Fate Of Virgil As Conceived By Dante:

Dante's Conception of Justice Allan H. Gilbert, 1925 Dante's Hermeneutics of Salvation Christine O'Connell Baur, 2007-01-01 Widely considered one of the greatest works produced in Europe during the Middle Ages Dante's *La Divina Commedia* The Divine Comedy has influenced countless generations of readers yet surprisingly few books have attempted to explain the philosophical relevance of this great epic Dante's *Hermeneutics of Salvation* takes on this ambitious project Turning to Heidegger to provide a theoretical framework for her study Christine O'Connell Baur illustrates how Dante's poem invites its readers to undertake their own existential hermeneutic journey to freedom As the pilgrim progresses in his journey she argues he moves beyond a merely literal infernal self interpretation that is grounded on present attachments to things in the world If we readers accompany the pilgrim in this hermeneutic conversion we will see that our own existential commitments can help disclose the meaning of our world and our own finite freedom A work of considerable importance both for and teachers and students of Dante studies Dante's *Hermeneutics of Salvation* will also prove useful to scholars working in medieval studies philosophy and literary theory **Ronald Knox's Lectures on Virgil's Aeneid** Francesca Bugliani Knox, 2023-07-13 This book makes available Ronald Knox's hitherto unpublished lectures on Virgil's *Aeneid* delivered at Trinity College Oxford as part of a lecture course on Virgil in 1912 Written with Knox's customary incisiveness and with frequent allusions to contemporary life the lectures are devoted to the appreciation of the *Aeneid* and focus on what he called the essential and dominant characteristics that make up its greatness They deal with Virgil's political and religious outlook ideas of the afterlife sense of romance and pathos narrative style sources versification and appreciation of scenery His interpretation of the relationship between Dido and Aeneas renders redundant the question much debated to this day of whether Aeneas loved Dido and also portrays Aeneas more sympathetically than is currently fashionable The additional introductory and critical essays by the contributors place the lectures in their historical and scholarly context bring out their enduring relevance and illustrate how Ronald Knox's distinctive approach might be still developed to advantage As Robert Speaight noted in his presidential address to the Virgil Society in 1958 many of us who love our Virgil will now understand him better because Ronald Knox loved and understood him so well **The Fate of Virgil as Conceived by Dante** Melville Best Anderson, 1931 *Dante's Pluralism and the Islamic Philosophy of Religion* G. Stone, 2006-05-12 This book explores the Islamic roots of the Western values of tolerance and religious pluralism and considers Dante from the perspective of the Arab Islamic philosophical tradition It examines the relations between Islamic and Western thought the historical origins of Western values and the tradition of tolerance in classical Islamic thought *Paganism in the Middle Ages* Carlos G. Steel, John Marenbon, Werner Verbeke, 2012 In this volume the persistence resurgence threat fascination and repression of various forms of pagan culture are studied in an interdisciplinary perspective from late antiquity to the upcoming Renaissance The contributions deal with the survival of pagan beliefs and practices as well as with the Christianization of

