Fearful Realities:

Gothic Realities L. Andrew Cooper, 2014-01-10 Eighteenth century critics believed Gothic fiction would inspire deviant sexuality instill heretical beliefs and encourage antisocial violence this book puts these beliefs to the test After examining the assumptions behind critics fears it considers nineteenth century concerns about sexual deviance showing how Frankenstein Dr Jekyll and Mr Hyde Dorian Gray and other works helped construct homosexuality as a pathological dangerous phenomenon It then turns to television and film particularly Buffy the Vampire Slayer and David DeCoteau s direct to video movies to trace Gothicized sexuality s lasting impact Moving to heretical beliefs Gothic Realities surveys ghost stories from Dickens s A Christmas Carol to Poltergeist articulating the relationships between fiction and the real supernatural Finally it considers connections between Gothic horror and real world violence especially the tragedies at Columbine and Virginia Tech *FINDING REALITY BEYOND FEAR* Rev. Fay, 1853 **Surfing Realities** James Foster, 2013-07-24 What am I doing here and why doesn't life make any sense Who am I and what does it all mean anyway Through Surfing Realities James Foster provides answers to these questions with precise pragmatism Foster argues that there are no lasting answers and that nothing makes sense for those asking these profound questions because the context we have learned to accept is inaccurate By deciphering and condensing thousands of hours of information received from Ascended Beings of Light through internationally known channel Nasrin Safai Foster paints a vast landscape expanding our perspective to embrace a cosmic context Through a step by step process we gain greater understanding of how the game is really played on cosmic as well as personal levels and how it all blends together in a beautiful cosmic dance A logical presentation of the nature of reality is given with practical tools to improve our own reality and that of our loved ones earth and humankind Surfing Realities covers a myriad of subjects including the history of this planet the rise and fall of its civilizations the expanse of the cosmos the dimensions of reality our hierarchy of beings universal law and the nature of duality *Their Hopes, Fears and Reality* Melinda Dooly, 2010 Based on a research project supported by the European Foundation this book explores how primary and secondary students in four different European countries view theirs and the world s future The results indicate that there is a gap between students perspectives about the future and a clear pedagogical base for helping students confront many issues that are significant to them The importance of ensuring students become critically aware citizens and helping them develop the ability and skills necessary for facing the challenges of the future are patent This book spells out specific ways in which the issues which emerged from the study can be approached from diverse fields geography language learning and arts and crafts It also discusses some cross disciplinary educational issues relevant to all teachers general education and cross disciplinary as well as offering two proposals on how teachers can count on sufficient psychological support to face the challenges of teaching in an increasingly complex environment and promote cooperative behaviour in the classroom **The Bearer of Crazy and Venomous Fangs**

Vincent DiMarco,2014-03 For centuries prior to the development of an effective vaccination against rabies the bite of a mad dog was linked to a horrific ailment marked by convulsions an utter dread of swallowing liquids uncontrollable thrashing and even the tendency to bark and attempt to bite others a horrid prelude to an agonizing death Drawing on learned theories of medical practitioners and beliefs of the common people The Bearer of Crazy and Venomous Fangs investigates the cultural mythology of the ailment known today as rabies By exploring the cultural history of science traditional belief and folk medicine it reveals the popular myths and learned delusions that came to define the disease Among the arresting topics explored are the attribution of rabies to a worm beneath the tongue the notion that the disease could arise spontaneously the idea that it could be cured by the application to the wound of special stones or animal parts and if all else failed the treatment of it by the suffocation of the human victim Rich in detail and brimming with historical intrigue The Bearer of Crazy and Venomous Fangs engages students of medicine and the history of science veterinary studies folklore psychology and anyone interested in how mankind's best friend could be thought of as its cruelest fiercest enemy **Making New Worlds** John C. Woodcock,2013-12-16 Imagining this or that future as a way of generating hope and hopeful action far from moving us towards any desired outcome is simply occluding our eyes from the reality that is right in front of us daily Our time is incredibly uncertain and our lives are dominated by catastrophic thinking with fear more and more determining our real actions and outcomes on the local or world scale If we finally drop all pretense that hope can have any bearing on the future we must then face the level of fear running freely through world affairs today and equally we must face the fact that predictability is impossible in regards to the future Under these circumstances we can ask is there any adequate way of addressing the future at all a way that does not blind us to the fearful realities of our times a way that does not address the unknown future in terms of predictability or hope a way that nonetheless may indeed help prepare the unknown future There is and I will call it the way of the artist From the Introduction Masking Terror Alex Argenti-Pillen,2013-07-17 In Sri Lanka staggering numbers of young men were killed fighting in the armed forces against Tamil separatists The war became one of attrition year after year waves of young foot soldiers were sent to almost certain death in a war so bloody that the very names of the most famous battle scenes still fill people with horror Alex Argenti Pillen describes the social fabric of a rural community that has become a breeding ground and reservoir of soldiers for the Sri Lankan nation state arguing that this reservoir has been created on the basis of a culture of poverty and terror Focusing on the involvement of the pseudonymous village of Udahenagama in the atrocities of the civil war of the late 1980s and the interethnic war against the Tamil guerrillas Masking Terror describes the response of women in the rural slums of southern Sri Lanka to the further spread of violence To reconstruct the violent backgrounds of these soldiers she presents the stories of their mothers sisters wives and grandmothers providing a perspective on the conflict between Sinhalese and Tamil populations not found elsewhere In addition to interpreting the impact of high levels of violence on a small community Argenti Pillen questions the effects of

trauma counseling services brought by the international humanitarian community into war torn non Western cultural contexts Her study shows how Euro American methods for dealing with traumatized survivors poses a threat to the culture specific methods local women use to contain violence Masking Terror provides a sobering introduction to the difficulties and methodological problems field researchers social scientists human rights activists and mental health workers face in working with victims and perpetrators of ethnic and political violence and large scale civil war The narratives of the women from Udahehagama provide necessary insight into how survivors of wartime atrocities reconstruct their communicative worlds and disrupt the cycle of violence in ways that may be foreign to Euro American professionals

Opium and the Romantic Imagination Alethea Hayter, 2015-07-30 Does the habit of taking drugs make authors write better or worse or differently Does it alter the quality of their consciousness shape their imagery influence their technique For the Romantic writers of the nineteenth century many of whom experimented with opium and some of whom were addicted to it this was an important question but it has never been fully answered In this study Alethea Hayter examines the work of five writers Crabbe Coleridge De Quincey Wilkie Collins and Francis Thompson who were opium addicts for many years and of several other writers notably Keats Edgar Allan Poe and Baudelaire but also Walter Scott Dickens Mrs Browning James Thomson and others who are known to have taken opium at times The work of these writers is discussed in the context of nineteenth century opinion about the uses and dangers of opium and of Romantic ideas on the creative imagination on dreams and hypnagogic visions and on imagery so that the idiosyncrasies of opium influenced writing can be isolated from their general literary background The examination reveals a strange and miserable region of the mind in which some of the greatest poetic imaginations of the nineteenth century were imprisoned
