Does God's command to love your enemy include forgiving the drunk driver who killed your only child? It's Christmas Eve but Frank and Elizabeth Morris have no reason to celebrate. Joy, peace on earth and good will toward men have been replaced by heartbreak, hatred and bitterness. Their beloved only child, eighteen-year-old Ted, has just died from injuries sustained in a horrific automobile accident. Days later they would learn that their son had been killed at the hands of a drunk driver. The Morrises' strong Christian faith is shaken to its foundations as grief chokes every bit of hope from their lives. They demand the death penalty for their son's killer, a young alcoholic named Tommy Pigage. When the charges are reduced from murder to manslaughter, they are outraged by the injustice of it all and anguished by God's seeming indifference to their suffering. Tormented by their inability to love their enemy, they continue to stumble through dark days and darker nights. It isn't until Elizabeth opens up her car door and her heart to the troubled young man who killed her son that the light of God's transforming love begins to seep through the cracks of their broken lives.

After werewolves attack her family, Amelia Singer escapes to Cutter's Folly in search of her long lost grandmother. There she finds the strangest revelation yet: not only is she descended from a long line of shapeshifters, Amelia's firstborn is destined to lead the pack to dominion over all others. Now power-hungry shifters everywhere will stop at nothing to share in that prophecy. Choosing a mate is the only way to end the violence, but how can she be expected to choose a man she's known for less than a week? At the heart of this struggle, Amelia is torn between Chase, who makes her pulse race with a single sultry glance, and Cutter, a reclusive but tempting loner with secrets of his own. Can fiercely independent Amelia find happiness with the pack, or will she rebel under the pressure and take her chances on her own? [Databook on Nonfatal Injury](#)

Ted R. Miller, 1995. Injury may be the most preventable major health care problem in the United States. It is also extremely costly, with one in eight hospital discharges and days of care relating to injury. Yet published data on injury frequency, costs, and consequences are limited. This book is a reference volume with a correction factor for inflation updates and should therefore be useful for many years. The book examines selected costs of injury by body region, by body part, and by nature of injury, e.g., fracture, laceration. It estimates long-term consequences and addresses the costs of occupational injuries, consumer product injuries, intentional interpersonal injuries, motor vehicle crash injuries, and suicide. This information is for hospitals, lawyers, and expert witnesses, insurers, doctors, program planners, and evaluators, safety advocates, and injured people themselves. The health care reform debate has highlighted the importance of data in monitoring and shaping national health policy. The costs and level of detail reported here should also help inform health policy discussions. **Behaving Decently**
