**Leaders** Mike Waters, 2018-02-02 This unique book has been written to save schools and their leaders from going belly up While no book can anticipate every possible horror situation Mike Waters book provides anyone who wants their school to steer clear of shocking events the guidance to do just that But since such things can happen anyway it is also about preparing and responding to them if they do occur Think a school harming won't happen to you or your school They are happening more and more and often to the best schools and school leaders Think your crisis management procedures will see you through Don't bank on it Many of the events that rock schools don't start off as obvious crises They may start off as something seemingly minor and containable a routine parental complaint perhaps or a stupid action by a member Then things spiral out of control That's the world that many school leaders find themselves in today And if you want painful first hand evidence for this you have only to read the school leaders own accounts of their harrowing experiences provided in the book Because Dr Waters book draws directly on his experiences of working with schools rocked by crises they never saw coming it is filled with practical wisdom But it is also blessedly short It's a book for busy people who want to save themselves stress and turmoil If that's you then read it before it's too late

*Panoramas and Compilations in Nineteenth-Century Britain* Helen Kingstone, 2023-01-06 This book shows how in nineteenth century Britain confronted with the newly industrialized and urbanized modern world writers artists journalists and impresarios tried to gain an overview of contemporary history They drew on two successive but competing conceptual models of overview the panorama and the compilation Both models claimed to offer a holistic picture of the present moment but took very different approaches This book shows that panoramas 360 views previously associated with the Romantic period and compilations big data projects previously associated with the Victorian fin de siècle are intertwined relevant across the entire century and often remediated making them crucial lenses through which to view a broad range of genre and forms It brings together interdisciplinary research materials belonging to different period silos to create new understandings of how nineteenth century audiences dealt with information overload It argues for a new politics of distance one that recognizes the value of immersing oneself in a situation event or phenomenon but which also does not chastise us for trying to see the big picture This book is essential reading for students and scholars of nineteenth century literature history visual culture and information studies
