Unhappiness says bestselling author Harriet Lerner is fueled by three key emotions anxiety fear and shame They are the uninvited guests in our lives When tragedy or hardship hits they may become our constant companions Anxiety can wash over us like a tidal wave or operate as a silent thrum under the surface of our daily lives With stories that are sometimes hilarious and sometimes heartbreaking Lerner takes us from fear lite to the most difficult lessons the universe sends us We learn how a man was cured in a day of the fear of rejection and what we can learn from his story how the author overcame her dread of public speaking when her worst fears were realized how to deal with the fear of not being good enough and with the shame of feeling essentially flawed and inadequate how to stay calm and clear in an anxious crazy workplace how to manage fear and despair when life sends a crash course in illness vulnerability and loss how positive thinking helps and harms how to be our best and bravest selves even when we are terrified and have internalized the shaming messages of others No one signs up for anxiety fear and shame but we can't avoid them either As we learn to respond to these three key emotions in new ways we can live more fully in the present and move into the future with courage clarity humor and hope

Kondrath,2013-08-05 Facing

Feelings in Faith Communities is based on a simple premise We have emotions because we need them God created us as affectively competent beings William Kondrath argues to help us understand our world and to give appropriate signals to people around us about what we are experiencing When we express our feelings clearly other people can more easily respond in ways that are helpful to us thus enhancing our relationships and the work we might do together Kondrath also recognizes that unfortunately for many of us our emotional software was infected early on with viruses early familial and social conditioning that distorted the way we responded to natural stimuli Because we are underusing or misusing our emotional capacities we are missing out on the opportunity to express our full humanity Fortunately we can re program our emotional software Facing Feelings in Faith Communities helps us restore our emotional systems to their original state or at least invites us to imagine how we would live differently if our emotional expressions were more nearly congruent with the situations and events we encounter Kondrath invites us to explore six feelings fear anger sadness peace power and joy through poetry meditation on an evocative drawing as well as through his own analysis of each feeling Congregational Resources for Facing Feelings is a companion collection to this book For more information click here

how cancer often challenges the mind heart and spirit of patients and their families as deeply if not more deeply than it challenges the physical body Yet this simple truth is often overlooked by Western medicine as it aggressively pursues the best ways to diagnose and treat cancer Too often physicians focus almost exclusively on the physical dimensions of the disease rather than caring for the whole person who has the disease Dr Geffen presents a groundbreaking seven level program used at his cancer center in Florida that addresses every dimension of the person with cancer physical mental emotional and spiritual Education and Information giving patients answers to questions about their disease and their treatment options Psychosocial Support focusing on the need for and benefits of a strong support network The Body as Garden exploring the vast array of alternative and complementary therapies Emotional Healing helping patients and families deal with the often overwhelming emotional challenges of cancer The Nature of Mind exploring how patients thoughts and beliefs profoundly influence their journey Life Assessment showing patients how to discover their life s deepest meaning and purpose The Nature of Spirit connecting patients to the profoundly healing spiritual aspect of life we all share In The Journey Through Cancer Dr Geffen presents a revolutionary model of healing based on the best treatments available from every culture and paradigm of medicine one that respects and explores every possible avenue and resource for healing and transformation blending East and West body and mind heart and technology science and spirit     *Honor Your Gifts* Dona Deane,2007-10 In this inspirational and uplifting book readers will discover that everything happens for a reason that changes are inevitable and how to find peace happiness and fulfillment in a topsy turvy world Practical Life     **The Invisible Handcuffs of Capitalism** Michael Perelman,2011 Mainstream or more formally neoclassical economics claims to be a science But as Michael Perelman makes clear in his latest book nothing could be further from the truth While a science must be rooted in material reality mainstream economics ignores or distorts the most fundamental aspect of this reality that the vast majority of people must out of necessity labor on behalf of others transformed into nothing but a means to the end of maximum profits for their employers The nature of the work we do and the conditions under which we do it profoundly shape our lives And yet both of these factors are peripheral to mainstream economics By sweeping labor under the rug mainstream economists hide the nature of capitalism making it appear to be a system based upon equal exchange rather than exploitation inside every workplace Perelman describes this illusion as the invisible handcuffs of capitalism and traces its roots back to Adam Smith and his contemporaries and their disdain for working people He argues that far from being a basically fair system of exchanges regulated by the invisible hand of the market capitalism handcuffs working men and women and children too through the very labor process itself Neoclassical economics attempts to rationalize these handcuffs and tells workers that they are responsible for their own conditions What we need to do instead Perelman suggests is eliminate the handcuffs through collective actions and build a society that we direct ourselves     The Incivility Solution: Cynthia Keeton Brown,2016-09-08 Tools to foster self transcendence in nurse educators are presented to teach the teacher to use multiple

intelligences emotional intelligence knowing and authentic learning experiences to guide a daily practice of forgiveness empathy and gratitude Nurse educators who understand incivility and co create an environment of civility in their respective workplaces can positively impact their lives and those of their colleagues and students Nurse educators CAN develop collegiality through recognition of the efforts of our brothers and sisters by believing in them even when we see them at their worst
