Introduction to International Criminal Law M. Cherif Bassiouni, 2013 This title covers the history nature and sources of international criminal law the *ratione personae* *ratione materiae* sources of substantive international criminal law the indirect enforcement system the direct enforcement system and much more The Rome Statute and Domestic Legal Orders Claus Kreß, 2005 **Prisoners of Politics** Rachel Elise Barkow, 2019-03-04 A CounterPunch Best Book of the Year A Lone Star Policy Institute Recommended Book If you care as I do about disrupting the perverse politics of criminal justice there is no better place to start than Prisoners of Politics James Forman Jr author of *Locking Up Our Own* The United States has the highest rate of incarceration in the world The social consequences of this fact recycling people who commit crimes through an overwhelmed system and creating a growing class of permanently criminalized citizens are devastating A leading criminal justice reformer who has successfully rewritten sentencing guidelines Rachel Barkow argues that we would be safer and have fewer people in prison if we relied more on expertise and evidence and worried less about being tough on crime A groundbreaking work that is transforming our national conversation on crime and punishment Prisoners of Politics shows how problematic it is to base criminal justice policy on the whims of the electorate and argues for an overdue shift that could upend our prison problem and make America a more equitable society A critically important exploration of the political dynamics that have made us one of the most punitive societies in human history A must read by one of our most thoughtful scholars of crime and punishment Bryan Stevenson author of *Just Mercy* Barkow's analysis suggests that it is not enough to slash police budgets if we want to ensure lasting reform We also need to find ways to insulate the process from political winds David Cole New York Review of Books A cogent and provocative argument about how to achieve true institutional reform and fix our broken system Emily Bazelon author of *Charged* **Calendars of the United States House of**

Representatives and History of Legislation United States. Congress. House, *Terror Detentions and the Rule of Law* Robert Hall Wagstaff, 2014 After the 9 11 terrorist attacks the United States and the United Kingdom detained suspected terrorists in a manner incompatible with the due process fair trial and equality requirements of the Rule of Law The legality of the detentions was challenged and found wanting by the highest courts in the US and UK The US courts approached these questions as matters within the law of war whereas the UK courts examined them within a human rights criminal law context In *Terror Detentions and the Rule of Law* US and UK Perspectives Dr Robert H Wagstaff documents President George W Bush s and Prime Minister Tony Blair s responses to 9 11 alleging that they failed to protect the human rights of individuals suspected of terrorist activity The analytical focus is on the four US Supreme Court decisions involving detentions in Guantanamo Bay and four House of Lords decisions involving detentions that began in the Belmarsh Prison These decisions are analyzed within the contexts of history criminal law constitutional law human rights and international law and various jurisprudential perspectives In this book Dr Wagstaff argues that time tested criminal law is the normatively correct and most effective means for dealing with suspected terrorists He also suggests that preventive indefinite detention of terrorist suspects upon suspicion of wrongdoing contravenes the domestic and international Rule of Law treaties and customary international law As such new legal paradigms for addressing terrorism are shown to be normatively invalid illegal unconstitutional counter productive and in conflict with the Rule of Law

Congress,1971 *Corporate Crime* Miranda A.

Galvin,William S. Laufer,2025-08-22 This volume speaks to the fundamental issues inherent in trying to understand the who what where and whys of corporate crime Only in addressing these larger issues does it become possible to begin to integrate the study of corporate crime into the larger criminological theory literature A collection of chapters by experts in the field grapples with three deceptively simple questions When are firms morally and legally responsible agents What are the harms of corporate wrongdoing and who are the victims What theories offer insight to explain corporate wrongdoing In the first section chapter authors wrestle with what it means for a corporation to have agency enough to commit a violation of law as well as what philosophies of punishment might apply when there is no body to jail The second section focuses attention on the often unnamed ambiguous or even ignored victims of corporate crime Many authors in this section take a broad view of victimization speaking to the ways in which the intentional acts of corporations produce negative consequences for individuals and society at large through both the violation of law and the use of corporate power to produce laws that do not problematize corporate behavior The third section turns to issues in corporate offending research including the circumstances that beget offending how corporations may be thought to have life courses and the role of the State in structuring criminal opportunity The editors wrap up the volume by proposing a framework for developing a more comprehensive system of criminal responsibility for corporate actors The chapters in this volume underscore the failures of the current system and are intended to inspire readers to push for change This important work will be of interest to a wide range of criminologists and has potential to shape the future of corporate crime theory and research It is ideal for use in graduate seminars and upper level undergraduate courses
