Villalón, Peter Vondoepp, 2005-09-01 Does Western style democracy make sense in the various geographic economic and social settings of the continent How far toward democracy have recent liberalization movements gone In *The Fate of Africa's Democratic Experiments* Leonardo A Villalón and Peter Vondoepp and an international group of contributors consider the aftermath success failure and future of the wave of democracy that swept Africa in the early 1990s In some countries democratic movements flourished while in others democratic success was more circumscribed This detailed analysis of key political events in countries at the forefront of democratic change Benin Central African Republic Congo Guinea Bissau Madagascar Malawi Mali Mozambique and Zambia provides for broadly representative continental and linguistic coverage of directions and prospects for Africa's democracies The contributors are Michael Chege John F Clark Joshua B Forrest Abdourahmane Idrissa Bruce Magnusson Carrie Manning Richard R Marcus Andreas Mehler David J Simon Leonardo A Villalón and Peter Vondoepp [The Fate of Africa's Democratic Experiments](#) Leonardo A. Villalón, Peter Vondoepp, 2005-09 Does democracy have a future in Africa **The Fate of Africa's Democratic Experiments** L A (Leonardo A) ; Vondoepp Villalón (P (Peter).), 2005 [Conflict Management and African Politics](#) Terrence Lyons, Gilbert M. Khadiagala, 2010-10-04 This book builds on the overarching theme of conflict management to reflect on negotiations mediation and conflict resolution in Africa **Democratic Struggle, Institutional Reform, and State Resilience in the African Sahel** Leonardo A. Villalón, Rahmane Idrissa, 2020-02-06 Long on the periphery of both academic research and international attention the countries of the West African Sahel currently find themselves at the center of global concerns over security terrorism migration and conflict Since the early 1990s the Sahelian states have also been engaged in political struggles over the construction of democratic institutions Edited by Leonardo A Villalón and Abdourahmane Idrissa *Democratic Struggle Institutional Reform and State Resilience in the African Sahel* addresses a key and little studied question How have the politics of democratization across the Francophone Sahel shaped processes of state building and with what effects on the resilience of state institutions Starting from the premise that variation in the politics of institution building and institutional reform although most frequently justified and debated in terms of democratization have differing impact on the construction of resilient states this book examines these processes in six francophone states of the Sahel Senegal Mauritania Mali Burkina Faso Niger and Chad The contributors represent a set of distinguished scholars from across the region many of whom have also been important actors in the struggles they analyze *Africa's First Democrats* Abdi Ismail Samatar, 2016-09-26 Abdi Ismail Samatar provides a clear and foundational history of Somalia at the dawn of the country's independence when Africa's first democrats appeared While many African countries were dominated by authoritarian rulers when they entered the postcolonial era and scholars have assumed this as a standard feature of political leadership on the continent Somalia had an authentic democratic leadership Samatar's political biography

of Aden A Osman and Abdirazak H Hussen breaks the stereotype of brutal African tyranny Samatar discusses the framing of democracy in Somalia following the years of control by fascist Italy the formation of democratic organizations during the political struggle and the establishment of democratic foundations in the new nation Even though this early state of affairs did not last these leaders left behind a strong democratic legacy that may provide a model of good governance for the rest of the continent

**(Dys-)Functionalities of Corruption** Tobias Debiel, Andrea Gawrich, 2013-12-16 Corruption is usually understood as hampering political development economic growth and democratic participation of citizens but comparing the effects of corruption for different political regimes presents astonishingly complex findings The ongoing persistence of corruption underlines that it is not only dysfunctional but can be highly functional as well This special issue brings together contributions from comparative politics political science and economics which precisely focus on these dys functionalities of corruption in political regimes across various world regions The question of methodological pluralism is especially important for studying corruption comparatively While on an international level a trend towards an increased use of quantitative methods in political science as well as in economics can be observed the special issue underlines the importance of having a pluralistic approach for grasping the complex and multi layered effects of the phenomenon Of similar importance is the adoption of a comparative perspective that includes different world regions in order to understand the different roles of corruption in developing transforming and developed countries alike Dr Tobias Debiel is Director of the Centre for Global Cooperation Research and of the Institute for Development and Peace INEF Since 2006 he is also Professor in International Relations and Development Policy Institute of Political Science University of Duisburg Essen Dr Andrea Gawrich is Professor for International Integration at the University of Gießen

