FEAR, WAR, AND THE BOMB

"P. M. S. Blackett's sober analysis of the most terrifying problem of our time has made any evaluation of the military and political consequences of atomic energy that has thus far appeared . . . a notable achievement. It sets itself courageously against blindness and prejudice. It demolishes myths and with inexorable logic demonstrates the futility of our wild fears. It contains a mastery of facts with an exceptional ability to organize and present them. Anyone who has tried to bring the innumerable elements of the problem into proper order will appreciate Blackett's accomplishment."

—James R. Newman, former counsel,
U. S. Senate Committee on Atomic
Energy, and co-author of *THE CON-
TROL OF ATOMIC ENERGY*. New
Republic.

"Breaks heavy and unending orthodoxy—keen insight, originality and willingness to question the accepted axioms of our time . . . a brilliant analysis of the problem posed by the great discovery of our time . . . the work may well become a milestone in post-Hiroshima thinking—if only because it strips off so much of the mumbo-jumbo and reveals the problem of atomic energy in its true relation to the current death struggle of anarchic nationalism."

—James P. Warburg, former Deputy
Director, U. S. Office of War Infor-
mation.

"Atomic energy, bogged by disarmament discussions, has produced many prophets of war. All honour is due, therefore, to Professor P. M. S. Blackett, eminent Manchester University physicist, for the challenge he issues to the disarmers."

—Manchester Evening News.

"This book is essentially an appeal to reason and is probably the most important recent contribution to the most pressing problem of our time."

—W. F. Vann, Member of Parliament.

Fear War The Bomb:

Fear, War and the Bomb Patrick Maynard Stuart Blackett (Baron Blackett), 1949 *Hiroshima in History* Robert James Maddox, 2007 When President Harry Truman authorized the use of atomic weapons against Japan he did so to end a bloody war that would have been bloodier still had the planned invasion of Japan proved necessary Revisionists claim that Truman's real interest was a power play with the Soviet Union and that the Japanese would have surrendered even earlier had the retention of their imperial system been assured Truman wanted the war to continue they insist in order to show off America's powerful new weapon This anthology exposes revisionist fallacies about Truman's motives the cost of an invasion and the question of Japan's surrender Essays by prominent military and diplomatic historians reveal the hollowness of revisionist claims exposing the degree to which these agenda driven scholars have manipulated the historical record to support their contentions They show that although some Japanese businessmen and minor officials indicated a willingness to negotiate peace no one in a governmental decision making capacity even suggested surrender And although casualty estimates for an invasion vary considerably the more authoritative approximations point to the very bloodbath that Truman sought to avoid Volume editor Robert Maddox first examines the writings of revisionist Gar Alperovitz to expose the unscholarly methods Alperovitz employed to support his claims then distinguished Japanese historian Sadao Asada reveals how difficult it was for his country's peace faction to prevail even after the bombs had been dropped Other contributors point to continuing Japanese military buildups analyze the revisionists low casualty estimates for an invasion reveal manipulations of the Strategic Bombing Survey of 1946 and show how even the exhibit commemorating the fiftieth anniversary of the bombing at the Smithsonian National Air and Space Museum hewed to the revisionist line And a close reading of Tsuyoshi Hasegawa's acclaimed *Racing the Enemy* exposes many grave discrepancies between that recent revisionist text and its sources The use of atomic bombs against Japan remains one of the most controversial issues in American history Gathered in a single volume for the first time these insightful readings take a major step toward settling that controversy by showing how insubstantial Hiroshima revisionism really is and that sometimes history cannot proceed without decisive action however regrettable

America in the 20th Century, 2003 **The Most Controversial Decision** Wilson D. Miscamble, 2011-04-11 This book explores the American use of atomic bombs and the role these weapons played in the defeat of the Japanese Empire in World War II It focuses on President Harry S Truman's decision making regarding this most controversial of all his decisions The book relies on notable archival research and the best and most recent scholarship on the subject to fashion an incisive overview that is fair and forceful in its judgments This study addresses a subject that has been much debated among historians and it confronts head on the highly disputed claim that the Truman administration practised atomic diplomacy The book goes beyond its central historical analysis to ask whether it was morally right for the United States to use these terrible weapons against Hiroshima and Nagasaki It also provides a balanced evaluation of the relationship between atomic weapons

