Europe and North America and picking cotton was such an arduous task that even when relying almost entirely on slave labor it was hard to make cotton a profitable industry in North America. That all changed with Eli Whitney's invention of the cotton gin near the end of the 18th century. Able to more effectively separate the cotton fiber from seeds, Whitney's cotton gin turned the cotton industry into one of the antebellum South's biggest cash cows and as a result the region became even more dependent on slave labor than before. The cotton gin exponentially increased the labor output which in turn brought an exponential increase in the number of slaves throughout the South despite the fact the international slave trade was banned in the fledgling United States in the early 19th century. By the dawn of the Civil War there were over 3 million slaves in the South and cotton was so crucial to the Southern economy that the Confederacy would try to compel European countries to intervene on their side by refusing to export cotton to them. The Industrial Revolution's changes also meant mass production was taking hold on both sides of the Atlantic and Whitney's principle of interchangeable parts was put to good use not only by the inventor himself but by several other progressive business executives. After inventing the cotton gin, Whitney had won several lawsuits against farmers for non payment by suing their states and with an amassed figure of 90 000 he was able to start additional businesses. When war with France seemed like it was looming and the national armory could only produce 1 000 muskets in three years, Whitney intervened. His assembly line system with easily changeable parts produced 10 000 weapons in three years and he devised numerous machine tools with which to facilitate the process. This would also be an important component of future corporate models and technological advances in automation and firearms manufacturing influencing such products as Henry Ford's cars and Oliver Winchester's repeating rifles.

Eli Whitney: The Life and Legacy of the American Inventor Whose Cotton Gin Transformed the Antebellum South looks at the life and inventions of one of America's first crucial inventors. Eli Whitney was an inventor best known for his invention of the cotton gin. But it was his ideas and methods that had the greatest impact on America, bringing the country into the Industrial Revolution. He grew up as a farmer's son but was often found in his father's workshop. As a boy, during the American Revolution, he started his first business as a supplier of nails. Against his family's wishes, he insisted on getting an education from Yale. It was while he was studying to be a lawyer that he stumbled upon a solution to clean cotton. Whitney most enjoyed looking at a problem and trying to solve it, whether it was how to clean cotton or lock a desk. He created solutions with easily understood steps. With these steps, he developed a system of manufacturing that worked well with anything that had pieces to be put together. It would be used to

mass produce guns sewing machines and later cars Today s manufacturing can be traced to Eli Whitney **The Inventions of Eli Whitney** Holly Cefrey,2002-12-15 Provides a biographical sketch of Eli Whitney and a description of his most famous invention the cotton gin which made the harvesting of cotton easier **Eli Whitney y la Revolución Industrial (Eli Whitney and the Industrial Revolution)** Heather Moore Niver,2020-07-15 Eli Whitney is remembered as a great inventor His cotton gin was one of the most important inventions of the Industrial Revolution and it did much to shape the course of the American economy This biography explores Whitney s entrepreneurial mind bringing into focus his inventions innovations and hardworking spirit Through accessible language and detailed images this curriculum focused book provides an in depth look at the Industrial Revolution Whitney s role in it and how together they helped shape a growing nation A timeline and primary sources complete a comprehensive learning experience *Eli Whitney* Tracy J.