**Governance Reform in Africa** Jerome Bachelard, 2013-07-24 Poor governance is increasingly recognized as the greatest impediment to economic development in Sub Saharan Africa Currently some impressive governance reforms are underway in many countries This includes cases such as Nigeria formerly the most corrupt country in the world according to Transparency International Yet other countries such as Chad are still in reform deadlock To account for these differences this book examines governance reform in Sub Saharan Africa based on an analysis of international and domestic pressures and counter pressures It develops a four phase model explaining why governance reforms advance in some instances whilst in others governance reforms stagnate or even relapse No study has sought to systematically examine the political forces both international and domestic behind the successful conduct of governance reform in Sub Saharan Africa Yet coordination collaboration and mutual support between international and domestic actors is critical to push individual governments onto the path of reform This book shows that while international and domestic pro reform pressures are important an analysis of anti reform pressures is also necessary to explain incomplete or failed reform The main theoretical arguments are structured around four hypotheses The hypotheses are theoretically generated and tested over four case studies Madagascar Kenya Nigeria and Chad On this basis the good governance

socialization process is inductively developed in the concluding chapter This model illustrates how governance practices can evolve positively and negatively in all countries of Sub Saharan Africa based on the nature and relative strength of international and domestic pressures and counter pressures

*Migrants and Strangers in an African City* Bruce Whitehouse, 2012-03-14 In cities throughout Africa local inhabitants live alongside large populations of strangers Bruce Whitehouse explores the condition of strangerhood for residents who have come from the West African Sahel to settle in Brazzaville Congo Whitehouse considers how these migrants live simultaneously inside and outside of Congolese society as merchants as Muslims in a predominantly non Muslim society and as parents seeking to instill in their children the customs of their communities of origin Migrants and Strangers in an African City challenges Pan Africanist ideas of transnationalism and diaspora in today s globalized world

Shock to the System Michael K. Miller, 2021-07-20 How violent events and autocratic parties trigger democratic change How do democracies emerge Shock to the System presents a novel theory of democratization that focuses on how events like coups wars and elections disrupt autocratic regimes and trigger democratic change Employing the broadest qualitative and quantitative analyses of democratization to date Michael Miller demonstrates that more than nine in ten transitions since 1800 occur in one of two ways countries democratize following a major violent shock or an established ruling party democratizes through elections and regains power within democracy This framework fundamentally reorients theories on democratization by showing that violent upheavals and the preservation of autocrats in power events typically viewed as antithetical to democracy are in fact central to its foundation Through in depth examinations of 139 democratic transitions Miller shows how democratization frequently follows both domestic shocks coups civil wars and assassinations and international shocks defeat in war and withdrawal of an autocratic hegemon due to autocratic insecurity and openings for opposition actors He also shows how transitions guided by ruling parties spring from their electoral confidence in democracy Both contexts limit the power autocrats sacrifice by accepting democratization smoothing along the transition Miller provides new insights into democratization s predictors the limited gains from events like the Arab Spring the best routes to democratization for long term stability and the future of global democracy Disputing

commonly held ideas about violent events and their effects on democracy Shock to the System offers new perspectives on how regimes are transformed

