Eleventh Draft Craft And The Writing Life From The Iowa Writers Workshop:

The Eleventh Draft Frank Conroy, 1999-10-01 The present day director of the Iowa Writer s Workshop Frank Conroy invites 23 former professors and students of the workshop to pen essays on their craft **Reconsidering Flannery O'Connor** Alison Arant, Jordan Cofer, 2020-11-24 Contributions by Lindsay Alexander Alison Arant Alicia Matheny Beeson Eric Bennett Gina Caison Jordan Cofer Doug Davis Doreen Fowler Marshall Bruce Gentry Bruce Henderson Monica C Miller William Murray Carol Shloss Alison Staudinger and Rachel Watson The National Endowment for the Humanities has funded two Summer Institutes titled Reconsidering Flannery O Connor which invited scholars to rethink approaches to Flannery O Connor s work Drawing largely on research that started as part of the 2014 NEH Institute this collection shares its title and its mission Featuring fourteen new essays Reconsidering Flannery O Connor disrupts a few commonplace assumptions of O Connor studies while also circling back to some old questions that are due for new attention The volume opens with New Methodologies which features theoretical approaches not typically associated with O Connor s fiction in order to gain new insights into her work The second section New Contexts stretches expectations on literary genre on popular archetypes in her stories and on how we should interpret her work The third section lovingly called Strange Bedfellows puts O Connor in dialogue with overlooked or neglected conversation partners while the final section O Connor s Legacy reconsiders her personal views on creative writing and her wishes regarding the handling of her estate upon death With these final essays the collection comes full circle attesting to the hazards that come from overly relying on O Connor s interpretation of her own work but also from ignoring her views and desires Through these reconsiderations some of which draw on previously unpublished archival material the collection attests to and promotes the vitality of scholarship on Flannery O Connor

After the Program Era Loren Glass, 2017-01-04 The publication in 2009 of Mark McGurl's *The Program Era* provoked a sea change in the study of postwar literature Even though almost every English department in the United States housed some version of a creative writing program by the time of its publication literary scholars had not previously considered that this institutional phenomenon was historically significant McGurl's groundbreaking book effectively established that the rise of the creative writing program stands as the most important event in postwar American literary history forcing us to revise our understanding not only of the relationship between higher education and literary production but also of the periodizing terminology we had previously used to structure our understanding of twentieth century literature *After the Program Era* explores the consequences and implications as well as the lacunae and liabilities of McGurl's foundational intervention Glass focuses only on American fiction and the traditional MFA program and this collection aims to expand and examine its insights in terms of other genres and sites Postwar poetry in particular has until now been neglected as a product of the Program Era even though it is arguably a purer example since poets now depend almost entirely on the patronage of the university Similarly this collection looks beyond the traditional MFA writing program to explore the pre history of writing programs in American universities as well as alternatives to the traditionally structured program that have emerged along the way Taken together the essays in *After the Program Era* seek to answer and explore many of these questions and continue the conversations McGurl only began

The Writer's Quotebook Jim Fisher, 2006 If you have ever stared a page that remains stubbornly blank if you have ever wondered why writers write or whether good writers are born or made if you are a novelist playwright poet or journalist or simply delight in the written word The Writer s Quotebook is for you Whether you keep it in your office on your coffee table next to your keyboard or your bed this rich compendium of over one thousand quotations will inspire invigorate and illuminate the often challenging sometimes humorous but always fascinating task of those who bring words to life From William Faulkner and Ernest Hemingway to Doris Lessing and Joyce Carol Oates more than five hundred published writers put pen to paper on what the literary life is all about Selections come from seasoned professionals as well as those just establishing their voice and they represent a variety of nationalities and genres The book is divided into three sections The first part is devoted to the creative process including thoughts on where writers get their ideas the role of inspiration what kind of people write and where talent comes from In part two the subject shifts to writing as a craft Here authors ponder the creation of protagonists and points of view the writing of dialogue setting and description creating plots and the anatomy of style The final third of the book deals with the challenges and rewards that come with the writing life Subjects in this section include the economic realities of writing classes conferences and workshops dealing with rejection and bad reviews writing habits and rituals despair alcohol suicide and fame Articulated with elegant metaphor in straightforward prose or with wry wit the carefully selected and thoughtfully organized quotations come together to form a narrative that entertains informs and in the case of aspiring writers shows the way to better writing

Me-Search and Re-Search DeMethra LaSha Bradley,Robert Nash,2011-03-01 From the Foreword Robert and DeMethra s book Me Searching and Re Search has caught my fancy in a number of ways The book title cleverly captures what SPN is all about it is about self narratives the me search part and about scholarly meaning making the re search part This eye catching title also illuminates the authors intent to turn this seemingly intimidating method of self inquiry into something very accessible and doable Their jargon free language is friendly and inviting Although they don t intend to make their many methodological tips and tools too prescriptive their practical suggestions provided in this guide book are indeed helpful and useful I believe that Robert and DeMethra have demonstrated admirable talents as effective educators by unpacking the complex method of SPN writing into bite sized steps I am fully convinced that the steps will help both novices and the experienced researcher to reach the ultimate height of producing

engaging and scholarly significant SPN s The book is also fun to read The authors intersperse throughout their own SPN s pedagogical insights from their doing and teaching and real life stories in order to illustrate the methodological process challenges and triumphs
