**Elgar's Third Symphony** Anthony Payne, 2013-06-20 Elgar's Third Symphony has long been one of the great unknowns of twentieth century music Commissioned in 1932 by the BBC it appeared fragmentary and disorganized when Elgar died in 1934 A few months before his death he asked for his sketches to be destroyed saying that No one must tinker with it Yet he continued to talk about the Symphony even writing out passages that seem almost to be instructions for its completion In 1935 his great friend W H Reed published many of the sketches in facsimile allowing a tantalizing glimpse of the composer's final thoughts After much deliberation Elgar's heirs decided to commission the composer Anthony Payne to make a full length realization of the work first performed to great acclaim in February 1998 Payne's account of his long involvement with the Symphony's sketches is totally absorbing He explains the difficult decisions involved in filling the gaps that Elgar left and the responsibility that he felt in completing the last work of England's greatest composer

and brings to bear his own study of the autograph manuscripts The latter form an unparalleled record of compositional process and shed new light on the compositions as they have come down to us in their published and recorded form This close study of the sources allows Town to identify for the first time instances of similarity and imitation continuities and connections between the works **Choral-Orchestral Repertoire** Jonathan D. Reading Elgar's The Music Makers David Young, 2024-11-08 Elgar's The Music Makers

for contralto solo choir and large orchestra has experienced a chequered reputation since its 1912 premiere at the Birmingham Festival. The work faced significant adverse criticism which re-emerged over time. Criticism targeted the poem Elgar chose for his setting Arthur O'Shaughnessy's ode whose reputation was later tarnished by T.S. Eliot's infamous critique 'What is Minor Poetry?'. Misunderstanding of Elgar's innovative compositional procedure was another main reason behind the negative responses. Elgar integrated the poetic language with musical self-borrowings transforming the words and offering perceptive listeners enhanced emotion at the highest artistic level. All aspects of Elgar's musical language combine to produce one of his greatest yet least understood masterworks. Reading Elgar's 'The Music Makers' brings to the fore a prime example of how first musical performances can be misunderstood and reception can shift over time. The work remains as relevant today as ever. The book's multi-faceted approach will be invaluable not only for conductors, singers and music students but for concert goers and music lovers generally.

**The Collected Works of George Moore** George Moore, 1912

**New Makers of Modern Culture** Wintle, Justin, 2013-05-13. 'New Makers of Modern Culture' is the successor to the classic reference works 'Makers of Modern Culture' and 'Makers of Nineteenth-Century Culture' published by Routledge in the early 1980s. The set was extremely successful and continues to be used to this day due to the high quality of the writing, the distinguished contributors and the cultural sensitivity shown in the selection of those individuals included. 'New Makers of Modern Culture' takes into full account the rise and fall of reputation and influence over the last twenty-five years and the epochal changes that have occurred: the demise of Marxism and the collapse of the Soviet Union; the rise and fall of postmodernism; the eruption of Islamic fundamentalism; the triumph of the Internet. Containing over eight hundred essay-style entries and covering the period from 1850 to the present, 'New Makers' includes artists, writers, dramatists, architects, philosophers, anthropologists, scientists, sociologists, major political figures, composers, film makers and many other culturally significant individuals and is thoroughly international in its purview. Next to Karl Marx is Bob Marley, next to John Ruskin is Salman Rushdie, alongside Darwin is Luigi Dallapiccola, Deng Xiaoping runs shoulders with Jacques Derrida, Julia Kristeva with Kropotkin. Once again Wintle has enlisted the services of many distinguished writers and leading academics such as Sam Beer, Bernard Crick, Edward Seidensticker and Paul Preston. In a few cases, for example Michael Holroyd and Philip Larkin, contributors are themselves the subject of entries. With its global reach, 'New Makers of Modern Culture' provides a multi-voiced witness of the contemporary thinking world. The entries carry short bibliographies and there is thorough cross-referencing. There is an index of names and key terms.

**The Nineteenth-century Symphony** D. Kern Holoman, 1997. The idea of the symphony was redefined and transformed throughout the nineteenth century as modern instruments were developed with their extended ranges and colorful palette. The orchestra became an institution and composers struck out in all directions to establish individual profiles. 'The Nineteenth-Century Symphony' explores the styles, forms and performance practices that characterize the symphonic repertoire from Schubert through the early works of Mahler. The essays in this
