Feast, Fast or Famine Wendy Mayer, Silke Trzcionka, 2005-01-01 In recent decades there has been an increasing interest in the study of food and drink in the ancient Mediaeval and Byzantine worlds and of their supply and consumption This volume presents selected papers from the biennial conference of the Australian Association for Byzantine Studies which was held at the University of Adelaide 11 12 July 2003 The theme was food and drink in Byzantium Published selectively in the present volume the papers of the conference are augmented by contributions from international scholars While some papers address the use of food directly children s diet fasting or tangentially in love spells or discuss philosophical approaches towards food vegetarianism other papers in this volume examine the topic from another perspective the role and perception of food and drink and their consumption in society Yet others examine issues of supply military logistics and the role it played in shaping Byzantium This volume will appeal to readers interested in the history of food in late antique and Byzantine society in Byzantine rhetoric in magic in late antiquity and in the Jews in early Byzantium

The Oxford Handbook of Food History Jeffrey M. Pilcher, 2012-10-16 Food matters not only as a subject of study in its own right but also as a medium for conveying critical messages about capitalism the environment and social inequality to diverse audiences Recent scholarship on the subject draws from both a pathbreaking body of secondary literature and an inexhaustible wealth of primary sources from ancient Chinese philosophical tracts to McDonald s menus contributing new perspectives to the historical study of food culture and society and challenging the limits of history itself The Oxford Handbook of Food History places existing works in historiographical context crossing disciplinary chronological and geographic boundaries while also suggesting new routes for future research The twenty seven essays in this book are organized into five sections historiography disciplinary approaches production circulation and consumption of food The first two sections examine the foundations of food history not only in relation to key developments in the discipline of history itself such as the French Annales school and the cultural turn but also in anthropology sociology geography pedagogy and the emerging Critical Nutrition Studies The following three sections sketch various trajectories of food as it travels from farm to table factory to eatery nature to society Each section balances material cultural and intellectual concerns whether juxtaposing questions of agriculture and the environment with the notion of cookbooks as historical documents early human migrations with modern culinary tourism or religious customs with social activism In its vast interdisciplinary scope this handbook brings students and scholars an authoritative guide to a field with

fresh insights into one of the most fundamental human concerns Commensality: From Everyday Food to Feast Susanne Kerner, Cynthia Chou, Morten Warmind, 2015-02-26 Throughout time and in every culture human beings have eaten together Commensality eating and drinking at the same table is a fundamental social activity which creates and cements relationships It also sets boundaries including or excluding people according to a set of criteria defined by the society Particular scholarly attention has been paid to banquets and feasts often hosted for religious ritualistic or political purposes but few studies have considered everyday commensality Commensality From Everyday Food to Feast offers an insight into this social practice in all its forms from the most basic and mundane meals to the grandest occasions Bringing together insights from anthropologists archaeologists and historians this volume offers a vast historical scope ranging from the Late Neolithic period 6th millennium BC through the Middle Ages to the present day The sixteen chapters include case studies from across the world including the USA Bolivia China Southeast Asia Iran Turkey Portugal Denmark and the UK Connecting these diverse analyses is an understanding of commensality's role as a social and political tool integral to the formation of personal and national identities From first experiences of commensality in the sharing of food between a mother and child to the inaugural dinner of the American president this collection of essays celebrates the variety of human life and society *The Primal Feast* Susan Allport, 2016-06-28 Food makes the world go around according to this absorbing account of how the search for food has shaped human nature It is more important than love or sex for the simple reason that food is harder to find than a mate Think of it this way says Allport who draws on the research of anthropologists and biologists in presenting her fascinating and provocative theories Mates are often willing accomplices in the act of mating food is never a willing accomplice in the act of eating Culture and Customs of Ethiopia Solomon Addis Getahun, Wudu Tafete Kassu, 2014-02-27 An ideal resource for anyone interested in learning about Ethiopia this accessible single volume work provides all encompassing and up to date coverage of the ancient and diverse cultures of Africa's second most populated nation Explore the fascinating culture of Ethiopia a highly diverse nation built on the foundations of ancient kingdoms truly a melting pot of traditions from Africa as well as other continents With increasing freedom of speech and growing access to technology Ethiopians are better able and more eager than ever to share ideas art and information not only with each other but with the rest of the world This detailed volume offers readers informed perspectives on one of the world's oldest populations covering its long ago history as well as its evolution in the 21st century Readers will discover Ethiopia's collection of written and oral stories unique art and architecture inspired by royalty and religion delicious cuisine and many forms of music dress and dance The book's chapters also describe important changes in Ethiopia's social customs prevalent attitudes regarding women and the nation's historically oppressive political system **Ancient Jewish Food in Its Geographical and Cultural Contexts** Susan Weingarten, 2025-03-25 This book is the first in depth study of food in talmudic literature in its geographical and cultural contexts It demonstrates the sharing of foods and foodways between Jews and their non Jewish neighbours in

