**American Women in Mission** Dana Lee Robert, 1996 The stereotype of the woman missionary has ranged from that of the longsuffering wife characterized by the epitaph Died given over to hospitality to that of the spinster in her unstylish dress and wire rimmed glasses alone somewhere for thirty years teaching heathen children Like all caricatures those of the exhausted wife and frustrated old maid carry some truth the underlying message of the stereotypes is that missionary women were perceived as marginal to the central tasks of mission Rather than being remembered for preaching the gospel the quintessential male task missionary women were noted for meeting human needs and helping others sacrificing themselves without plan or reason all for the sake of bringing the world to Jesus Christ Historical evidence however gives lie to the truism that women missionaries were and are doers but not thinkers reactive secondary figures rather than proactive primary ones The first American women to serve as foreign missionaries in 1812 were among the best educated women of their time Although barred from obtaining the college education or ministerial credentials of their husbands the early missionary wives had read their Jonathan Edwards and Samuel Hopkins Not only did they go abroad with particular theologies to share but their identities as women caused them to develop gender based mission theories Early nineteenth century women seldom wrote theologies of mission but they wrote letters and kept journals that reveal a thought world and set of assumptions about women s roles in the missionary task The activities of missionary wives were not random they were part of a mission strategy that gave women a particular role in the advancement of the reign of God By moving from mission field to mission field in chronological order of missionary presence Robert charts missiological developments as they took place in dialogue with the urgent context of the day Each case study marks the beginning of the mission theory Baptist women in Burma for example are only considered in their first decades there and are not traced into the present Robert believes that at this early stage of research into women s

mission theory integrity and analysis lies more in a succession of contextualized case studies than in gross generalizations

Cradle of Gold Christopher Heaney, 2011-07-05 In 1911 a young Peruvian boy led an American explorer and Yale historian named Hiram Bingham into the ancient Incan citadel of Machu Picchu Hidden amidst the breathtaking heights of the Andes this settlement of temples tombs and palaces was the Incas greatest achievement Tall handsome and sure of his destiny Bingham believed that Machu Picchu was the Incas final refuge where they fled the Spanish Conquistadors Bingham made Machu Picchu famous and his dispatches from the jungle cast him as the swashbuckling hero romanticized today as a true Indiana Jones like character But his excavation of the site raised old specters of conquest and plunder and met with an indigenous nationalism that changed the course of Peruvian history Though Bingham successfully realized his dream of bringing Machu Picchu s treasure of skulls bones and artifacts back to the United States conflict between Yale and Peru persists through the present day over a simple question Who owns Inca history In this grand sweeping narrative Christopher Heaney takes the reader into the heart of Peru s past to relive the dramatic story of the final years of the Incan empire the exhilarating recovery of their final cities and the thought provoking fight over their future Drawing on original research in untapped archives Heaney vividly portrays both a stunning landscape and the complex history of a fascinating region that continues to inspire awe and controversy today

**Class Unknown** Mark Pittenger,2012-08-13 How well meaning intellectuals helped develop our understanding of the American underclass Since the Gilded Age social scientists middle class reformers and writers have left the comforts of their offices to pass as steel workers coal miners assembly line laborers waitresses hoboes and other working and poor people in an attempt to gain a fuller and more authentic understanding of the lives of the working class and the poor In this first sweeping study of undercover investigations of work and poverty in America award winning historian Mark Pittenger examines how intellectuals were shaped by their experiences with the poor and how despite their sympathy toward working class people they unintentionally helped to develop the contemporary concept of a degraded and other American underclass While contributing to our understanding of the history of American social thought Class Unknown offers a new perspective on contemporary debates over how we understand and represent our own society and its class divisions **Class Divide** Howard Gillette, Jr.,2015-05-21 Members of the Yale College class of 1964 the first class to matriculate in the 1960s were poised to take up the positions of leadership that typically followed an Ivy League education Their mission gained special urgency from the inspiration of John F Kennedy s presidency and the civil rights movement as it moved north Ultimately

these men proved successful in traditional terms in the professions in politics and in philanthropy and yet something was different. Challenged by the issues that would define a new era, their lives took a number of unexpected turns. Instead of confirming the triumphal perspective they grew up with in the years after World War II, they embraced new and often conflicting ideas. In the process, the group splintered. In *Class Divide*, Howard Gillette Jr. draws particularly on more than one hundred interviews with representative members of the Yale class of 64 to examine how they were challenged by the issues that would define the 1960s: civil rights, the power of the state at home and abroad, sexual mores, and personal liberty, religious faith, and social responsibility. Among those whose life courses Gillette follows from their formative years in college through the years after graduation are the politicians Joe Lieberman and John Ashcroft, the Harvard humanities professor Stephen Greenblatt, the environmental leader Gus Speth, and the civil rights activist Stephen Bingham. Although their Ivy League education gave them access to positions in the national elite, the members of Yale 64 nonetheless were too divided to be part of a unified leadership class. Try as they might, they found it impossible to shape a new consensus to replace the one that was undone in their college years and early adulthood.

