historiography and literary history itself He offers a powerful account of semiotics an important critical perspective on narratology a profound discussion of deconstruction and many brief practical demonstrations of why Kant Hegel Heidegger and de Man remain essential resources for contemporary critical thought The culture of literacy is on the wane Godzich argues Throughout the modern period language has been the institution that provided the condition of possibility for all other institutions from university to church to state but the pervasive crisis of meaning we now experience is the result of a shift in the modes of production of knowledge The culture of literacy has been faced with transformations it cannot accommodate and the existing organization of knowledge has been challenged By wedding literature to a reflective practice of history Godzich leads us toward a critique of political reason and a profound sense of how postmodernity can overcome by deftly sidestepping the modern This book will bring to a wider audience the work of a writer who is recognized as one of the most commanding figures of his generation for range learning and capacity of innovation The Poetical and Dramatic Works of S.
