Elseviers Dictionary Of European Community Company Business Financial Law Hardcover:

Elsevier's Dictionary of European Community Company/Business/Financial Law H. K. Bock, G. Frey, I. R. Bock, 1998-12-31

This volume is a general dictionary within the areas of company business and financial law where the selection of terms is based primarily on established and emerging usages within Community legal terminology. The volume provides definitions and general explanations in English supplemented with specific explanations in Danish and or German as required. The careful arrangement of terms in Danish and German allows near independent use between these two languages. Heavy emphasis is placed on idiomatic language use with the inclusion of a large number of complex verb and noun phrases, everyday abbreviated terms and names of institutions etc. When making the selection of terms the compilers used their experience as professional translators of commercial and theoretical legal and financial documents. The dictionary will be invaluable to Community business people, lawyers, accountants, translators and students.

Company Law Andrea Vicari, 2021-03-08. The book provides students of European company law courses, scholars and practitioners with an overview. Although company law remains mainly regulated at the level of national laws, it has become important to obtain a systematic view of the main directives in the field of company law. The EU Court of Justice's jurisprudence, the European Model Company Act and the state of implementation of these directives in the member states of the Union. The book therefore contains, in addition to the illustration of the law laid down by EU legislative bodies and the related soft laws, detailed references to the most important domestic legislations and case laws in order to make them known and usable as much as possible. Moreover, the book allows identifying the most relevant current legislative trends and the main historical reasons for divergences.
