Solomon, Natalie Canavor, Claire Meirowitz, 2010-11-03 150 powerful bite size presentation and communication solutions for motivating any audience to action colleagues employees customers anyone Three full books of breakthrough techniques for presenting and communicating more effectively Discover how to speak more confidently prepare well and manage anxiety connect with any audience especially customers know when to sell the steak and when to sell the sizzle supercharge your business writing for web and print and much more From world renowned leaders and experts including James O'Rourke Michael R Solomon Natalie Canavor and Claire Meirowitz **GB, GBT, GB/T Chinese Standard (English-translated version)-Catalog001-** Dr. Meng Yongye CODEOFCHINA, 2018-05-04 All English translated Chinese codes are available at www.codeofchina.com **Ancient Chinese Ink Sticks** Jaap den Hollander (NL), 2025-09-10 Abstract Inkmaking in plaques and small sticks is the main focus of this study Three historical inks Roman Hebrew and Hindu are worth mentioning Chinese ink production has a long continuous history beginning in 1046 BCE This study divides Chinese inkmakers into periods before and after 1795 The Chinese themselves are divided into families and their descendants Japanese inkmakers are mentioned indirectly Attention is paid to famous printed and illustrated Chinese books by inkstick makers from around 1400 1588 and 1605 These books can be useful for analyzing the texts and symbols on the inksticks and contribute to dating although in China people also tend to refer to older examples in later periods The external characteristics of Chinese and Japanese inksticks and their relationship to English watercolour boxes from the Regency period and their mutual dating are the main focus of this study From the mid 18th century onward there was a growing market for watercolour paint boxes in England In addition to paint cakes shopkeepers also placed a stick of Indian ink in the paint box These sticks originated primarily from China and were brought to England via the English East India Company These sticks are present in authentic antique watercolour paint boxes but are not a point of interest for many collectors Chinese ink sticks have a much longer

history than Regency watercolour paint boxes The sources for this research are very diverse Historical photos of antique watercolour paint boxes online on eBay are an interesting source for me Since about 2008 I have collected digital images of numerous objects for sale on eBay related to watercolour paint boxes and their relationship to objects in museums These images often provide reasonably easy to analyze images of antique ink sticks or fragments thereof Sellers of such boxes often show more detailed photos of the contents than museums Descriptions of cargoes from ships of the English East India Company and the sale of boxes of inksticks in London between 1800 and 1835 also provide a source for the connection between the availability and possible use of authentic Chinese inksticks in boxes A possible connection between manufacturers of watercolour paint boxes and the supply of inksticks via merchants on ships as well as connections with paint makers is also a focus of research Unfortunately this connection is still lacking For this purpose 18th and 19th century merchant archives should be available Relatedly museum collections in China and contemporary articles in Chinese on inkstick collections by collectors in China and abroad offer interesting source material Scholarly research has also been conducted on the relationship between brush inkstick inkstone and paper Four Treasures of the Study used in calligraphy and painting The use of black Chinese ink in painted scenes and accompanying texts falls outside the scope of this study Fortunately art supply suppliers offer a wealth of visual information and descriptions about the appearance of ink sticks in the second half of the 19th century through their historical catalogs Sources in company archives related to this area still need to be accessed Many old English language art supply catalogs from after 1841 have now been digitized and they show pages with illustrations of black ink ink sticks from 1875 onward The last printed examples I know of in Western catalogs from major suppliers date back to 1925 Collectors sometimes make rubbings with graphite on paper of the surface of an ink stick to illustrate the characters and other details However these are of limited use for digital character reading Thanks to the capabilities of AI Google Lens Google Translate Images and the seamless integration of Chinese characters into texts in Word Notepad and similar applications much material can now be easily stored digitally

analyses of a wide range of Chinese literary and visual texts from the beginning of the twentieth century through the contemporary period the thirteen essays in this volume challenge the view that canonical and popular culture are self evident and diametrically opposed categories and instead argue that the two cultural sensibilities are inextricably bound up with one another An international line up of contributors present detailed analyses of literary works and other cultural products that have previously been neglected by scholars while also examining more familiar authors and works from provocative new angles The essays include investigations into the cultural industries and contexts that produce the canonical and popular the position of contemporary popular works at the interstices of nostalgia and amnesia and also the ways in which cultural texts are inflected with gendered and erotic sensibilities while at the same time also functioning as objects of desire in its own right As the only volume of its kind to cover the entire span of the 20th century and also to consider the interplay of popular and canonical literature in modern China with comparable rigor Rethinking Chinese Popular Culture is an important resource for students and scholars of Chinese literature and culture
