Generations Alexandra Walsham,2023-01-10 This book examines England's plural and protracted Reformations through the novel prism of the generations Approaching generation as a biological unit and a social cohort it demonstrates that the tumultuous religious developments that stretched across the sixteenth and seventeenth centuries not merely transformed the generations but were also forged by them It provides compelling new insights into how people experienced and navigated the profound challenges that the Reformations posed in everyday life Alexandra Walsham investigates how age and ancestry were implicated in the theological and cultural upheavals of the era and how these in turn reconfigured the nexus between memory history and time Generations explores the manifold ways in which the Reformations shaped the horizontal relationships that men women and children formed with their siblings kin and peers as well as the vertical ones that tied them to their dead ancestors and their future heirs It highlights the vital part that families bound by blood and by faith played in the making of current events and in recording the past for posterity Drawing on previously untapped archival evidence in tandem with a rich array of printed texts visual images and material objects this study offers poignant glimpses of individual lives and casts fascinating light on how families were both torn apart and brought closer together by the English Reformations

Mafia Kings J. R. Runnels, The ascent of the young Mafia Kings Marco Moretti the ruthless strategist Antonio Bellini the charismatic enforcer and the Rossi brothers Carlo the meticulous planner and Vito the volatile explosives expert was a chilling crescendo Their ambition fueled by a potent cocktail of youthful arrogance and simmering resentment towards the established order threatened to obliterate the delicate balance of power in the city Their rise promised not a mere shift in leadership but a cataclysmic upheaval leaving behind a landscape of shattered alliances ruined businesses and the lingering acrid stench of betrayal and bloodshed the reeking testament to their brutal victory But for now they were just numbers lost souls navigating the brutal landscape of razor wire and institutionalized cruelty They weren t just another gang they were a rapidly ascending power a force that threatened to upset the delicate balance of the criminal landscape The streets of New York City already steeped in shadows and secrets now felt profoundly darker their very atmosphere heavy with the unspoken threat of their looming presence The city held its breath waiting for the inevitable reckoning They started out as the Razorwire Kings and as they got older and they became the Mafia Kings The city s vast network of informants and spies a sprawling unseen web of eyes and ears woven throughout the city s grimy underbelly constantly fed intelligence to the city s most powerful Mafia families Whispers of the Mafia Kings activities slithered through backroom deals and clandestine meetings held in dimly lit speakeasies and smoke filled gambling dens spreading with the insidious speed of wildfire Their challenges weren t discussions they were balletic slaughters a symphony of screams and shattering bone the metallic tang of blood filling the air with a sickening sweetness The cobblestones once grey and dull now reflected a macabre crimson mirror a testament to their brutal beautiful savagery They plaque New York city for over a decade Whispers of their ruthlessness spread through the underworld painting a portrait of a power that brooked no opposition and tolerated no dissent As their

power grew so did their wealth The money poured in a viscous torrent of ill gotten gains a relentless deluge of blood money Each dollar bill bore the acrid bite of extortion a testament to the coercion and fear that fueled the enterprise This wasn't some sanitized business venture this was a descent into the very pit of hell hornet's nest of money laundering a labyrinthine world where whispers hissed like snakes and coded messages slithered across encrypted screens The four was set to prosper together but as time progresses they grow apart This is their story its about mistakes sacrifice loyalty deception and redemption *The Moral Compass of the Founding Fathers* Pasquale De Marco, 2025-04-15

google books *Men Out of Focus* Marko Dumančić, 2021 *Men Out of Focus* charts conversations and polemics about masculinity in Soviet cinema and popular media during the liberal period often described as The Thaw between the death of Stalin in 1953 and the invasion of Czechoslovakia in 1968 The book shows how the filmmakers of the long 1960s built stories around male protagonists who felt disoriented by a world that was becoming increasingly suburbanized rebellious consumerist household oriented and scientifically complex The dramatic tension of 1960s cinema revolved around the male protagonists inability to navigate the challenges of postwar life Selling over three billion tickets annually the Soviet film industry became a fault line of postwar cultural contestation By examining both the discussions surrounding the period's most controversial movies as well as the cultural context in which these debates happened the book captures the official and

popular reactions to the dizzying transformations of Soviet society after Stalin *From Within* Derek Huntington,2007-01-12

From Within is a compilation of many poems written in one young man's 21 years. They tell of the good times, the bad times, and everything else in between. Nothing is held back. Many of the poems do not follow a standard writing theme, but he never been one for tradition. To him, a poem has never been about rhyming, but rather feeling and emotion. And that is what comes through in *From Within*, as the title suggests. You can feel the passion, the wisdom, and even some of the suffering in this life. Poetry is known as an art that the writer never loses the love for, and this promises many great works to follow **The Monotheists: Jews, Christians, and Muslims in Conflict and Competition, Volume II** F. E. Peters,2009-04-11

The world's three great monotheistic religions have spent most of their historical careers in conflict or competition with each other. And yet, in fact, they sprung from the same spiritual roots and have been nurtured in the same historical soil. This book, an extraordinarily comprehensive and approachable comparative introduction to these religions, seeks not so much to demonstrate the truth of this thesis as to illustrate it. Frank Peters, one of the world's foremost experts on the monotheistic faiths, takes Judaism, Christianity, and Islam, and after briefly tracing the roots of each, places them side by side to show both their similarities and their differences. Volume I, *The Peoples of God*, tells the story of the foundation and formation of the three monotheistic communities of their visible historical presence. Volume II, *The Words and Will of God*, is devoted to their inner life, the spirit that animates and regulates them. Peters takes us to where these religions live: their scriptures, laws, institutions, and intentions; how each seeks to worship God and achieve salvation; and how they deal with their own orthodox and heterodox and with others: the goyim, the pagans, the infidels. Throughout, he measures but never judges one religion against the other. The prose is supple, the method rigorous. This is a remarkably cohesive, informative, and accessible narrative reflecting a lifetime of study by a single recognized authority in all three fields. *The Monotheists* is a magisterial comparison for students and general readers as well as scholars of the parties to one of the most troubling issues of today: the fierce, sometimes productive and often destructive competition among the world's monotheists, the siblings called Jews, Christians, and Muslims **Selected Essays, Volume II** Andrew Louth,2023

These two volumes contain selected essays written over forty years by Andrew Louth, a major scholar in the fields of Theology and Patristics, early Christian thought. Many of the essays in volume II concern the nature of theology, drawing from a famous group of twentieth-century Russian thinkers exiled after the 1917 Communist revolution Ebony,2003-01
