*Dystopian Fiction East and West* Erika Gottlieb, 2001-07-04 Gottlieb juxtaposes the Western dystopian genre with Eastern and Central European versions introducing a selection of works from Russia Poland Hungary and Czechoslovakia She demonstrates that authors who write about and under totalitarian dictatorship find the worst of all possible worlds not in a hypothetical future but in the historical reality of the writer's present or recent past Against such a background the writer assumes the role of witness protesting against a nightmare world that is but should not be She introduces the works of Victor Serge Vassily Grossman Alexander Zinoviev Tibor Dery Arthur Koestler Vaclav Havel and Istvan Klima as well as a host of others all well known in their own countries presenting them within a framework established through an original and comprehensive exploration of the patterns underlying the more familiar Western works of dystopian fiction

**All Shook Up** Nigel Raab, 2017-04-01 Earthquakes nuclear accidents and floods were among the many unexpected tragedies that struck the Soviet Union over its history Requiring the immediate mobilization of vast resources and aid and embedded within a specific context and time these catastrophes provide critical insights into the nature of the

twentieth century Communist state *All Shook Up* takes a close look at the representation in film the political repercussions and the social opportunities of large scale catastrophes in separate Soviet epochs including the 1927 earthquake in the Crimean peninsula the 1948 earthquake in Ashgabat the Tashkent earthquake in 1966 the Chernobyl explosion in 1986 and the Armenian earthquake in 1988 Juxtaposing various disaster responses and demonstrating the ways both Soviet authorities and citizens molded them to their own cultural needs Nigel Raab highlights the radical shifts in disaster policy from one leader to the next Given the opportunity to act outside regular parameters Soviet residents not only rebuilt their devastated cities but also experimented with new values and crafted their own worldview while the state struggled to return the situation to normal Based on archival research conducted in Russia and Ukraine *All Shook Up* fills a gap in a global literature and challenges stereotypical representations of the Soviet Union as a monolithic state *Russia's Last Capitalists* Alan M. Ball,1990-09-18 In 1921 Lenin surprised foreign observers and many in his own Party by calling for the legalization of private trade and manufacturing Within a matter of months this New Economic Policy NEP spawned many thousands of private entrepreneurs dubbed Nepmen After delineating this political background Alan Ball turns his attention to the Nepmen themselves examining where they came from how they fared in competition with the socialist sector of the economy their importance in the Soviet economy and the consequences of their liquidation at the end of the 1920s Alan Ball s history of this experiment with capitalism is strikingly relevant to current efforts toward economic reform in the USSR *Stalin* Stephen Kotkin,2015-10-13 In his biography of Stalin Kotkin rejects the inherited wisdom about Stalin s psychological makeup showing us instead how Stalin s near paranoia was fundamentally political and closely tracks the Bolshevik revolution s structural paranoia the predicament of a Communist regime in an overwhelmingly capitalist world surrounded and penetrated by enemies At the same time Kotkin posits the impossibility of understanding Stalin s momentous decisions outside of the context of the history of imperial Russia *A History of Crimea* Kerstin S. Jobst,2024-12-12 With the Russian annexation of Crimea in March 2014 160 years after the Crimean War the peninsula has come to the geopolitical fore once more on the global stage This book provides a comprehensive history of the region that until now has been missing one that stretches from ancient times through to the present and which explores various aspects and inhabitants through the ages Kerstin S Jobst examines the complex history of the multi ethnic and pluri religious Crimea and not only from a political perspective Jobst deals with the manifold cultural and historical interdependencies that are central to the territory The book presents myths and legends about the Crimea as well as the various peoples for whom the Crimea was a settlement and transit area and who shaped the fate of the peninsula These included Greek colonists Eurasian nomads Crimean Tatars and others *A History of Crimea* shows the importance of Crimea as a place of early Christianity but also as a contact zone between different religions Christianity Judaism and Islam It also emphasizes the role of the peninsula as a peripheral area of various great powers the Roman Empire Byzantium the Golden Horde and the Ottoman and Russian Empires With this

overview of 2 000 years of Crimea s history Kerstin S Jobst places the most recent explosive events on the peninsula in their historical context and shows how the Crimea has become for the majority of Russians a highly emotionalized space since the first Russian annexation in 1783 *Man-Eating Monsters* Dina Khapaeva,2019-11-11 What role do man eating monsters vampires zombies werewolves and cannibals play in contemporary culture This book explores the question of whether recent representations of humans as food in popular culture characterizes a unique moment in Western cultural history and suggests a new set of attitudes toward people monsters and death
