*lieferbarer Bücher*, 2002      **Cinema and Intermediality** Ágnes Pethő, 2011-05-25 Within the last two decades intermediality has emerged as one of the most challenging concepts in media theory with no shortage of various taxonomies and definitions What prompted the writing of the essays gathered in this volume however was not a desire for more classifications applied to the world of moving pictures but a strong urge to investigate what the inter implied by the idea of intermediality stands for and what it actually entails in the cinema The book offers in each of the individual chapters a cross section view of specific instances in which cinema seems to consciously position itself in between media and arts employing techniques that tap into the multimedial complexity of cinema and bring into play the tensions generated by media differences The introductory theoretical writings deal with the historiography of approaching intermedial phenomena in cinema presenting at the same time some of the possible gateways that can open up the cinematic image towards the perceptual frames of other media and arts The book also contains essays that examine more closely specific paradigms in the poetics of cinematic intermediality like the allure of painting in Hitchcock's films the exquisite ways of framing and unframing haptical imagery in Antonioni's works the narrative allegories of media differences the word and image plays and ekphrastic techniques in Jean Luc Godard's total cinema the fl neuristic intermedial gallery of moving images created by Jos Luis Guer n or the types of intermedial metalepses in Agn's Varda's cin criture From a theoretical vantage point these essays break with the tradition of thinking of intermediality in analogy with intertextuality and attempt a phenomenological re definition of intermedial relations Moreover some of the analyses target films that expose the coexistence of the hypermediated experience of intermediality and the illusion of reality connecting the questions of intermediality both to the indexical nature of cinematic representation and to the specific ideological and cultural context of the films thus offering insights into a few questions regarding the politics of intermediality as well      Terminal City Library Edition Dean Motter, 2016-10-25 Venture back into Dean Motter and Michael Lark's Terminal City in this oversized library edition The city has been in decline since a group of celebrated adventurers Kid Gloves the boxer Monty Vickers the explorer Eno Orez the Man of 1 000 faces and Cosmo Quinn the human fly each disappeared into obscurity Now a series of strange mysteries brings the four men together once again with explosive results This new edition of Motter and Lark's beloved work features new never before seen sketchbook materials housed in an oversized hardcover sure to delight any fan Collect Terminal City 1 9 Terminal City Aerial Graffiti 1 5      **Edge** Neil Gaiman, Bill Sienkiewicz, 2003 Celebrating the tenth anniversary of Vanguard's flagship cutting edge comics anthology this book features Mr X a tale by best selling author Neil Gaiman and Sandman cover artist Dave McKean Beyond the Clash a contemplation on the loss of musical visionaries John Cage and Frank Zappa by Society of Illustrators Gold Medal winner Barron Storey Frogs a 12 page visual storytelling experiment by Jim Steranko and Endangered Species Cookbook by novelist Paul Theroux and Marshall Arisman      **Choice**, 2006      **Book Review Index - 2009 Cumulation** Dana Ferguson, 2009-08 Book Review Index provides quick access to reviews of books periodicals books