**Errand to the World** William R. Hutchison, 1987 In this comprehensive history of American foreign mission thought from the colonial period to the current era, William R. Hutchinson analyzes the varied and changing expressions of an American sense of mission that was more than religious in its implications. His account illuminates the dilemmas intrinsic to any venture in which one culture attempts to apply its ideals and technology to the supposed benefit of another.

**Fred Allen's Radio Comedy** Alan Havig, 1990 A notable example of radio at its best. Back Stage SHOOT In 1954, James Thurber wrote, "You can count on the thumb of one hand the American who is at once a comedian, a humorist, a wit, and a satirist, and his name is Fred Allen." Several decades after his death, and more than forty years since his radio program left the air, Fred Allen's reputation as a respected humorist remains intact. In this book, Alan Havig explores the roots of his comedy, the themes it exploited, the problems and challenges that faced the radio comedy writer, and Allen's unique success with the one-dimensional medium of radio. Tracing a career that lasted from 1912 into the 1950s and encompassed vaudeville, Broadway revues, movies, radio, and television, Havig describes the verbal slapstick style that was Fred Allen's hallmark and legacy to American comedy. More than a biography of Fred Allen, this is a study of the development of the radio industry, a discussion of American humor, and the story of how one relates to the other. Using a wide variety of published and unpublished sources, including the Allen Papers, Havig analyzes Allen's radio comedy of the 1930s and 40s within the context of the peculiar advantages and limitations of radio as a medium for comedy. He argues that Allen did not merely transfer vaudeville routines to a non-visual medium as did Eddie Cantor, Ed Wynn, and others. Allen developed a comedic style that depended on word play, sound effects, and on his audience's ability and readiness to imagine a visual world in which his eccentric characters operated. Havig illustrates his story with numerous examples of Allen's humor, with fascinating anecdotes and excerpts from radio broadcasts. In accounting for the comedian's success, he deals with

vaudeville comedy writing sponsor s demands and censorship of material and the organizational world of radio broadcasting companies Describing radio as an instrument of wit Fred Allen wrote on radio you could do subtle writing because you had access to the imagination that was why I liked radio we had some fun Readers will also have some fun remembering or discovering for the first time Allen s Alley and the magic of radio comedy in its prime Fred was one of the greatest of vaudeville and radio comedians Anyone even casually concerned with the state of American humor will be well advised to give his work as Mr Havig presents it careful study Steve Allen Alan Havig has done an intelligent careful and exhaustive research job This is a well written solid performance biography J Fred MacDonald Curator of the Museum of Broadcast Communication Chicago

Life After Death Lisa Wilson,1992 Lisa Wilson traces the experiences of widows in a society that was developing a new ideology of proper female behavior Using wills court records almshouse registers correspondence and diaries to explore the lives of widows during this period Wilson alters our understanding of the diversity of women s experiences and adds a new dimension to the separate spheres explanation of gender roles For this group of early American women family concerns rather than the dictates of femininity lay at the core of their lives

**Paths of Duty** Patricia Grimshaw,2019-03-31 Twenty three year old Laura Fish Judd left rural Massachusetts in 1827 for the Hawaiian islands one of eighty young American women who enlisted in the effort to Christianize the islands between 1819 and 1850 Only a month before after receiving a marriage proposal from a young physician in need of a wife to qualify for mission service she had written in her diary The die is cast I have in the strength of the Lord consented Rebecca like I WILL GO yes I will leave friends native land everything for Jesus Laura Judd and other ambitious young women consented to hasty marriages with virtual strangers to achieve their goal of carrying Christ s message to the heathen As Patricia Grimshaw s compelling study makes clear these women were driven by a desire for important independent life work that went well beyond their expected roles as dutiful wives The ambitions hopes and fears of those eighty pioneer women make a poignant and fascinating story But Paths of Duty does more than recount the experiences of a group of individuals Grimshaw shows how the mission women reflected the larger society of which they were part and through their story shed new light on the role of American Protestant mission in Hawaii Although the women s public role in mission work was limited they were highly influential in their daily and seemingly mundane interactions with Hawaiian women The American women s ethnocentricity made them quite incapable of appreciating Hawaiian culture on its own terms but their notions of proper femininity and female behavior were effectively transmitted to Hawaiian girls and women Paths of Duty provides a deeper understanding of this neglected process of acculturation in the islands and its eventual implications for Hawaii s entry into the American sphere of influence
