FATHERS FAMILIES & THE OUTSIDE WORLD GILLIAN WILCE, 2019-06-14 **Fathers and Their Families** Stanley H. Cath, Alan R. Gurwitt, Linda Gunsberg, 2013-05-13 In 28 chapters and extensive editorial commentary this book explores the changing roles of fathers changes prompted partly by societal shifts and partly by changes in the family and in traditional parental roles

Among the topical studies on **Fathers, Families, and the State in France, 1914-1945** Kristen Stromberg Childers, 2018-07-05 The state's policy with regard to fathers and fatherhood had a great impact on concepts of citizenship and gender in France in the era of the two World Wars Drawing on new material that has only recently become available from the archives of the Vichy regime Kristen Stromberg Childers analyzes the ways fathers were promoted as saviors of the nation after France's humiliating defeat by the Germans in June 1940 Childers argues that concern for the family and for the status of fathers in modern France was not merely a response to falling birthrates and German aggression but was fundamental to the very notion of citizenship and political participation The debate on men as gendered beings Childers

demonstrates is central to the political social and cultural history of France in the modern age The father figure became a focus as participants from all classes and across the political spectrum debated what was wrong with the French family and what policies were needed to remedy the problem Childers examines how these policies were implemented what they reveal about the development of the welfare state in France and how they help explain the importance of Vichy in twentieth century French history Twenty eight illustrations including fifteen photographs many never previously published complement her argument

Missional fatherhood as praxis to Christian families who grapple with father absence Fazel Ebriham Freeks, 2021-12-01 All human beings are made in the image of God and form part of God's creation Families per se are valuable to God and they can be infused with God given solutions biblically based to the challenges they are facing One of these challenges are father absence and it is a devastated social ill in many communities Even so missional fatherhood can be a buffer against father absence un involvement of fathers and numerous family issues Missional fathers are filled with a God given mission aiming to instil a love for Christ in the hearts of their children They are not only called but obliged to lead sacrificial lives for the sake of their families Their hearts engage with their children on aspects in life that matters the most Transforming their minds by the Word of God and serving God the Father is far reaching Missional fathers are not only disciple makers in their homes but also in their respective communities This present day notion is God's calling on every father to be part of the Gospel and God's holistic mission and is in response to Jesus's Great Commission to make disciples of all people including families All who decided and turn to the way of Jesus Christ form part of the mission that God had given the Son

The Century Josiah Gilbert Holland, Richard Watson Gilder, 1917 *Scribner's Monthly, an Illustrated Magazine for the People*, 1917

The Obamas and a (Post) Racial America? Gregory Parks, Matthew Hughey, 2011-01-28 The

United States has taken a long and winding road to racial equality especially as it pertains to relations between blacks and whites When Barack Hussein Obama was elected as the forty fourth President of the United States and first black person to occupy the highest office in the land many wondered whether that road had finally come to an end Do we now live in a post racial nation This volume contends that despite the election of the first black President and rise of a black American family as possibly the most recognized family the world over race is still a very salient issue particularly in the United States But the prominence of the Obamas on the world stage and the positive image they project may hasten the day when America is indeed post racial even at the implicit level

Children of Different Worlds Beatrice Blyth Whiting, Carolyn P. Edwards, Carolyn Pope Edwards, Carol R. Ember, 1988 The culmination of twenty years of research this book is a cross cultural exploration of the ways in which age gender and culture affect the development of social behavior in children The authors and their associates observed children between the ages of two and ten going about their daily lives in communities in Africa India the Philippines Okinawa Mexico and the United States This rich fund of data has enabled them to identify the types of social behavior that are universal and those which differ from one cultural environment to another Whiting and

Edwards shed new light on the nature nurture question in analyzing the behavior of young children they focus on the relative contributions of universal physiological maturation and universal social imperatives They point out cross cultural similarities but also note the differences in experience between children who grow up in simple and in complex societies They show that knowledge of the company children keep and of the proportion of time they spend with various categories of people makes it possible to predict important aspects of their interpersonal behavior An extension and elaboration of the classic *Children of Six Cultures* Harvard 1975 *Children of Different Worlds* will appeal to the same audience developmental psychologists social psychologists anthropologists and educators and is sure to be equally influential **Fatherhood, Adolescence and Gender**

in Chinese Families Qiong Xu, 2017-02-07 Little is known about the roles of fathers in non western cultures Given the changing socio economic and political circumstances of China Xu identifies the importance of investigating Chinese fathers particularly in dual earner families as women s participation in the labour market increases This study of father daughter relationships examines their perspectives on their relationships and identities The book seeks to understand how girls construct their feminine identities as teenage girls and how fathers understand their masculine identities outside the workplace It further explores their family practices and how they negotiate parental authority and adolescent independence Inviting us to think about Chinese people s attitudes family practice emotions and aspirations which constitute a crucial complement to our understanding of the remaking of Chinese society and Chinese lives *Fatherhood Adolescence and Gender in Chinese Families* focuses on how the widespread social and economic reforms interact with traditional attitudes rooted in Confucianism to provide new contexts for parent child and gender relationships Fathers across Cultures Jaipaul L. Roopnarine, 2015-08-26 This volume offers a comprehensive up to date synopsis of fathering and father child relationships in diverse regions of the world helping students and practitioners alike understand cultural variations in male parenting Interest in the role of the father and his influence on children s development and economic well being has grown considerably This edited volume uses detailed accounts to provide culturally situated analysis of fathering in cultures around the world The book s contributors a multidisciplinary group of scholars bring together the most recent theoretical thinking and research findings on fatherhood and fathering in cultural communities across developed recently developed and developing societies They address such issues as fathering and gender equality in caregiving concepts of masculinity in contemporary societies fathering in various ethnic groups immigrant fathers fathering and childhood outcomes and social policies as they affect and are affected by issues related to fathering Organized geographically the book scrutinizes major sociocultural demographic economic and other factors that influence men s relationships within families It shows how economic conditions impact men s involvement with children and considers the effects of ideological belief systems and views of spousal partner roles and responsibilities The analysis is underpinned by recent data that underscores the significance of fathers involvement with and investment in the well being of their children The Unemployed Man and His Family Mirra

