other critical discourse such as those of deconstruction and French feminism might be useful to a feminist and materialist criticism. The second part of the book contains examples of such criticism in practice with studies of individual works, writers and ideas. An introduction by the editors situates the collected essays in relation both to one another and to a shared materialist feminist project. **Feminist Criticism and Social Change** demonstrates the important contribution of materialist feminist criticism to our understanding of literature and society and fulfils a crucial need among those concerned with gender and its relation to criticism.

Women, Epic, and Transition in British Romanticism Elisa Beshero-Bondar, 2011. **Women, Epic, and Transition in British Romanticism** argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre. The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision. Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women's importance in moments of historical crisis. While Romantic epics did not all engage in radical questioning or undermining of authority, this study calls attention to some of the more provocative poems in their approach to gender, culture and history. This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries. The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth century. At their most innovative, Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women's experiences in entirely new ways to reflect on defeat, loss and inevitable transition. For the first time, the epic became an attractive genre for ambitious women poets. The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history, gender and genre, and women's studies.
