Anderson, George W. Pickering, 2008-01-01 In *Confronting the Color Line* Alan Anderson and George Pickering examine the hopes and strategies the frustrations and internal conflicts the hard won successes and bitter disappointments of the civil rights movement in Chicago The scene of a protracted local struggle to force equality in education and open housing for blacks the city also became the focus of national attention in the summer of 1966 as Martin Luther King Jr and the Southern Christian Leadership Conference challenged the entrenched political machine of Mayor Richard J Daley The failure of King's campaign a failure he would not live to redeem marked the final

unsuccessful attempt to secure significant social change in Chicago and soon afterward the national civil rights movement itself would unravel amid white backlash and cries of black power Picking up the threads of our own recent history Confronting the Color Line examines a political movement that remains unfinished a dilemma for America's system of democratic social change that remains unsolved

Religion in Liberal Political Philosophy Cécile Laborde, Aurélia Bardon, 2017-05-19 Until now there has been no direct and extensive engagement with the category of religion from liberal political philosophy Over the last thirty years or so liberals have tended to analyze religion under proximate categories such as conceptions of the good in debates about neutrality or culture in debates about multiculturalism US constitutional lawyers and French political theorists both tackled the category of religion head on under First Amendment jurisprudence and the political tradition of *laïcité* respectively but neither of these specialized national discourses found their way into mainstream liberal political philosophy This is somewhat paradoxical because key liberal notions state sovereignty toleration individual freedom the rights of conscience public reason were elaborated as a response to 17th Century European Wars of Religion and the fundamental structure of liberalism is rooted in the western experience of politico religious conflict So a reappraisal of this tradition and of its validity in the light of contemporary challenges is well overdue This book offers the first extensive engagement with religion from liberal political philosophers The volume analyzes from within the liberal philosophical tradition itself the key notions of conscience public reason non establishment and neutrality Insofar as the contemporary religious revival is seen as posing a challenge to liberalism it seems more crucial than ever to explore the specific resources that the liberal tradition has to answer it

The Hardened Heart and Tragic Finitude Dan O. Via,2012-11-05 This book has two main theses First for the biblical Christian doctrine of sin the root of the human problem is hardness of heart the corruption of the core self of the seat of understanding and will On the other hand for an important strand of Greek tragedy the root of human harm doing is the nonculpable blindness and anxiety of finitude that despite the initial nonculpability lead to evil and suffering The Hardened Heart shows that these two different interpretations of human existence are amenable to a degree of synthesis that leads to this conclusion hardness of heart and our ordinary finitude together collude to cause sin in its fullness The second thesis of this volume is that exegetical studies disclose a deconstructive strand in certain biblical texts that represents the finite world that God created as a source of distress and harm doing in something like the tragic sense This subdominant deconstructive position challenges the dominant biblical vision in which the creation came forth from God s creative word as good without qualification The Liberal Preacher Thomas Russell Sullivan,David Reed,1833