pagan rural populations and with the different strategies of oppression of pagan beliefs They deal with the problems raised by the encounter with pagan cultures outside the Muslim world and examine how philosophers attempted to save the great philosophers and poets from ancient culture notwithstanding their paganism The contributors also study the fascination of classic pagan culture among friars in the fourteenth and fifteenth centuries and the imitation of pagan models of virtue and mythology in Renaissance poetry Contributors Carlos Steel KU Leuven University of Leuven John Marenbon Trinity College Cambridge Ludo Milis University of Ghent Marc Andr Wagner Brigitte Meijns University of Leuven Rob Meens University of Utrecht Edina Bozoky Universit de Poitiers Henryk Anzulewicz Albertus Magnus Institut Bonn Robrecht Lievens KU Leuven University of Leuven Stefano Pittaluga Universit di Genova Anna Akasoy Ruhr Universitat Bochum [Dante Encyclopedia](#) Richard Lansing, 2010-09-13 Available for the first time in paperback this essential resource presents a systematic introduction to Dante s life and works his cultural context and intellectual legacy The only such work available in English this Encyclopedia brings together contemporary theories on Dante summarizing them in clear and vivid prose provides in depth discussions of the Divine Comedy looking at title and form moral structure allegory and realism manuscript tradition and also taking account of the various editions of the work over the centuries contains numerous entries on Dante s other important writings and on the major subjects covered within them addresses connections between Dante and philosophy theology poetics art psychology science and music as well as critical perspective across the ages from Dante s first critics to the present *Encyclopedia of Satanism* James Lewis, **The Emergence of Subjectivity in the Ancient and Medieval World** Jon Stewart, 2020-03-24 The Emergence of Subjectivity in the Ancient and Medieval World An Interpretation of Western Civilization represents a combination of different genres cultural history philosophical anthropology and textbook It follows a handful of different but interrelated themes through more than a dozen texts that were written over a period of several millennia and by means of an analysis of these texts presents a theory of the development of Western civilization from antiquity to the Middle Ages The main line of argument traces the various self conceptions of different cultures as they developed historically reflecting different views of what it is to be human The thesis of the volume is that through examination of these changes we can discern the gradual emergence of what we today call inwardness subjectivity and individual freedom As human civilization took its first tenuous steps it had a very limited conception of the individual Instead the dominant principle was that of the wider group the family clan or people Only in the course of history did the idea of what we now know as individuality begin to emerge and it took millennia for this idea to be fully recognized and developed The conception of human beings as having a sphere of inwardness and subjectivity subsequently had a sweeping impact on all aspects of culture including philosophy religion law and art indeed this notion largely constitutes what is today referred to as modernity It is easy to lose sight of the fact that this modern conception of human subjectivity was not simply something given but rather the result of a long process of historical and cultural development **Dante's Divine Comedy in Early**

Renaissance England Jonathan Hughes, 2022-02-24 Dante's Divine Comedy in Early Renaissance England compares the intellectual, emotional, and religious world of Dante in 13th century Florence with that of a group of English intellectuals gathered around Humphrey Duke of Gloucester, uncle of the King Henry VI. Here Jonathan Hughes establishes that there was a Renaissance in 15th century England encouraged by the discovery and translations of works of Greek philosophers and developments in science and medicine, and that vernacular writers in Gloucester's circle such as John Lydgate and Robert Hoccleve were of fundamental importance in exploring the meaning of the self and man's relationship with the natural world and the classical past. However, the appearance in 15th century England of Dante's *Commedia*, the most popular work of the Middle Ages, served to remind writers and readers of the cost of intellectual enquiry, the loss of faith in a harmonious and beautiful world, the redemptive power of the love of a woman, and the tangible presence of an afterlife. Engagingly written and meticulously researched, this innovative study shines a new perspective on Dante scholarship as well as offering a unique analysis of intellectual thought and culture in 15th century England.

Dante's Masterplot and Alternative Narratives in the *Commedia* Nicolò Crisafi, 2022 Alongside traditional notions of Dante's trademark plurality of linguistic registers and styles, this book argues that his narrative pluralism can and should play a key role in contemporary and future readings of the *Commedia*.

Space in Holocaust Research Janine Fubel, Alexandra Klei, Annika Wienert, 2024-05-20 In recent years the issue of space has sparked debates in the field of Holocaust Studies. The book demonstrates the transdisciplinary potential of space-related approaches. The editors suggest that spatial thinking can foster a dialogue on the history, aftermath, and memory of the Holocaust that transcends disciplinary boundaries. Artworks by Yael Atzmony serve as a prologue to the volume, inviting us to reflect on the complicated relation of the actual crime site of the Sobibor extermination camp to family memory, archival sources, and material traces. In the first part of the book, renowned scholars introduce readers to the relevance of space for key aspects of Holocaust Studies. In the second part, nine original case studies demonstrate how and to what ends spatial thinking in Holocaust research can be put into practice. In four introductory essays, the editors identify spatial configurations that transcend conventional disciplinary, chronological, or geographical systematizations: *Fleeting Spaces*, *Institutionalized Spaces*, *Bordering Spaces*, *Spatial Relations*. Drawing on a host of theoretical concepts and addressing various historical contexts as well as different types of media, this book offers scholars and students valuable insights into cutting-edge international scholarly debates.

