To and to the illustrious memory of Francois Couperin le Grand
Preface
So FAR AS I am aware this is the first book on Couperin le Grand in English indeed it is possibly the first comprehensive study of his work in any language for of die three French books on him known to me that of Bouvet is purely biographical while those of Tessier and Tiersot do not claim to be more than introductory monographs As such they are both admirable I have divided this study of Couperin into three sections The first gives the facts of his life and some account of the nature values and standards of his community Of the facts of his life little is known and I have not indulged in speculation For most of the information contained in my introductory chapter I am indebted to the bio graphical sections of the previous books on Couperin referred to above with the addition of some documentary evidence more recently published by M Paul Brunold The chapters on the values and standards of the grand siecle do not pretend to offer a revolutionary approach My general attitude to the period is influenced by the miscellaneous writings of Mr Martin Turnell published in *Horizon* *Scrutiny* and elsewhere 1 especially those on Racine Moliere Corneille and *La Princesse de Cleves* and by a most interesting essay by

Mr R C Knight also published in *Scrutiny* which was in part a criticism of Turnell's account of Racine. I have also found many hints worth following up and much useful information in Mr Arthur Tiffney's two books *From Montaigne to Moliere* and *The Decline of the Age of Louis XIV*. Most of the information in my chapter on the court theatre music is derived from the writings of the recognized authority on the period M Henri Prunier. These books are listed in the bibliography.