Komarovsky,2004-10-22 In *The Unemployed Man and His Family* noted sociologist and feminist Mirra Komarovsky poses the question what happens to the authority of the male head of the family when he fails as a provider Between 1935 and 1936 Komarovsky interviewed 59 families in 1935 36 in which the male had been unemployed for at least a year Interestingly in many cases the husband s struggle in the economic sphere did not offset the solidity and happiness of the marital relationship But unemployment seems to have affected the men s sense of their own position as head of household and providers For one thing it undermined their sense of themselves as breadwinners Most found it unbearably humiliating to accept relief Perhaps her most important finding which still resonates today was that those men who thought of themselves exclusively as providers suffered far more than those who had developed alternative identities as father and husband

Fathers and Families Henry B. Biller,1993-01-21 Biller well known for his extensive research into the impacts of involved fathering or the absence thereof provides a comprehensive straightforward analysis of just how important paternal involvement really is He describes the great advantages accruing to a child when the father as well as the mother actively participates in the parenting process Fathers who sustain high interest and a true presence in a child s nurturing significantly influence body image self esteem moral standards intellectual achievement and social competency The benefits Biller shows extend beyond the father child relationship and include heightened spousal satisfaction and a sense of overall family well being The reciprocal influences of father mother and child development are considered within a lifespan biopsychosocial perspective This is an important and compelling treatment of a topic of immense concern not only to individual families but to society as a whole Biller by relating specific issues to fathers roles and influences offers the first integrated analysis of just how important a father s caring presence and active involvement is to his child s and spouse s psychosocial well being This balanced study of paternal factors addresses not only such issues as nurturance discipline and the cultivation of self esteem intelligence and creativity but also family problems so evident in current society There is a thorough analysis concerning complex connections among gender roles parenting and personality development The work is highly substantive realistic and encouraging in its potential for guidance and offers insightful useful conclusions on paternal behavior and influences

The Family Koen Matthijs,Ann van den Troost,1998 After an academic career of 35 years most of which as ordinary professor Prof Dr Wilfried Dumon became professor emeritus at the end of September 1998 Together with a few others he was present at the cradle of Leuven sociology in the middle of the 1960s He participated in the construction of the necessary administrative logistic and academic structures as well as in the establishment of the research and educational domains in which Leuven sociology would specialize Very soon there developed a unique sociological perspective that is known as the Leuven triangle the integration of sociological theory methodology and social policy Within this framework the name of Wilfried Dumon is inextricably bound up with the sociology of the family or more broadly with the family sciences Without doubt he was the standard bearer of Flemish family sociology Hundreds of students profited from his

unusual others would use much more colorful adjectives form of teaching in both form and content He was directly or indirectly responsible for virtually all the courses in Leuven family sociology also outside of his own Faculty And those whose licentiate or doctoral thesis dealt with a theme that was in any way related to subjects like marriage the family or sexuality were invariably confronted with his critical analysis and unique vocabulary Wilfried Dumon also took on many policy positions such as editorial secretary or editor in chief of journals director or manager of all sorts of institutions and member director or chairman of several commissions and associations And all of this both nationally and internationally Indeed Wilfried Dumon had and has an extensive and tightly knit network of warm academic contacts the world over On the occasion of his retirement a *liber amicorum* has been compiled With this initiative the Faculty of Social Sciences the Department of Sociology and the Section for the Sociology of the Family the Population and Health Care wish to express deep appreciation and gratitude for an inspirer and standard bearer More than 20 scholars wish to give an international salute to a highly valued colleague

Redefining Families Adele Eskeles Gottfried, Allen W. Gottfried, 2013-06-29 Families are undergoing dramatic changes in our society Our traditional views are being challenged by new family arrangements These new family arrangements are forcing redefinitions of what constitutes a family and raising significant issues regarding the potential developmental consequences for children in these families if such exist Moreover the ramifications of redefined families and their bearing on children's development extend into the legal political and societal arenas This book focuses on the relationships between diverse family arrangements and children's development as well as on legal and social implications Our interest in this area emanates from our experience in directing the Fullerton Longitudinal Study In the course of this investigation we observed families undergoing transformation most commonly in maternal employment and marital status Our initial research on the role of maternal employment in children's development provided the scientific foundation for our interest Just as we feel that maternal employment and dual earner families should be comprehensively researched regarding their relationships to children's development we also believe that other contemporary family arrangements should receive extensive attention in the developmental literature Hence the idea for this book emerged

The Meaning of Marriage Robert P. George, Jean Bethke Elshtain, 2017-04-01 *The Iron Triangle* United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Youth Violence, 1997

Redefining Fatherhood Nancy E. Dowd, 2000 Down law U of Florida offers a progressive discussion of the economic social and legal aspects of fathering making a case for greater emphasis on the social nurturing behavior involved in parenting to redefine the role men play in the lives of their children She also explores the barriers to such redefinition including concepts of masculinity the interconnections between fathers and mothers male violence and homophobia Annotation copyrighted by Book News Inc Portland OR
