Haunted Heart Lisa Rogak, 2010-01-05 A thoroughly respectful overview of King's life and a great starter biography for new fans The Boston Globe One of the most prolific and popular authors in the world today Stephen King has become part of pop culture history But who is the man behind those tales of horror grief and the supernatural Where do these ideas come from And what drives him to keep writing at a breakneck pace after a thirty year career In this unauthorized biography Lisa Rogak reveals the troubled background and lifelong fears that inspire one of twentieth century's most influential authors King's impoverished childhood in rural Maine and early marriage hardly spelled out the likelihood of a blossoming literary career But his unflagging work ethic and a ceaseless flow of ideas put him on the path to success The side effects of sudden stardom and seemingly unlimited wealth soon threatened to destroy his work and worse his life But he survived and has since continued to write at a level of originality few authors could ever hope to match Despite his dark and disturbing work Stephen King has become revered by critics and his countless fans as an all American voice more akin to Mark Twain than H P Lovecraft Haunted Heart chronicles his story revealing the character of a man who has created some of the most memorable and frightening stories found in literature today Rogak looks at what scares King enough that he's been able to keep readers entertained for thirty years Bangor Daily News Rogak has pieced together King's sometimes erratic life scrupulously into a clean swift read Times Online U K

Dissecting Stephen King Heidi Strengell, 2005 In a thoughtful well informed study exploring fiction from throughout Stephen King's immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed sexuality of the vampire the hubris of Frankenstein the split identity of the werewolf the domestic melodrama of the ghost tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader's childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival
