O. H. Mowrer's Theory of Integrity Therapy Revisited V. Edwin Bixenstine, 2014-03-21 In the mid 20th century O Hobart Mowrer was a celebrated academic psychologist owing largely to his experiments with animals and humans that led to breakthrough theories on how we learn His numerous publications in this arena propelled him to the post of President of the American Psychological Association in 1954 His own battles with depression led him to develop a new theory of psychotherapy which he called Integrity Therapy The premise of this modality is that the client's deception with people they care about is the source of conscience pangs but the client resists or represses the prompting of the conscience and this causes his or her psychological symptoms Treatment therefore consists of urging the client to acknowledge his or her hidden behaviors to themselves and to significant others that they might both gain restored community with intimates and the fruits of personal integrity and inner peace to come clean about their deceptions and rewarding the confession with approval This book explores the conceptual underpinnings of Integrity Therapy and Mowrer's unique treatment approach detailing his methods for setting conditions for therapy assessing clinical data rules of engagement for transference and countertransference and handling client resistance Case examples and transcripts are included to demonstrate key points of this technique Mental health professionals interested in Mowrer's ideas or the history of psychotherapy will find this book to be a valuable and interesting resource

Herbert,2009-11-30 The first comprehensive study of the meaning of pottery as a social activity in coastal North Carolina Pottery types composed of specific sets of attributes have long been defined for various periods and areas of the Atlantic coast but their relationships and meanings have not been explicitly examined In exploring these relationships for the North Carolina coast this work examines the manner in which pottery traits cross cut taxonomic types tests the proposition that communities of practice existed at several scales and questions the fundamental notion of ceramic types as ethnic markers Ethnoarchaeological case studies provide a means of assessing the mechanics of how social structure and gender roles may have affected the transmission of pottery making techniques and how socio cultural boundaries are reflected in the distribution of ceramic traditions Another very valuable source of information about past practices is replication experimentation which provides a means of understanding the practical techniques that lie behind the observable traits thereby improving our understanding of how certain techniques may have influenced the transmission of traits from one potter to another Both methods are employed in this study to interpret the meaning of pottery as an indicator of social activity on the North Carolina coast **Spectacular Book Of Quiz ?** Neela Subramaniam, *The Power of Your Subconscious Mind* Dr. Joseph Murphy,2022-12-06 Unlock the extraordinary potential of your mind and transform your life with The Power of Your Subconscious Mind by Dr Joseph Murphy Join Dr Murphy as he reveals the secrets to harnessing the incredible power of your subconscious mind to achieve success happiness and fulfillment in every aspect of your life Through practical techniques inspiring anecdotes and profound insights Dr
