Sandstrom, 2001-07-30 Based on empirical analysis this ethnographic fieldwork and collection of original articles on contemporary Protestant religions in Mexico and Central America examines regions ranging from the Pacific coast in the north to Guatemala in the south These new studies reveal that Protestantism was in the rise in the last decades of the twentieth century because it was opposing political structures that were largely unworkable in a new age of economic expansion and population growth The studies cover regional and local variations in the growth of Protestantism examine numerous reasons for the variations and compare rural villages with modern communities While the Catholic Church remains only a marginal player in the conflicts taking place in local communities the book concludes that the modern religious conflicts bear only a general resemblance to the anti Catholic issues that impelled the original Protestant Reformation in Europe Relying on traditional scientific principles of data recording and theory development the contributors look into the lives of contemporary rural people Indian and mestizo and provide data that enhance the general study of modern religious movements The chapters examine among other topics the relationship between religion and demography the role of leadership in church growth the theories of Max Weber relating capitalism and Protestantism religious conversion and the modernization of Indian communities Scholars and students who are interested in cultural anthropology religious change and religion in Latin America will find in these pages a unique and enlightening examination of Protestantism's rise and spread in Latin America **Getting Direction from God** Steve

Miguel de Unamuno's Quest for Faith Jan E. Evans, 2013-06-13 How can this life have meaning if at my death nothing of me remains This is the essential question with which Miguel de Unamuno the most accomplished Spanish man of letters of the twentieth century struggled during his entire life Unamuno's views have been the subject of vigorous debate Was he a Catholic a Protestant or an unbeliever Miguel de Unamuno's Quest for Faith seeks to appreciate and clarify Unamuno's faith commitments without diminishing or exaggerating them His historical context pulled him to equate knowledge with science but his existential angst told him humans must be something more than short lived products of matter He believed that his philosophy and the resulting faith that he held must have consequences for the choices he made to live out his life meaningfully Jan E Evans surveys what was at stake in Unamuno's desire to believe and the stance that he came to live with That stance is contrasted with thinkers whom he read and admired Søren Kierkegaard Blaise Pascal and William James Ultimately this book tests Unamuno's philosophy against his own criterion that demanded concrete actions that were motivated by principled passion It draws new readers of Unamuno into his world and provides critical new perspectives for those who know Unamuno's work well
