The Age of Monopoly Capital Paul M. Sweezy, Paul A. Baran, 2017-07-24 The rich correspondence that preceded the publication of Monopoly Capital Paul A Baran and Paul M Sweezy were two of the leading Marxist economists of the twentieth century Their seminal work Monopoly Capital An Essay on the American Economic and Social Order published in 1966 two years after Baran s death was in many respects the culmination of fifteen years of correspondence between the two from 1949 to 1964 During those years Baran a professor of economics at Stanford and Sweezy a former professor of economics at Harvard then co editing Monthly Review in New York City were separated by three thousand miles Their intellectual collaboration required that they write letters to one another frequently and in the years closer to 1964 almost daily Their surviving correspondence consists of some one thousand letters The letters selected for this volume illuminate not only the development of the political economy that was to form the basis of Monopoly Capital but also the historical context the McCarthy Era the Cold War the Cuban Missile Crisis in which these thinkers were forced to struggle Not since Marx and Engels carried on their epistolary correspondence has there been a collection of letters offering such a detailed look at the making of a prescient critique of political economy and at the historical conditions from which that critique was formed

The Life and Death of a Rural American

High School (1995) Deyoung Alan, 2017-12-22 Published in 1995 this book provides an account of a detailed research project focusing on a rural school in West Virginia. Researched from several social science perspectives, the book strives to capture intersections between biography and history in a particular public school, Burnsville High and Middle school in Braxton County, that has been influenced by social, political, and economic forces eventually leading to its closure. The author also discusses how the example of this school can be applied within the framework of American public education and Western culture itself. Based on research from unstructured interviews, oral histories, historical records, and intermittent fieldwork that took place between 1989 and 1992, the book provides an in-depth look at a specific school, offering a basis for discussing rural schools in general. It challenges the idea that bigger schools are better and more efficient schools in terms of the individual, the social life of the school, and the surrounding community, and considers the lack of scholarly accounts available on the issues, controversies, and social dynamics that surround these vital community matters.

Newcomers to Old Towns Sonya Salamon, 2007-09 2004 winner of the Robert E. Park Book Award from the Community and Urban Sociology Section, CUSS of the American Sociological Association. Although the death of the small town has been predicted for decades during the 1990s, the population of rural America actually increased by more than three million people. In this book, Sonya Salamon explores these rural newcomers and the impact they have on the social relationships, public spaces, and community resources of small town America. Salamon draws on richly detailed ethnographic studies of six small towns in central Illinois, including a town with upscale subdivisions that lured wealthy professionals as well as towns whose agribusinesses drew working class Mexicano migrants and immigrants. She finds that regardless of the class or ethnicity of the newcomers, if their social status differs relative to that of oldtimers, their effect on a town has been the same: suburbanization that erodes the close-knit small town community with especially severe consequences for small town youth. To successfully combat the homogenization of the heartland, Salamon argues newcomers must work with oldtimers so that together they sustain the vital aspects of community life and identity that first drew them to small towns. An illustration of the recent revitalization of interest in the small town, Salamon's work provides a significant addition to the growing literature on the subject. Social scientists, sociologists, policymakers, and urban planners will appreciate this important contribution to the ongoing discussion of social capital and the transformation in the study and definition of communities.

Norman Street: Poverty and Politics in an Urban Neighborhood, Updated Edition Ida Susser, 2012-06-19 Based on a three-year study of Brooklyn's Greenpoint Williamsburg area, *Norman Street* is an in-depth, detailed description of life in a multi-ethnic working-class neighborhood during New York City's fiscal crisis of 1975-78. Now updated with a new introduction to address the changes and events of the thirty years since the book's original publication, its lessons continue to demonstrate the impact of political and economic changes on everyday lives. Over the decades, Greenpoint Williamsburg has become home to artists, actors, writers, and young people with alternative cultural aspirations. Susser documents how these groups in many ways have joined with the

remaining working class population to build a thriving community that is now threatened with displacement by municipal rezoning which has facilitated massive plans for new corporate investment Increasingly prescient at a moment of economic crisis when people are again occupying public spaces in major American cities spurred to collective action by mounting economic inequalities and the government's role in perpetuating them Susser's study of change action and conflict in a neighborhood that has become emblematic of urban transformation for better and worse has much to say to us today

Film Cycles Amanda Ann Klein, 2011-12-01 A series of movies that share images characters settings plots or themes film cycles have been an industrial strategy since the beginning of cinema While some have viewed them as subgenres mini genres or nascent film genres Amanda Ann Klein argues that film cycles are an entity in their own right and a subject worthy of their own study She posits that film cycles retain the marks of their historical economic and generic contexts and therefore can reveal much about the state of contemporary politics prevalent social ideologies aesthetic trends popular desires and anxieties *American Film Cycles* presents a series of case studies of successful film cycles including the melodramatic gangster films of the 1920s the 1930s Dead End Kids cycle the 1950s juvenile delinquent teenpic cycle and the 1990s ghetto

action cycle Klein situates these films in several historical trajectories the Progressive movement of the 1910s and 1920s the beginnings of America s involvement in World War II the birth of the teenager in the 1950s and the drug and gangbanger crises of the early 1990s She shows how filmmakers audiences film reviewers advertisements and cultural discourses interact with and have an impact on the film texts Her findings illustrate the utility of the film cycle in broadening our understanding of established film genres articulating and building upon beliefs about contemporary social problems shaping and disseminating deviant subcultures and exploiting and reflecting upon racial and political upheaval The Failed Promise of the American High School, 1890-1995 David L. Angus,Jeffrey Mirel,1999 This provocative new study of the American high school examines the historical debates about curriculum policy and also traces changes in the institution itself as evidenced by what students actually studied Contrary to conventional accounts the authors argue that beginning in the 1930s American high schools shifted from institutions primarily concerned with academic and vocational education to institutions mainly focused on custodial care of adolescents Claiming that these changes reflected educators racial class and gender biases the authors offer original suggestions for policy adjustments that may lead to greater educational equality for our ever growing and ever more diverse population of students Stogdill's Handbook of Leadership Ralph Marvin Stogdill,Bernard M.