and the origins of the Cold War *Suffering Made Real* M. Susan Lindee, 2008-10-10 The atomic bombs dropped on Hiroshima and Nagasaki in August of 1945 unleashed a force as mysterious as it was deadly radioactivity In 1946 the United States government created the Atomic Bomb Casualty Commission ABCC to serve as a permanent agency in Japan with the official mission of studying the medical effects of radiation on the survivors The next ten years saw the ABCC s most intensive research on the genetic effects of radiation and up until 1974 the ABCC scientists published papers on the effects of radiation on aging life span fertility and disease *Suffering Made Real* is the first comprehensive history of the ABCC s research on how radiation affected the survivors of the atomic bomb Arguing that Cold War politics and cultural values fundamentally shaped the work of the ABCC M Susan Lindee tells the compelling story of a project that raised disturbing questions about the ethical implications of using human subjects in scientific research How did the politics of the emerging Cold War affect the scientists biomedical research and findings How did the ABCC document and publicly present the effects of radiation Why did the ABCC refuse to provide medical treatment to the survivors Through a detailed examination of ABCC policies archival materials the minutes of committee meetings newspaper accounts and interviews with ABCC scientists Lindee explores how political and cultural interests were reflected in the day to day operations of this controversial research program Set against a period of conflicting views of nuclear weapons and nuclear power *Suffering Made Real* follows the course of a politically charged research program and reveals in detail how politics and cultural values can shape the conduct results and uses of science **Bulletin of the Atomic Scientists** ,1985-08 Origins of the Cold War David S. Painter, 2005 This second edition brings the collection up to date including the newest research from the Communist side of the Cold War and the most recent debates on culture race and intelligence **Apocalyptic Crimes** Ronald C. Kramer, 2025 Ronald C Kramer applies theories from criminology to argue that possession of nuclear weapons is a criminal act and shows how a nuclear apocalypse might be averted offering a pathway to the abolition of these devastating weapons An Air Power Bibliography Raymond Estep, 1956 *A New Global Geometry?* Greg Albo, 2024-06-18 Scrutinizes possibilities for an equalised global order in light of recent conflicts between the world s major powers The post Cold War era is definitively over asserted US President Joe Biden as he launched the new National Security Strategy warning in late 2022 that a competition is underway between the major powers to shape what comes next American leadership the document declared would be more necessary than ever to define the future of the international order insisting that the US must marshal its unparalleled economic military and diplomatic resources to confront its geopolitical rivals Socialist Register 2024 A New Global Geometry takes stock of momentous changes on the horizon Even if these geopolitical shifts do not spell the end of globalization how might they alter its historical trajectory While it is premature to speak of the end of the liberal economic order let alone the development of a multipolar international system can we begin to assess the dimensions of a new global geometry And how might we assess the potential vulnerabilities of socialist movements worldwide alongside the potential resistance our movements might

