Historical Dictionary of Italian Cinema Gino Moliterno, 2020-12-08

Italian cinema is now regarded as one of the great cinemas of the world Historically however its fortunes have varied Following a brief moment of glory in the early silent era Italian cinema appeared to descend almost into irrelevance in the early 1920s A strong revival of the industry which gathered pace during the 1930s was abruptly truncated by the advent of World War II The end of the war however initiated a renewal as films such as Roma citt aperta Rome Open City Sciusci Shoeshine 1946 and Ladri di biciclette Bicycle Thieves 1948 flagbearers of what soon came to be known as Neorealism attracted unprecedented international acclaim and a reputation that only continued to grow in the following years as Italian films were feted worldwide Ironically they were celebrated nowhere more than in the United States where Italian films consistently garnered the lion s share of the Oscars with Lina Wertm ller becoming the first woman to ever be nominated for the Best Director award This second edition of Historical Dictionary of Italian Cinema contains a chronology an introduction and an extensive bibliography The dictionary section has over 400 cross referenced entries on major movements directors actors actresses film genres producers industry organizations and key films This book is an excellent

Laws of Nature Xiaoping Hu, 2023-03-30 This Book provides new foundations for modern physics and natural philosophy In the past 100 years modern physics has been based on Quantum Concept Einstein's Relativity Theory and three equations Schroedinger Equation Klein Gordon Equation and Dirac Equation Relativity Theory not only is melted into the bones of modern sciences it has also deeply infiltrated liberal arts and philosophical thoughts of several generations As such Einstein was regarded world's greatest scientist in human history While modern physics has splendid achievements in the past 100 years it is now at a dead pass unable to solve many fundamental problems like graviton strong force double slit experiments quantum entanglement etc Worse the latest astronomical discoveries by the Webb Telescope has brought strong evidences against the Big Bang Theory that is based on General Relativity As such the whole modern physics is at jeopardy Through lifetime pondering and research the author has found that modern physics is on many shaky grounds and finally rebuilt physics without them This book is the culmination of his lifetime work most of its contents are published for the first time Chapter 1 provides a brief history of human cognition and discusses the criteria for discerning truth and fallacy Chapter 2 rigorously invalidates both Special Relativity and General Relativity from four different grounds pulling down all existing evidences that were claimed to support Relativity Theory Chapter 3 reviews the fundamental concepts in physics and natural philosophy and makes necessary corrections Chapter 4 gives a new theory on gravity and gravitons Chapter 5 re studies electromagnetics provides a complex set of Maxwell Equations and a new theory on electromagnetic wave Chapter 6 provides a new photon theory which not only satisfies all existing knowledge about photon but solves the problems of double slit experiment and quantum entanglement successfully Chapter 7 derives Schroedinger Equation from two basic physics principles and prove that the Schroedinger Wave Function does not represent particle state probability but its complex electric and magnetic field energies Error prong modern physics methods are also criticized Chapter 8 provides a new particle theory which not only solves the mystery of proton and neutron but can successfully construct atoms of large atomic numbers The new theory also reveals the secrets of strong force and weak force as well as chemical bonds Chapter 9 also rebuilds the foundation of thermodynamics by redefining entropy explicitly so to greatly simplifies the basic thermodynamics equations Many well known results in thermodynamic and statistical physics are invalidated Chapter 10 also rebuilds the foundation of astrophysics First the main cause of star's light spectrum redshift is finally discovered Second the basic

pressure and temperature equations inside stars are corrected Third new theories about stars galaxies and universe are provided which are consistent with observations and new physics theories in this book Fourth the true energy source in nuclear fission and fusion is discovered Chapter 11 discusses a few important things about life Chapter 12 discusses a few things that face human in the near future Appendix provides a comprehensive discussion on redshifts of star light spectrum and finally prove that quantum loss redshift is the main cause of star light spectrum redshift Appendix B proves that if Special Relativity is correct then General Relativity is not It also provides a simple closed form solution for photon s motion in gravity field While the author cannot guarantee correctness of everything in the book the new theories overcome the contradictions of existing ones and explain many more things that existing ones could not The most important thing is all the theories in the book are mutually consistent and therefore re enforce each other As such the author thinks that the GUT and TOE problems that physicists have dreamed along are now closed *Italian Gothic Horror Films, 1980-1989* Roberto

Curti,2019-02-15 The Italian Gothic horror genre underwent many changes in the 1980s with masters such as Mario Bava and Riccardo Freda dying or retiring and young filmmakers such as Lamberto Bava Macabro Demons and Michele Soavi The Church surfacing Horror films proved commercially successful in the first half of the decade thanks to Dario Argento both as director and producer and Lucio Fulci but the rise of made for TV products has resulted in the gradual disappearance of genre products from the big screen This book examines all the Italian Gothic films of the 1980s It includes previously unpublished trivia and production data taken from official archive papers original scripts and interviews with filmmakers actors and scriptwriters The entries include a complete cast and crew list plot summary production history and analysis Two appendices list direct to video releases and made for TV films *The New Biographical Dictionary of Film* David