A Catalogue of the Junius Spencer Morgan Collection of Virgil in the Princeton University Library Craig Kallendorf, 2009 The Junius Spencer Morgan collection at Princeton University consists of over 700 titles totaling around 900 volumes of editions of the Roman poet Virgil (70-19 BC) in Latin and in various vernacular languages. Technically, the collection includes items ranging from the first printed edition (Rome 1469) to the present, but the focus is strongly on material published in the early modern period. This collection was formed by Junius Spencer Morgan, the nephew of the financier J. P. Morgan. Morgan's interest in Virgil was undoubtedly encouraged during his

student days at Princeton and reflects his efforts to obtain the best copies he could find of items noteworthy for their scholarship their illustrations or their place in publishing history The result is one of the largest collections of early printed editions of Virgil in the world a collection whose balance and integrity make it the proper beginning place for research in this field Given Virgil's central place in western education during the early centuries of printing the catalogue of the Morgan collection should be of interest to art historians cultural historians and historians of education as well as classicists and specialists in printing history and the history of the book This handsomely produced volume includes close to fifty full page color illustrations from the collection

Fornari, 2020-09-01 This magisterial reflection on the history and destiny of the West compares Greco Roman civilization and the Judeo Christian tradition in order to understand what both unites and divides them Mediation understood as a collective symbolic experience gives society unity and meaning putting human beings in contact with a universal object known as the world or reality But unity has a price the very force that enables peaceful coexistence also makes us prone to conflict As a result in order to find a common point of convergence of at one moment someone must be sacrificed Sacrifice then is the historical pillar of mediation It was endorsed in a cosmic religious sense in antiquity and rejected for ethical reasons in modernity where the Judeo Christian tradition plays an intermediate role in condemning sacrificial violence as such while accepting sacrifice as a voluntary act offered to save other human beings Today as we face the collapse of all shared mediations this intermediating solution offers a way out of our moral and cultural plight

Ambition and Anxiety Line

Henriksen, 2006-01-01 This comparative study investigates the epic lineage that can be traced back from Derek Walcott's Omeros and Ezra Pound's Cantos through Dante's Divina Commedia to the epic poems of Virgil and Homer and identifies and discusses in detail a number of recurrent key topoi A fresh definition of the concept of genre is worked out and presented based on readings of Homer The study reads Pound's and Walcott's poetics in the light of Roman Jakobson's notions of metonymy and metaphor placing their long poems at the respective opposite ends of these language poles The notion of epic ambition refers to the poetic prestige attached to the epic genre whereas the non Bloomian anxiety occurs when the poet faces not only the risk that his project might fail but especially the moral implications of that ambition and the fear that it might prove presumptuous The drafts of Walcott's Omeros are here examined for the first time and attention is also devoted to Pound's creative procedures as illustrated by the drafts of the Cantos Although there has already been an intermittent critical focus on the classical and Dantean antecedents of Walcott's poetry the present study is the first to bring together the whole range of epic intertextualities underlying Omeros and the first to read this Caribbean masterpiece in the context of Pound's achievement

Milton's Lycidas John Milton, 1902

Parting Knowledge James Wetzel, 2013-08-08 There are forms of knowing that seem either to come from a parting or to require one Paradigmatically in Genesis Adam parts from God in order to join in knowledge with his partner the flesh of his flesh and the result is a bereft but not unpromising knowledge

looking like a labor of love Saint Augustine famously some would say infamously reads the Genesis paradigm of knowing as a story of original sin where parting is both damnable and disfiguring and reuniting a matter of incomprehensible grace Roughly half the essays in this collection engage directly with Augustine's theological animus and follow his thinking into self division perversity of will grief conversion and the aspiration for transcendence The remaining ones more concerned with grace than with sin bring an animus more distantly Augustinian to the preemption of forgiveness and the persistence of hell morality and its limits sexual piety strange beauty and a philosophy that takes in confession The common pull of all the essays is towards the imperfection in self knowledge a place of disfigurement perhaps but also a nod to transformation
