

# Fateful Choices

## The Future of the U.S. Academic Research Enterprise

### *A Discussion Paper*

March 1992

*This paper is a working document of the Roundtable Group on the Academic Research Enterprise. The purpose is to stimulate dialogue on the choices facing the U.S. research enterprise in the years ahead. The paper is not an official statement of the Roundtable Council or of its sponsoring organizations, the National Academy of Sciences, the National Academy of Engineering, and the Institute of Medicine.*

# Fateful Choices The Future Of The U S Academic Research Enterprise

**Wenbin Ji**

## **Fateful Choices The Future Of The U S Academic Research Enterprise:**

*Fateful Choices* National Academy of Engineering, National Academy of Sciences, Institute of Medicine, Government-University-Industry Research Roundtable, Working Group on the Academic Research Enterprise, 1992-02-01 This volume describes a vision for the future of U S academic research and the near term actions and policies required to maintain the quality of academic research in the United States It also describes longer term strategic considerations for the enterprise in the next century concluding with a discussion of new approaches to decision making within the academic research enterprise      **Fateful Choices** Government-University-Industry Research Roundtable, 1991

Future National Research Policies Within the Industrialized Nations National Academy of Engineering, National Academy of Sciences, Institute of Medicine, Government-University-Industry Research Roundtable, 1992-02-01 This book is a summary and proceedings of a symposium sponsored by the Government University Industry Research Roundtable and the National Science Foundation It includes presentations by senior government science policy officials and leading scientists who are directly involved in the research and higher education policy formulation processes in various countries Included are their assessments of current challenges to their national research systems descriptions of national strategies for meeting these challenges and a discussion of options for national research systems in the twenty first century      *The Mission of the National Science Foundation* United States. Congress. House. Committee on Science, Space, and Technology. Subcommittee on Science, 1993      Research and Relevant Knowledge Roger L. Geiger, 2017-09-29 The rise of American research universities to international preeminence constitutes one of the most important episodes in the history of higher education *Research and Relevant Knowledge* follows Geiger s earlier volume on American research universities from 1900 to 1940 This second work is the first study to trace this momentous development in the post World War II period It describes how the federal government first relied on university scientists during the war and how the resulting relationship set the pattern for the postwar mushrooming of academic research The first half of the book analyzes the development of the postwar system of academic research exploring the contributions of foundations defense agencies and universities The second half depicts the rise of the golden age of academic research in the years after Sputnik 1957 and its eventual dissolution at the end of the 1960s graduate education When the federal patron soon reduced its largesse university students took the lead in challenging the putative hegemony of academic research The loss of consensus quickly brought the malaise of the 1970s stagnation frustration and equivocation about the research role The final chapter appraises the renaissance of the 1980s based largely on a rapprochement with the private sector and ends by evaluating the embattled status of research universities at the beginning of the 1990s *Research and Relevant Knowledge* provides the first authoritative analytical account of American research universities during their most fateful half century It will be of critical importance to all those concerned with the future of higher education in the United States      **The Path to the Ph.D.** Ad Hoc Panel on Graduate Attrition Advisory

Committee, Office of Scientific and Engineering Personnel, Board on Higher Education and Workforce, Policy and Global Affairs, National Research Council, 1997-01-17 There is a growing concern among educators and policymakers about the level of attrition from Ph D programs in the sciences and humanities at some U S universities Reliable estimates of graduate student attrition are difficult to obtain however because most information comes from the administrative records of individual institutions This book provides a summary of datasets that could be used to analyze patterns of graduate student attrition and degree completion nationally along with an analysis of recent studies on the subject Based on this information the committee examines the feasibility of designing a system to produce national estimates of graduate student attrition

Renewing the Promise , 1993-06 The President's Council of Advisors on Science Technology has sought to identify the weak points that threaten the otherwise strong web that binds together the federal government the tax paying public with the research intensive universities into a major scientific research higher education partnership They have also considered the relationship between universities industry In this report they present their findings recommendations for strengthening the overall enterprise **Higher Education: Handbook of Theory and Research 12** J.C. Smart, 1997-02-28 Published annually since 1985 the Handbook series provides a compendium of thorough and integrative literature reviews on a diverse array of topics of interest to the higher education scholarly and policy communities Defending the Nation Juan C.

