Fathers Mechanical Universe A Novel:

Fiction in the Quantum Universe Susan Strehle, 2000-11-09 In this outstanding book Susan Strehle argues that a new fiction has developed from the influence of modern physics She calls this new fiction actualism and within that framework she offers a critical analysis of major novels by Thomas Pynchon Robert Coover William Gaddis John Barth Margaret Atwood and Donald Barthelme According to Strehle the actualists balance attention to questions of art with an engaged meditation on the external actual world While these actualist novels diverge markedly from realistic practice Strehle claims that they do so in order to reflect more acutely what we now understand as real Reality is no longer realistic in the new physical or quantum universe reality is discontinuous energetic relative statistical subjectively seen and uncertainly known all terms taken from new physics Actualist fiction is characterized by incompletions indeterminacy and open endings unsatisfying to the readerly wish for fulfilled promises and completed patterns Gravity's Rainbow for example ends not with a period but with a dash Strehle argues that such innovations in narrative reflect on twentieth century history politics science and discourse

The Novel: An Alternative History Steven Moore, 2013-09-17 Encyclopedic in scope and heroically audacious The Novel An Alternative History is the first attempt in over a century to tell the complete story of our most popular literary form Contrary to conventional wisdom the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics the book relaxes into a world tour of the pre modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call Greek romances Roman satires medieval Sanskrit novels narrated by parrots Byzantine erotic thrillers 5000 page Arabian adventure novels Icelandic sagas delicate Persian novels in verse Japanese war stories even Mayan graphic novels Throughout Moore celebrates the innovators in fiction tracing a continuum between these pre modern experimentalists and their postmodern progeny Irreverent iconoclastic informative entertaining The Novel An Alternative History is a landmark in literary criticism that will encourage readers to rethink the novel
