Carosso, 2023-04-28 The California Wine Industry 1830 1895 offers a meticulously researched account of the formative years of California's viticulture tracing its evolution from the mission period through to the late 19th century The book captures the pivotal role of grape cultivation in shaping California's agricultural and economic identity Through detailed analysis Carosso examines the cultural climatic and economic conditions that made California a leading wine producer in the United States as well as the challenges faced by early growers and winemakers in establishing the industry The narrative highlights the profound contributions of Spanish missionaries European immigrants and American settlers who brought diverse techniques and traditions to the region This volume provides valuable insights into the

intersection of agriculture and society delving into the adaptation of European viticultural practices to California's unique environment. It also explores the social, economic, and legislative shifts that influenced the industry's trajectory, including the decline of mission dominance and the rise of private enterprises. Enriched with historical anecdotes, production statistics, and discussions on climate and geography, *The California Wine Industry 1830-1895* is an essential resource for historians, wine enthusiasts, and those interested in the broader history of California's development. This title is part of UC Press's **Voices Revived** program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Thirteen major subjects are included, with over 2300 listings. The goal is to first list first editions in hardcover when possible; otherwise, if later editions are more relevant, they become the primary source. Many of these works may have been published in additional formats. Thirteen major subjects are included, with over 2300 listings. **Grape Culture, Wines, and Wine-making** Agoston Haraszthy, 1862. [A Short History of Sonoma](#) Lynn Downey, 2013-06-01. Sonoma is one of Northern California's most desirable places to live and a popular tourist destination, combining small-town charm, a colorful past, and its current role as the hub of one of the world's premier wine-producing regions. *A Short History of Sonoma* traces its past from the Native American peoples who first inhabited the valley, proceeding through the establishment of a mission by Spanish priests, the Bear Flag Revolt that began California's movement to become part of the United States, the foundation of what would become a celebrated wine industry, and its role today as the center of a sophisticated and highly envied food and wine culture. The book also addresses such topics as the development of local ranching and businesses and of transportation links to San Francisco that helped to make Sonoma and the surrounding Valley of the Moon a popular location for summer homes and resorts. It discusses the role of the nearby hot springs in attracting visitors and permanent residents, including people seeking cures for various ailments. There are also accounts of some of the famous people who lived in or near Sonoma and helped establish its mystique, including Mexican general Mariano Vallejo, the town's first leader; Hungarian winemaker Agoston Haraszthy, who first saw the region's potential for producing superior wines; and writers Jack London and M. F. K. Fisher, who made their homes in the Valley of the Moon drawn by its beauty and bucolic lifestyle. *A Short History of Sonoma* is generously illustrated with vintage photographs. It is a delightful account of one of America's most charming towns and its evolution from rowdy frontier settlement to the paragon of sophisticated living that it is today. **The Grapes of Conquest** Julia Ornelas-Higdon, 2023-11. Honorable Mention for the

2024 OAH Frederick Jackson Turner Award California's wine country conjures images of pastoral vineyards and cellars lined with oak barrels. As a mainstay of the state's economy, California wines occupy the popular imagination like never before and drive tourism in famous viticultural regions across the state. Scholars know remarkably little, however, about the history of the wine industry and the diverse groups who built it. In fact, contemporary stereotypes belie how the state's commercial wine industry was born amid social turmoil and racialized violence in eighteenth and nineteenth century California. In *The Grapes of Conquest*, Julia Ornelas Higdon addresses these gaps in the historical narrative and popular imagination. Beginning with the industry's inception at the California missions, Ornelas Higdon examines the evolution of wine growing across three distinct political regimes: Spanish, Mexican, and American, through the industry's demise after Prohibition. This interethnic study of race and labor in California examines how California Natives, Mexican Californios, Chinese immigrants, and Euro-Americans came together to build the industry. Ornelas Higdon identifies the birth of the wine industry as a significant missing piece of California history, one that reshapes scholars' understandings of how conquest played out, how race and citizenship were constructed, and how agribusiness emerged across the region. *The Grapes of Conquest* unearths the working class, multiracial roots of the California wine industry, challenging its contemporary identity as the purview of elite populations.

The Business of Wine G. G. Brostrom, Jack Brostrom, 2008-12-30 Wine has been a beverage staple since ancient times, especially in Europe. Today's global wine business is thriving, and American consumption of wine has increased dramatically in recent years, with the health benefits touted in the media. More Americans are becoming interested in learning about wine, and they are taking winery tours and attending wine tastings. *The Business of Wine: An Encyclopedia* is a necessary part of wine education for everyone, from the curious consumer to the oenophile or business student and industry professional. It appeals to even the casual browser who wants to be more informed about wine terminology, such as terroir or varietal labeling, or what constitutes a Pinot Grigio or a Cabernet Sauvignon. More than 140 entries illuminate the region's grapes, history, wine styles, business elements, events, people, companies, issues, and more that are crucial to the wine industry. Today's wine industry is an unusually complex network of interrelated businesses that collectively serve to produce wine and get it into the hands of consumers all over the world. This A-Z encyclopedia shows how production, distribution, and sales segments work together to bring wine to the public and describes the trade in wine and its related subsidiary elements. Written by a host of wine professionals, this is the most up-to-date source to understand what goes into the enjoyment of a glass of wine. An appendix with industry data, sidebars, and a selected bibliography complement the A-Z entries.
