M. Lemos, 2010-03-31 In Marriage Gifts and Social Change in Ancient Palestine T M Lemos traces changes in the marriage customs of ancient Palestine over the course of several hundred years The most important of these changes was a shift in emphasis from bridewealth to dowry the latter of which clearly predominated in the Hellenistic and Roman periods Whereas previous scholarship has often attributed these shifts to the influence of foreign groups Lemos connects them instead with a transformation that occurred in Palestine s social structure during the very same period In the early Iron Age Israel was a kinship based society with a subsistence economy but as the centuries passed it became increasingly complex and developed marked divisions between rich and poor At the same time the importance of its kinship groups waned greatly Utilizing an interdisciplinary approach that draws heavily on anthropological research cultural theory archaeological evidence and historical critical methods Lemos posits that shifts in marriage customs were directly related to these wider social changes **Egypt - Temple of the Whole World** Sibylle Meyer, 2004-03-01 The intellectual heritage of Ancient Egypt once wrote Jan Assmann can hardly be said to have become part of our cultural memory It is a subject of fascination not of understanding This fascination began when ancient Greek travellers started visiting Egypt and continues unto this day more often than not as a scholarly search for the oldest roots of our cultural memory Jan Assmann s superb academic achievement undoubtedly represents the single most significant contribution to the modern understanding of Ancient Egypt reaching far beyond the boundaries of Egyptology proper The essays in this volume all written by his friends and disciples reflect the tremendous impact of his oeuvre on the scholarly world encompassing not only Egyptological and related themes but also central aspects of Judaeo Christian identity such as monotheism and the historical events surrounding the recently discovered Diaspora temple of Yahu on the island of Elephantine Exploring Ancient Egypt Ian Shaw, 2003-07-31 Exploring Ancient Egypt the fifth volume in the Places in Time series reveals the excitement of science and history as it tours archaeological discoveries from ancient Egypt Each of twenty chapters treats a particular site reflecting a variety of site types pyramids rock tombs temples and most of the major settlements such as el Amarna and Alexandria and offering a balance between daily life religion and funerary practices Each site chapter features a map showing its location a site reconstruction and a chronological table covering the span of occupation Each chapters narrative describes the history of the sites excavation the principal finds and a discussion of the particular method being used Exploring Ancient Egypt offers a fascinating lens in which to view the culture and lifestyle of the people of ancient Egypt their technological achievements their relationships with and ways of exploiting the environment and the spiritual ideologies that motivated them Here are
