**Elements of Buddhist Iconography** Coomaraswamy Ananda K., 1935 *The Buddha Image* Yuvraj Krishan, 1996 Illustrations 247 b w illustrations Description This book deals with crucial though controversial questions in Buddhist art the origin of the Buddha image and the iconography of the Buddha images The earliest Buddhist art of Sanchi and Bharhut is aniconic The Buddha is represented in symbols only In the later Buddhist art of Gandhara and Mathura the Buddha is represented in human form he is the principal subject of sculptural art The book seeks to explore the geographical area in which the image of the Buddha first emerged and whether the Buddhist doctrines Hinayana or Mahayana had anything to do with this transformation The Buddha image as developed eventually at Sarnath became the model for the Buddha images in whole of Asia south east central and eastern Asia The iconographic features of the Buddha image are superficially an aberration being in apparent conflict with the doctrine The Buddha had cut off his hair at the time of his renunciation the rules of the order enjoin that a monk must be tonsured and must discard and eschew all riches However in his images the Buddha has hair on his head later he is also endowed with a crown and jewels After an exhaustive examination of the views of various scholars the book answers these questions and resolves the controversies on the basis of literary numismatic and epigraphic sources More importantly it makes use of the valuable evidence from the contemporaneous Jaina art Aniconism of early Jaina art and the iconographic features of Jaina images The implications of this study are also important Does India owe idolatry to Buddhism Was this of foreign inspiration Was the Buddha image fashioned after the Vedic Brahma and whether the Buddha's usnisa and Buddhist art motifs are rooted in the Vedic tradition The book is profusely illustrated and provides

**History of Ancient India** Rama Shankar Tripathi,2014-01-01 The object of this volume is to provide within a moderate compass a compendious account of the history institutions and culture of ancient India from the dim ages of antiquity to the establishment of Moslem rule It has not been planned to meet the needs of any particular class of readers Its primary purpose is to serve alike students scholars and all others interested in the study of ancient Indian history as a book of ready use and reference The pages which follow every attempt has been made to avoid presenting a mass of the dry bones of historical fact or over burdening the account with intricate discussions on knotty problems of history on the one hand and giving a mere general and readable survey of India s long and fascinating past on the other I have endeavoured to tap and utilise properly the available sources of information literary epigraphic and numismatic and also to embody and set forth in a consistent manner the results of up to date researches on different topics and epochs All the materials have been patiently sifted and critically examined with the sole desire to arrive at historical truth and scientific accuracy and the unfortunate tendency manifest in some modern publications to extol or decry without warrant any of the manifold aspects of India s panoramic story has been scrupulously eschewed This book gives an authoritative up to date and compendious account of the history institutions and culture of India from the earliest times to the advent of the Moslem period It is based on all available materials literary epigraphic and numismatic and is written in a most elegant sober and lucid style The author brings to bear upon his task not only profound scholarship and critical acumen but also scrupulous regard for historical truth the accuracy of facts and impartiality of judgement The merit of the book has been enhanced by an exhaustive Bibliography and a comprehensive Index Students scholars and the general reader alike will find the book highly interesting useful and valuable for study and references
