Forest Politics David Humphreys,2014-04-08 An important and timely book from the Foreword by Stanley Johnson A complete and absorbing history of a decade of intense international politics offers many insights for future negotiators of sustainable solutions Stephen Bass International Institute for Environment and Development Skillfully navigates the jungle of forest politics leaving us in no doubt that the verbal commitment to save the world s forests has yet to be translated into action on the ground The way forward must clearly lie in political commitments and international cooperation if forests are to continue to preserve life on Earth Francis Sullivan World Wide Fund for Nature Global deforestation and its attendant processes including soil degradation climate change and the loss of biological diversity emerged as international political issues during the 1980s prompting politicians to seek consensus on programmes and policies for the conservation and sustainable management of forests Yet global initiatives have been bedevilled by tensions between the North and South and between governments industry local communities and indigenous peoples Meanwhile rates of deforestation in the tropics are increasing and international political efforts are demonstrably failing *Forest Politics* carefully traces the evolution of

international cooperation on forests from the inception of the controversial International Tropical Timber Organization and the failed Tropical Forestry Action Programme in the mid 1980s to the creation of the Intergovernmental Panel on Forests in the mid 1990s The book also provides a detailed analysis of the negotiating stances of the parties involved in the divisive negotiations that took place prior to the 1992 Earth Summit in Rio de Janeiro and the equally factious negotiations for the International Tropical Timber Agreement of 1994 It provides a fascinating insight into the nature of such processes illustrating the difficulties that arise when concepts such as global commons come into conflict with national sovereignty Complete with annexes of important political documents and making extensive use of primary source material and interviews with participants Forest Politics presents case studies of all the major forest negotiations over the last 13 years It is an essential reference point for policy makers environmental campaigners and students and required reading for all those who care about the future of the world's forests David Humphreys is Research Fellow in Global Environmental Change at the Open University Originally published in 1996

The Rightful Way of Banking Shahid M. K. Ghauri, Omar Masood, 2015-02-05 It has taken over five centuries for banking to evolve to its present state and the concept of interest is undoubtedly the life blood of the whole financial system Interest was religiously prohibitive for centuries in several faiths such as Buddhism and Hinduism Judaism Christianity and Islam and was also strongly opposed by neo classical economists in the 1930s Interest riba is still outlawed in Islam with the term riba eater being one of the cruellest insults Islamic scholars have explained that the current practice of contracts without interest is a result of following the jurisprudence laid in the Quran and Sunnah of Prophet Mohammad sallallahu alayhi wa sallam As

such this mode of banking and finance without riba is recognised as Islamic banking This name has often been criticised by scholars as there is no philosophy of banking in Islamic teachings Consequently some of the banks that follow these regulations have adopted other names such as savings banks and finance houses This book explains the philosophies behind the current trend in riba free banking which is implemented as Islamic banking around the world The book is divided into five sections the first of which is related to the introduction of riba free banking The second is related to the fundamentals concepts and beliefs of riba free banking organisations while the third differentiates between two streams of financial models The fourth section explains risk management in riba free banking while the final section discusses international institutions related to the riba free financial system The book also contains a glossary of terms related to riba free banking and a terms index for reader s ease in academic study Women and Globalisation Pam Rajput,1994 Contributed articles on the loans provided by the international organizations to developing countries and its consequences on women and the poor