Democratization in Africa: Challenges and Prospects Gordon Crawford, Gabrielle Lynch, 2013-09-13 It is two decades since the third wave of democratization began to roll across sub Saharan Africa in the early 1990s This book provides a very timely investigation into the progress and setbacks over that period the challenges that remain and the prospects for future democratization in Africa It commences with an overall assessment of the lack of progress made from 1990 to 2010 exploring positive developments with reasons for caution Based on original research subsequent contributions examine various themes through country case studies inclusive of the routinisation of elections accompanied by democratic rollback and the rise of hybrid regimes the tenacity of presidential powers the dilemmas of power sharing ethnic voting and rise of a violent politics of belonging the role of donors and the ambiguities of democracy promotion Overall the book concludes that steps forward remain greater than reversals and that typically though not universally sub Saharan African countries are more democratic today than in the late 1980s Nonetheless the book also calls for more meaningful processes of democratization that aim not only at securing civil and political rights but also socio economic rights and the physical security of African citizens This book was originally published as a special issue of Democratization

*Democracy in Hard Places* ,2022-07-22 This is an open access title available under the terms of a CC BY NC ND 4 0 International license It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations The last fifteen years have witnessed a democratic recession Democracies previously thought to be well established Hungary Poland Brazil and even the United States have been threatened by the rise of ultra nationalist and populist leaders who pay lip service to the will of the people while daily undermining the freedom and pluralism that are the foundations of democratic governance The possibility of democratic collapse where we least expected it has added new urgency to the age old inquiry into how democracy once attained can be made to last In Democracy in Hard Places Scott Mainwaring and Tarek Masoud bring together a distinguished cast of contributors to illustrate how democracies around the world continue to survive even in an age of democratic decline Collectively they argue that we can learn much from democratic survivals that were just as unexpected as the democratic erosions that have occurred in some corners of the developed world Just as social scientists long believed that well established Western educated industrialized and rich democracies were immortal so too did they assign little chance of democracy to countries that lacked these characteristics And yet in defiance of decades of social science wisdom many countries that were bereft of these hypothesized enabling conditions for democracy not only achieved it but maintained it year after year How does democracy persist in countries that are ethnically heterogenous wracked by economic crisis and plagued by state weakness What is the secret of democratic longevity in hard places This book the first to date to systematically examine the survival persistence of unlikely democracies presents nine case studies in which democracy emerged and survived against the odds Adopting a comparative cross

regional perspective the authors derive lessons about what makes democracy stick despite tumult and crisis economic underdevelopment ethnolinguistic fragmentation and chronic institutional weakness By bringing these cases into dialogue with each other Mainwaring and Masoud derive powerful theoretical lessons for how democracy can be built and maintained in places where dominant social science theories would cause us to least expect it The Politics of Presidential Term Limits Alexander Baturo, Robert Elgie, 2019 This book examines the politics of presidential term limits It looks at the theory and practice of term limits the experience of term limit avoidance worldwide and the consequences of presidential term limits in all forms of regimes **Peaceworks**, 2006 Democratisation in the 21st Century Mohammad-Mahmoud Ould Mohamedou, Timothy D. Sisk, 2016-10-04 The 2010 s was a critical period in the continuing established trend of the spread of democracy worldwide from the Arab Spring countries of Tunisia Libya Egypt and Yemen to the unfolding turmoil of Myanmar and Ukraine by way of the upheavals in Burkina Faso Senegal and Ivory Coast social mobilisation against autocratic corrupt or military regimes has precipitated political transitions that are characteristic of democratisation This book examines the state of democratisation theory and practice that reopens and revives the democratic transition debate exploring the factors that lead to the demise of autocracy the pathways and processes of change and the choice for an eventual consolidation of democracy For all its insights and shortcomings the framework of transitology a body of literature that has comparatively and through case study analysis examined common patterns sequences crises and outcomes of transitional periods has been largely eschewed The essays written by international democratisation specialists tackle the series of questions raised by a body of literature that remains highly useful to understand contemporary political turbulence and transformation considering numerous crucial issues This work will be of key interest to scholars students and practitioners of governance democratisation comparative politics international relations political science and more broadly history
