Lilley, 1926 **A Biographical Dictionary of English Court Musicians, 1485-1714, Volumes I and II** Andrew Ashbee, David Lasocki, Fiona Kisby, 2018-05-08 Compiled by scholars with unrivalled knowledge of the sources this dictionary provides biographies of all musicians and instrument makers employed by the English court from 1485 1714 A number of the musicians featured here have never previously received a dictionary entry Coverage of these minor figures helps to flesh out the picture of musical life in the court in a way which individual studies of more major composers cannot In addition to basic biographical details entries feature information on appointments probate material family background heraldry signatures and holograph documents subscriptions to books bibliographic references A finding list of variant names details of the succession of court places assumed by musicians and an index of subjects and place names completes this comprehensive reference work *The Making of the Victorian Organ* Nicholas Thistlethwaite, 1999-08-26 This important 1990 book provides a comprehensive survey of English organ building during the most innovative fifty years in its history

The Organ at Liverpool Cathedral R. Meyrick-Roberts, 1929 The Ashgate Research Companion to Henry Purcell Rebecca Herissone, 2016-04-01 The Ashgate Research Companion to Henry Purcell provides a comprehensive and authoritative review of current research into Purcell and the environment of Restoration music with contributions from leading experts in the field Seen from the perspective of modern interdisciplinary approaches to scholarship the companion allows the reader to develop a rounded view of the environment in which Purcell lived the people with whom he worked the social conditions that influenced his activities and the ways in which the modern perception of him has been affected by reception of his music after his death In this sense the contributions do not privilege the individual over the environment rather they use the modern reader's familiarity with Purcell's music as a gateway into the broader Restoration world Topics include a reassessment of our understanding of Purcell's sources and the transmission of his music new ways of approaching the study of his creative methods performance practice the multi-faceted theatre environment in which his work was focused in the last five years of his life the importance of the political and social contexts of late seventeenth century England and the ways in which the performance history and reception of his music have influenced modern appreciation of the composer The book will be essential reading for anyone studying the music and culture of the seventeenth century Studies in English

Organ Music Iain Quinn, 2018-06-14 Studies in English Organ Music is a collection of essays by expert authors that examines key areas of the repertoire in the history of organ music in England The essays on repertoire are placed alongside supporting studies in organ building and liturgical practice in order to provide a comprehensive contextualization An analysis of the symbiotic relationship between the organ liturgy and composers reveals how the repertoire has been shaped by these complementary areas and developed through history This volume is the first collection of specialist studies related to the field of English organ music

A Good Quire of Voices: The Provision of Choral Music at St. George's Chapel, Windsor Castle and Eton College, c.1640-1733 Keri Dexter, 2019-09-25 This title was first published in 2002 Until relatively recently musicologists account of church music in post Restoration and early Georgian England has been substantially incomplete due to an almost exclusive preoccupation with the music and musicians of the Chapel Royal The balance is now being redressed and this book begins the task of filling one of the remaining gaps in our understanding of the field The volume represents a detailed examination of the practical workings of a choral foundation during the later 17th and early 18th centuries placing the musicians within their wider historical and social contexts and based on a comprehensive survey of extant archival material

The Organ, 1927 **Organa Britannica** James Boeringer, 1983 These volumes provide a description of source material a detailed glossary of terms indexes of short and long biographies on organ builders and groups of organ builders and a classification of species of organ cases by type in addition to a detailed inventory of early organs organized geographically

'To fill, forbear, or adorne' Rebecca Herissone, 2017-07-05 This is the first study to provide a systematic and thorough investigation of continuo realization styles appropriate to Restoration sacred music an area of performance practice that has never previously been properly assessed Rebecca Herissone undertakes detailed analysis of a group of organ books closely associated with the major Restoration composers Purcell Blow and Humfrey and the London institutions where they spent their professional lives By investigating the relationship between the organ books two stave arrangements and full scores of the same pieces Herissone demonstrates that the books are subtle sources of information to the accompanist not just short or skeleton scores Using this evidence she formulates a model for continuo realization of this repertory based on the doubling of vocal parts an approach that differs significantly from that adopted by most modern editors and which throws into question much of the accepted continuo practice in modern performance of this repertory

The Purcell Compendium Peter Holman, Bryan White, 2025-05-20 Ground breaking and comprehensive reference volume covering an extensive range of Purcell studies including his life and works his milieu and the reception of his music to the present In the 30 years since the Tercentenary of Purcell's death in 1995 research into him and the musical culture of Restoration England has developed rapidly Even the most authoritative books published then are now seriously out of date and no one since then has attempted to cover the whole range of Purcell studies The book is largely taken up with A Z dictionary entries preceded by an up to date biography and followed by a work list and bibliography The dictionary includes

entries for many of Purcell's works the genres he contributed to the titles and terms he used the instruments he wrote for the most important manuscript and printed sources of his music and some pressing performance practice issues Important threads are devoted to people associated with Purcell including earlier composers who influenced him his fellow composers his pupils and followers those who provided him with texts to set his patrons and employers the most important copyists publishers and instrument makers associated with him and those contemporaries who wrote about him The book breaks new ground by giving particular emphasis to his performers including the most prominent singers and dancers he worked with and the individuals and institutions responsible for maintaining or sometimes altering his legacy up to the present