manage to present grounded in our historical demands for a democratic and equalizing world order A Synopsis of American History--Complete Neil R. McMillen, 2024-03-26 Updated through the 1996 elections to reflect current historical thinking the 8th edition A Synopsis of American History continues to provide a chronological summary of major political economic and diplomatic developments in American history but it also analyzes the social cultural and intellectual currents of American life with attention to gender minority urban and industrial history Ambiguity and Deterrence John Baylis, 1995 This text focuses on the disagreements which existed in British political and military circles over nuclear strategy directly after World War II Based on recently released documents it argues that British policy in this important area was much more ambiguous than is commonly supposed **Essays of a Citizen: From National Security State to Democracy** Marcus G. Raskin, 2016-09-16 First Published in 1992 This volume includes Raskin's political essays on true democracy in running a nation's security affairs He explores the arrogance of power offers a commitment to constructive critique of government policy and alternative proposals to resolve problems of a nation trying to live up to the principles of the Declaration of Independence **Culture Shock and Japanese-American Relations** Sadao Asada, 2007 Ever since Commodore Perry sailed into Uraga Channel relations between the United States and Japan have been characterized by culture shock Now a distinguished Japanese historian critically analyzes contemporary thought public opinion and behavior in the two countries over the course of the twentieth century offering a binational perspective on culture shock as it has affected their relations In these essays Sadao Asada examines the historical interaction between these two countries from 1890 to 2006 focusing on naval strategy transpacific racism and the atomic bomb controversy For each topic he offers a rigorous analysis of both American and Japanese perceptions showing how cultural relations and the interchange of ideas have been complex and occasionally destructive Culture Shock and Japanese American Relations contains insightful essays on the influence of Alfred Mahan on the Japanese navy and on American images of Japan during the 1920s Other essays consider the progressive breakdown of relations between the two countries and the origins of the Pacific War from the viewpoint of the Japanese navy then tackle the ultimate shock of the atomic bomb and Japan's surrender tracing changing perceptions of the decision to use the bomb on both sides of the Pacific over the course of sixty years In discussing these subjects Asada draws on Japanese sources largely inaccessible to Western scholars to provide a host of eye opening insights for non Japanese readers After studying in America for nine years and receiving degrees from both Carleton College and Yale University Asada returned to Japan to face his own reverse culture shock His insights raise important questions of why people on opposite sides of the Pacific see things differently and adapt their perceptions to different purposes This book marks a major effort toward reconstructing and understanding the conflicted course of Japanese American relations during the first half of the twentieth century **Air University Quarterly Review**, 1947 **Cultures of War** John W. Dower, 2011-08-23 Finalist for the National Book Award in Nonfiction Finalist for the Los Angeles Times Book Prize A thought provoking book about the way

events echo and mis echo down the corridors of history Financial Times Over recent decades John W Dower one of America s preeminent historians has addressed the roots and consequences of war from multiple perspectives In War Without Mercy 1986 winner of the National Book Critics Circle Award he described and analyzed the brutality that attended World War II in the Pacific as seen from both the Japanese and the American sides Embracing Defeat 1999 winner of numerous honors including the Pulitzer Prize and the National Book Award dealt with Japan s struggle to start over in a shattered land in the immediate aftermath of the Pacific War when the defeated country was occupied by the U S led Allied powers Turning to an even larger canvas Dower now examines the cultures of war revealed by four powerful events Pearl Harbor Hiroshima 9 11 and the invasion of Iraq in the name of a war on terror The list of issues examined and themes explored is wide ranging failures of intelligence and imagination wars of choice and strategic imbecilities faith based secular thinking as well as more overtly holy wars the targeting of noncombatants and the almost irresistible logic and allure of mass destruction Dower s new work also sets the U S occupations of Japan and Iraq side by side in strikingly original ways One of the most important books of this decade Cultures of War offers comparative insights into individual and institutional behavior and pathologies that transcend cultures in the more traditional sense and that ultimately go beyond war making alone Blackett's War Stephen Budiansky,2013 Documents the story of a small group of scientists who applied intellectual strategies to battle techniques and revolutionized the process of waging wars citing the contributions of future Nobel winner Patrick Blackett

Chinese Attitudes Toward Nuclear Weapons: China and the United States During the Korean War Mark A.

Ryan,2018-10-24 This book examines the crucial formative period of Chinese attitudes toward nuclear weapons the immediate post Hiroshima Nagasaki period and the Korean War It provides a detailed account of U S actions and attitudes during this period and China s response which was especially acute after both countries had entered the Korean conflict as enemies This response dispels some of the myths that have long existed regarding China s perceptions of nuclear war

Enola Gay and the Court of History Robert P. Newman,2004 In this hard hitting thoroughly researched and crisply argued book award winning historian Robert P Newman offers a fresh perspective on the dispute over President Truman s decision to drop the atomic bomb on Japan in World War II Newman s argument centers on the controversy that erupted around the National Air and Space Museum s NASM exhibit of Enola Gay in 1995 Newman explores the tremendous challenges that NASM faced when trying to construct a narrative that would satisfy American veterans and the Japanese as well as accurately reflect the current historical research on both the period and the bomb His full scale investigation of the historical dispute results in a compelling story of how and why our views about the bombing of Japan have evolved since its occurrence Enola Gay and the Court of History is compulsory reading for all those interested in the history of the Pacific war the morality of war and the failed NASM exhibition The book offers the final word on the debate over Truman s decision to drop the bomb **Bulletin of the Atomic Scientists** ,1985-12 The Bulletin of the Atomic Scientists is the premier public