the Near East in Late Antiquity Using both ancient written sources and archaeological evidence this book sets the foods of the Mishnah and Palestinian Talmud in their Graeco Roman context and the foods of the Babylonian Talmud and the ge onim in their Persian and Arab contexts It explores practices of food preparation and their contribution to the ancient diet as well as analysing the relationships between food status and culture The rabbinical authors of talmudic literature were more concerned with everyday food than were aristocratic Classical authors by examining both talmudic sources and archaeological finds this book paints a new picture of the diet lifestyle and culture of ordinary people Ancient Jewish Food in Its Geographical and Cultural Contexts will interest Food Historians as well as students and scholars of Jewish Studies particularly the period of the Mishnah and Talmud as well as those dealing with the wider social and cultural history of the Ancient Near East

Food In Global History Raymond Grew, 2018-02-19 Social scientists study food in many different ways Historians have most often studied the history of specific foods anthropologists have emphasized the role of food in religious rituals and group identities sociologists have looked primarily at food as an indicator of social class and a factor in social ties and nutritionists have focused on changing patterns of consumption and applied medical knowledge to study the effects of diet on public health Other scholars have studied the economic and political connections surrounding commerce in food Here these perspectives are brought together in a single volume

Indo-European Fire Rituals Anders Kaliff, Terje Oestigaard, 2022-12-30 Indo European Fire Rituals is a comparative study of Indo European fire rituals from modern folklore and ethnography in Scandinavia and archaeological material in Europe from the Bronze Age onwards to the Vedic origins of cosmos in India and today s cremations on open pyres in Hinduism Exploring Indo European fire rituals and sacrifices throughout history and fire in its fundamental role in rites and religious practices this book analyses fire rituals as the unifying structure in time and space in Indo European cultures from the Bronze Age onwards It asks the question how and why was fire the ultimate power in culture and cosmology Fire as an agent and divinity was fundamental in all major sacrifices In Europe ritual fires in relation to agriculture and fertility may also explain the enigma of cremation Cremated remains were ground and used in fertility rituals and ancestral fires played an essential role in metallurgy and the creation of cosmos Thus the role of fire rituals in culture and cosmology enables a unique understanding of historic developmental processes For students and academics studying Indo European culture history from the Bronze Age onwards this book has a broad interdisciplinary audience including archaeology ethnography folklore religious and Indo European studies The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license

The Biology of Religious Behavior Jay R. Feerman, 2009-06-08 Offers a fresh and detailed take on the evolution of religious behavior from a biobehavioral perspective promoting a new understanding that may help build bridges across the religious divide There has been much recent interest in the study of religion from the perspective of Darwinian evolution The Biology of Religious Behavior The Evolutionary

Origins of Faith and Religion offers a broad overview of the topic written by internationally recognized experts In addition to its primary focus on religious behavior the book addresses other important aspects of religion such as values beliefs and emotions as they affect behavior The contributors approach the evolution of religion by examining the behavior of individuals in their everyday lives After describing various religious behaviors the contributors consider the behaviors with reference to their evolutionary history development during the lifetime of the individual proximate causes and adaptive value Happily this foray into understanding religion from a biobehavioral perspective demonstrates that at the biological and behavioral levels what unites the different religions of the world is far greater than what divides them *Rival Praises* Celia Campbell,2024