Lucena, 2005 Defending the Nation is a cultural history of science and engineering S E policymaking in the United States from World War II to the post 9 11 era It examines aspects of S E policy related to education and industry through both historical and future perspectives Author Juan Lucena argues that powerful social factors and groups have significantly influenced the education and training of scientists and engineers This book provides policymakers scientists engineers and educators with a deeper knowledge on which to build their reform agendas for the future **Science and Government**

**Report** , 1992 *Meeting the Nation's Needs for Biomedical and Behavioral Scientists* National Research Council, Policy and Global Affairs, Office of Scientific and Engineering Personnel, Committee on National Needs for Biomedical and Behavioral Research Personnel, 1994-02-01 This book assesses the nation's future needs for biomedical and behavioral scientists and the role the National Research Service Awards NRSA program can play in meeting those needs The year 1994 marks the twentieth anniversary of the National Research Act of 1974 PL 93 348 which established the NRSA program In its twenty years of operation the NRSA program has made it possible for many thousands of talented individuals in the basic biomedical behavioral and clinical sciences to sharpen their research skills and to apply those skills to topics of special concern to the nation such as aging hypertension the genetic basis of disease acquired immune deficiency syndrome AIDS cancer environmental toxicology nutrition and health and substance abuse

Renewing the Promise President's Council of Advisors on Science and Technology (U.S.), 1992 **Science & Government Report** , 1993 Advocacy, Outreach, and the Nation's Academic Libraries William C. Welburn, Janice Welburn, Beth McNeil, 2010 **Globalisation, Policy and Comparative**

**Research** Joseph Zajda, Val Rust, 2010-03-23 Globalisation Policy and Comparative Research which is the fifth volume in the 12 volume book series Globalisation Comparative Education and Policy Research presents scholarly research on major discourses in comparative education research It provides an easily accessible practical yet scholarly source of information about the international concern in the field of globalisation and comparative education Above all the book offers the latest findings to the critical issues concerning major discourses in comparative education in the global culture It is a sourcebook of ideas for researchers practitioners and policy makers in education globalisation and equity and access in schooling around the world It offers a timely overview of current issues affecting comparative education and education policy research in the global culture It provides directions in education and policy research relevant to transformational educational reforms in the twenty first century The book critically examines the overall interplay between comparative education discourses globalisation dominant ideologies and education It draws upon recent studies in the areas of globalisation equity social justice and the role of the State Zajda et al 2006 Zajda et al 2008a It explores conceptual frameworks and methodological approaches applicable in the research covering the State globalisation equity and education It demonstrates the neo liberal ideological imperatives of education and policy reforms and illustrates the way the relationship between the State and education policy affects current models and trends in education reforms and schooling globally

Science Bought and Sold Philip Mirowski, Esther-Mirjam Sent, 2002-01-03 From essays examining economic welfare to the idea of scientists as agents to the digital aspects of higher education presents a comprehensive overview of the new directions of this expanding area

*Empowering Technology* Lewis M. Branscomb, 1993 experts from Harvard's Center for Science and International Affairs here examine a set of key issues and problems that taken together define the scope and limits of a technology policy

**Academic Capitalism and the New Economy** Sheila Slaughter, Gary Rhoades, 2009-06-01 As colleges and universities become more entrepreneurial in a post industrial economy they focus on knowledge less as a public good than as a commodity to be capitalized on in profit oriented activities In Academic Capitalism and the New Economy higher education scholars Sheila Slaughter and Gary Rhoades detail the aggressive engagement of U S higher education institutions in the knowledge based economy and analyze the efforts of colleges and universities to develop market and sell research products educational services and consumer goods in the private marketplace Slaughter and Rhoades track changes in policy and practice revealing new social networks and circuits of knowledge creation and dissemination as well as new organizational structures and expanded managerial capacity to link higher education institutions and markets They depict an ascendant academic capitalist knowledge learning regime expressed in faculty work departmental activity and administrative behavior Clarifying the regime's internal contradictions they note the public subsidies embedded in new revenue streams and the shift in emphasis from serving student customers to leveraging resources from them Defining the terms of academic capitalism in the new economy this groundbreaking study offers essential insights into the trajectory of American higher education

**Annual Report**

Government-University-Industry Research Roundtable, **The Rise of American Research Universities** Hugh Davis Graham, Nancy Diamond, 2004-09-27 In this important and timely work Graham and Diamond reassess the success of American universities as research institutions and the role of public funding in their development from the expansionist golden years of the 1950s and 60s through the austerity measures of the 1970s and the entrepreneurial ethos of the 1980s to the budget crises universities face in the 1990s

Getting the books **Fateful Choices The Future Of The U S Academic Research Enterprise** now is not type of challenging means. You could not only going afterward books amassing or library or borrowing from your contacts to get into them. This is an no question easy means to specifically acquire lead by on-line.
