Chinese Multiword Expressions Shan Wang, 2019-12-04 This book is the first English monograph to systematically explore Chinese Multiword expressions (MWEs) by applying corpus-driven and corpus-based approaches. It reveals the unique characteristics of Chinese MWEs by examining their core attributes, identification and classification, and knowledge framework. It also assesses for the first time the distribution and density of Chinese MWEs in textbooks. By doing so, the book provides important insights into Chinese language learning with implications for natural language processing, lexicography, and psychology. Moreover, it offers a framework for linguists, language teachers and learners, computer scientists, lexicographers, and psychologists to explore their own areas of interest.
