents and the North Atlantic Exploring Apocalyptica argues for a reevaluation of familiar clichés It shows that environmentalists were less apocalyptic than commonly thought and other groups were far more enthusiastic It traces an interconnection with Cold War fears and economic depressions and demonstrates how alarmism faced limits in the Global South It also suggests that past horror scenarios impose constraints on ongoing debates At a time when climate change turns from a scenario into an experienced reality this book charts paths for an age that may have already moved beyond the peak apocalypse

Scoping the Amazon Stephen Nugent,2016-07-01 The Amazon Indian is an icon that straddles the world

between the professional anthropologist and the popular media Presented alternately as the noble primitive the savior of the environment and as a savage dissolute cannibalistic half human it is an image well worth examining Stephen Nugent does just that critiquing the claims of authoritativeness inherent in visual images presented by anthropologists of Amazon life in the early 20th century and comparing them with the images found in popular books movies and posters The book depicts the field of anthropology as its own form of culture industry and contrasts it to other similar industries past and present For visual anthropologists ethnographers Amazon specialists and popular culture researchers Nugent's book will be enlightening entertaining reading

Naked Tropics Kenneth Maxwell, 2013-10-15 In this volume distinguished historian Kenneth Maxwell collects some of his most significant writings following Portugal's imperial journey from the Atlantic to the Indian Ocean and from the coast of Asia to the mouth of the Red Sea Maxwell takes the reader on a lively journey from Macao to the Amazon forests each piece in the collection is a reflection of the authors driving passions Major themes he examines are the peopling of the Americas the shaking up of continents the spirit that took a precocious Portugal into its imperial venture the play between Portugal's extensive imperial reach into Africa and Asia and the Americas and the rise of Brazil and its tumultuous history

Security, the Environment and Emancipation Matt McDonald, 2012-01-30 This book offers an examination of the role of emancipation in the study and practice of security focusing on the issue of environmental change The end of the Cold War created a context in which traditional approaches to security could be systematically questioned This period also saw a concerted attempt in IR to argue that environmental change constituted a threat to security This book argues that such a notion is problematic as it suggests that a universal definition of security is possible which prevents a recognition of security as a site of contestation in which a range of actors articulate alternative visions of who or what is in need of being secured If security is understood and approached in traditional terms as the territorial preservation of the nation state from external threat then it is indeed difficult to see how environmental issues would benefit from being placed on states security agenda If however security is defined in terms of the emancipation of the most vulnerable individuals from contingent structural oppressions then drawing a relationship between environmental change and security may be beneficial for redressing those environmental issues and prioritising the needs of those most at risk from the manifestations of global environmental change This book takes the limitations of contemporary approaches to the relationship between the environment and security as its starting point and seeks to do two things First it aims to illustrate the ways in which arguments over approaches to environmental issues can be viewed as contestation over the meaning of security in particular political contexts Central here is the composition and assumptions of the dominant security discourse to emerge regarding those issues a framework of meaning for the most important forms of action on behalf of a particular group defining the terms for meaningful contestation and negotiation

about security itself within that group As such the book attempts to illustrate the dynamics of competition over the meaning of security with reference to environmental issues particularly focusing on instances of political change in the dominant security discourse through which that issue is approached In the process the author points to the central role of these dominant security discourses in underpinning the most practically significant actions regarding environmental issues such as deforestation and global climate change The book employs methodological tools that enable a focus on how particular frameworks of meaning are constituted and become dominant how they provide a lens through which various issues are approached and how discourses most consistent with redressing environmental change and the suffering of the most vulnerable might come to provide the framework through which security is viewed in particular contexts This book will be of much interest to students of Critical Security Studies geography sociology IR and Political Science in general

Forest, Field, and Fallow Antoinette M.G.A. WinklerPrins, Kent Mathewson, 2021-01-12 This volume aims to present the essential work of geographer and historical ecologist William M Denevan to explain the impact and influence his thinking had on the conceptual advancement not only in his own discipline but in a range of related disciplines such as anthropology archaeology and environmental history The book is organized around eight themes demonstrating Denevan s early and profound insights on topics that remain of current relevance today and the scholarly impact his writing had on subsequent scholarship The book is unique because it offers commentary from active scholars who address the impacts of Prof Denevan s thinking and work on contemporary environmental and ecological issues with a focus on several groundbreaking themes e g historical demography agricultural landforms cultural plant geography human environmental impacts indigenous agro ecology tropical agriculture livestock and landscape and synthetic contributions This book will be of interest to a range of scholars in geography anthropology archaeology history and ecology as well as to environmental managers and practitioners especially those working for non profit organizations and government

organizations tasked with finding ways to adapt to global environmental change **Tropical Forests and Climate N. Myers**, 2013-06-29 Tropical forests affect climate and the removal of the forests will change climate Or not This book discusses basic questions on how far if at all tropical deforestation leads to climatic change The question of this uncertainty is particularly addressed One important consequence of the uncertainties of whether deforestation affects climate is how scientific findings best illuminate the policy making process Mapping Latin America Jordana Dym, Karl Offen, 2011-09-28 57 studies of individual maps and the cultural environment that they spring from and exemplify including one pre Columbian map Transformative Sustainable Development Kei Otsuki, 2014-12-05 Recent debates about sustainable development have shifted their focus from fixing environmental problems in a technocratic and economic way to more fundamental changes in social political processes and relations In this context participation is a genuinely transformative approach to sustainable development yet the process by which participation leads to transformation is not sufficiently understood This book considers how the act of participating in sustainable development projects can bring about social transformation that is considered to be fair and just by the participants and non participants in a broader societal context Drawing on ideas from social theory and applied anthropology the book proposes a reflexivity based framework to analyse participation as a type of social action underpinned by primary experience Development projects have a transformative effect when participants are given the opportunity to reflect on their experience share the reflection with others and open new space for collective deliberation and change The book applies this framework to assess community based participatory projects in the Amazon African slums and rural settlements and disaster stricken areas in Japan It also outlines potential institutions of governance to institutionalize the change by referring to current food governance drawing out lessons with international relevance This book will be of interest to students of sustainable development environmental policy and development studies as well as practitioners and policy makers in these fields