The *Metamorphoses* written by the Roman poet Ovid has fascinated readers ever since it was written in the first century CE and here Celia M Campbell offers a bold new interpretive approach Reasserting the significance of the ancient hymnic tradition she argues that the first pentad of Ovid's *Metamorphoses* draws a programmatic strain of influence from hymns to the gods in particular conversation and competition with the work of the Alexandrian poet Callimachus a favored source of inspiration to Augustan writers She suggests that Ovid read Callimachus six hymns as a self conscious set and reading the first five books of the *Metamorphoses* through Callimachus hymnic collection allows us to pierce the occasionally opaque and seemingly idiosyncratic mythology Ovid constructs Through careful innovative close readings Campbell illustrates that Callimachus and the hymnic tradition provide a kind of interpretative key to unlocking the dynamic landscape of divine power in Ovid's poetic cosmos

The Neolithic of the Irish Sea Chris Fowler,2015-03-31 This collection of 24 papers aims to reconsider the nature and significance of the Irish Sea as an area of cultural interaction during the Neolithic period The traditional character of work across this region has emphasised the existence of prehistoric contact with sea routes criss crossing between Ireland the Isle of Man Anglesey and the British mainland A parallel course of investigation however has demonstrated that the British and Irish Neolithics were in many ways different with distinct indigenous patterns of activity and social practices The recent emphasis on regional studies has further produced evidence for parallel yet different processes of cultural change taking place throughout the British Isles as a whole This volume brings together some of these regional perspectives and compares them across the Irish Sea area The authors consider new ways to explain regional

patterning in the use of material objects and relate them to past practices and social strategies Were there practices that were shared across the Irish Sea area linking different styles of monuments and material culture or were the media intrinsic to the message The volume is based on papers presented at a conference held at the University of Manchester in 2002

Odysseys of Plates and Palates: Food, Society and Sociality Simeon S. Magliveras,2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Is food merely fuel to keep us alive Consuming food is not simply about biological and nutritional needs Rather food like anything people engage with is inherently multi faceted The context of food and its discourses involve an interplay of our cognition and is a medium for our memory and identity Food from its mundane modes of production to the consumption of a single meal or even to the global networks which bring foods from distant lands to one s plate reflects and creates hegemonic relations between groups and individuals defining good and bad behaviour Food has been discussed since ancient times appearing in numerous ancient texts It has both been described as art and is the subject of art Food then is an expression of how we understand our world and humanity s place in it **The Homeric Hymns** Andrew Faulkner,2011-06-30 This is the first collection of scholarly essays on the Homeric Hymns a corpus of 33 hexameter poems celebrating gods that were probably recited at religious festivals among other possible performance venues and were frequently attributed in antiquity to Homer After a general introduction to modern scholarship on the Homeric Hymns the essays of the first part of the book examine in detail aspects of the longer narrative poems in the collection while those of the second part give critical attention to the shorter poems and to the collection as a whole The contributors to the volume present a wide range of stimulating views on the study of the Homeric Hymns which have attracted much interest in recent years *Feasts, Fasts and Famine* Patricia Caplan,1992 Encyclopedia of Medical Anthropology Carol R. Ember,Melvin Ember,2003-12-31 Medical practitioners and the ordinary citizen are becoming more aware that we need to understand cultural variation in medical belief and practice The more we know how health and disease are managed in different cultures the more we can recognize what is culture bound in our own medical belief and practice The Encyclopedia of Medical Anthropology is unique because it is the first reference work to describe the cultural practices relevant to health in the world s cultures and to provide an overview of important topics in medical anthropology No other single reference work comes close to marching the depth and breadth of information on the varying cultural background of health and illness around the world More than 100 experts anthropologists and other social scientists have contributed their firsthand experience of medical cultures from around the world **Australian Folklore** ,1999
