## Fear In Finland:

Swedish Volunteers in the Russo-Finnish Winter War, 1939-1940 Martina Sprague, 2014-01-10 Sandwiched between Nazi Germany and the Russian Bear Sweden walked a diplomatic tightrope on if and how it should support Finland during the Russo Finnish Winter War Social and political forces motivated the Swedish leadership to promote neutrality and avoid official military engagement while at the same time the Swedish Volunteer Corps comprised the largest volunteer combat force more than 8 200 strong in any modern war This book discusses the political background of the 1939 1940 Winter War setbacks the volunteers suffered due to weather and terrain and the ever present fear that war would come to the Scandinavian Peninsula

The Three Fears Every Leader Has to Know Bård Norheim, Joar Haga, 2022-08-05 Fear is an inescapable part of how human beings experience reality The impact of fear becomes particularly evident in a crisis When a crisis strikes be it a war a pandemic global warming or a financial crisis leaders are challenged to exercise sound judgement by speaking and acting This book argues that there are three fears every leader has to know apocalyptic fear political fear and private fear By appealing to these three fears in an adequate manner a leader s appeal to fear may serve a constructive purpose in a crisis

Finland and Europe Juhani Paasivirta, 1962-02-01 Finland and Europe was first published in 1982 Minnesota Archive Editions uses digital technology to make long unavailable books once again accessible and are published unaltered from the original University of Minnesota Press editions In 1808 the Grand Duchy of Finland part of the Swedish kingdom since the thirteenth century was invaded and in 1809 annexed by Russia events which took place within the context of the Napoleonic wars but whose significance was obscure to most Finns and to the outside world as well During the nineteenth century Finnish national identity grew and Finland began to play a role in European politics This book traces the course of Finnish involvement in European affairs from the time when it became an autonomous Grand Duchy within the Russian Empire down to the First World War Juhani Paasivirta s analysis is centered upon eleven international crises including the Russian

annexation of Finland the fall of Napoleon two revolutions in Poland the revolutions of 1848 the Franco Prussian War and the Paris Commune the Russo Turkish and Russo Japanese wars and the outbreak of the First World War Paasivirta writes from two vantage points he records the reactions to these events in Finland across a broad social and economic spectrum and the attitudes towards the Finnish situation in Sweden England France and Germany Finland's relationship with Russia and her necessarily realistic regard for the security of the Russian Empire were important matters faced by Finnish leaders Paasivirta shows how this delicate relation collapsed making way for a course that led to Finnish independence in 1917 *The Politics of Nuclear Power in Finland* Lotta I. Lounasmeri, 2023-05-03 Through a case study based on original interviews this book offers an analysis of the invisible bonds of trust that hold a community together extending the local and national perspective The case of Finland and nuclear company Fennovoima first working with the German energy company E.ON and later with the Russian state owned company Rosatom opens a window onto the Finnish culture of trust what kind of collective belief system lies at the foundation of public life and decision making in the energy sector This story can help us look at our own roots and the stories we have grown up with allowing us to understand ourselves and others as connected to the land in the current era of a seemingly victorious new world order Those interested in an in depth analysis of a Northern political culture and its historical roots should read this book In fact anyone interested in current world politics should read this book it is an eye opener to what happens in deeper levels of decision making **Conferences at Cairo and Tehran, 1943** United States. **The Feel of Algorithms** Minna Ruckenstein,2023-05-23 This book explores the cultural shift in society that promotes and relies on affectively charged technology relations Bringing together relatable first person accounts of what it means to experience algorithms emotionally alongside research developed across anthropology sociology media and communication studies and science and technology studies The Feel of Algorithms reveals how political economic processes are felt in the everyday as we learn about the digital geography of fear and the current lack of collective resources to build algorithmic systems Minna Ruckenstein builds on the notion that everyday practices are not merely subject to algorithmic logic rather people actively respond to and live with data and algorithms ranging from actual technical operations to their imagined effects The pleasures fears and frustrations come together to produce a blueprint of how such systems should be combined with human aims and efforts The narrated emotional reactions are not simply individual responses they tell a more generalizable story of structures of feeling and related attempts to live well with algorithmic systems The Feel of Algorithms demonstrates that human capacities and aims need active fostering in the algorithmic era The structures of feeling aid in recognizing troubling practices but they also call for alternatives that are currently ignored and suppressed **Report**
