Fire In The Turtle House Osha Gray Davidson,Osha Davidson,2008-11-05 Sea turtles have existed since the time of the dinosaurs But now suddenly the turtles are dying ravaged by a mysterious plague that some biologists consider the most serious epidemic now raging in the natural world Perhaps most important sea turtles aren t the only marine creatures falling prey to deadly epidemics Over the last few decades diseases have been burning through nearshore waters around the world with unprecedented lethality What is happening to the sea turtle and how can it be stopped In this fascinating scientific detective story Osha Gray Davidson tracks the fervent efforts of the extraordinary and often quirky scientists marine biologists veterinarians and others racing against the clock to unravel a complicated biological and environmental puzzle and keep the turtles from extinction He follows the fates of particular turtles revealing their

surprisingly distinct personalities and why they inspire an almost spiritual devotion in the humans who come to know them. He also explores through vivid historical anecdotes and examples the history of man's relationship to the sea, opening a window onto the role played by humans in the increasing number of marine die-offs and extinctions. Beautifully written, intellectually provocative, *Fire in the Turtle House* reveals how emerging diseases wreaking havoc in the global ocean pose an enormous direct threat to humanity. This is science journalism at its best.

Ava Rising G.E. Nosek, After a night of terrible sacrifice and loss, Ava and Lucas have crossed a sacred boundary. Their forbidden bond has awakened the wrath of the Makhai, a fanatical gang of killers who will stop at nothing to wipe out the last of the Gaia. As Ava and Lucas flee across the globe, they are tested by violence, betrayal, and a mysterious curse of fire. Just as Ava needs her powers most, she is losing control, struggling to accept her new identity as the Alpha Gaia. Within her lies the power of the howling wind, the raging water, the boiling lava, and the quaking earth. It's a power that frightens her, and it's growing. With Mother Earth herself stoking the flames of Ava's fury at the destruction of her world, and the killing of her people, will Ava be able to channel her power for good, or will she be consumed by the fire of her rage?
