Elusive Quest For European Security From Edc To Cfsp:

The Elusive Quest for European Security S. Duke, 1999-10-28 The Elusive Quest for European Security provides a detailed overview of the various attempts to incorporate a security and defence role in the European integration process. Consideration is given to why these aspects of the integration process have proven so elusive and what progress has been made towards this goal. The assessment includes topics such as the enlargement of NATO, the EU's Amsterdam Treaty and the role of the revived Western European Union as well as the role of the main actors which includes Britain's bid for European leadership in defence and the changing attitudes of administrations in Washington DC. *Regional Integration in East Asia and Europe* Bertrand Fort, Douglas Webber, 2006-06-19 No existing book provides a systematic description and explanation of the differences and similarities in regional integration levels and processes in Europe and East Asia. Apart from also providing a comprehensive issue based overview of political integration in the past and present in the two regions, the volume provides a useful reality check to integration theorists who have developed their theories based exclusively or largely on the analysis of the European case. Brings together the top scholars on regionalism in Europe and Asia. **The Foreign Policy of the European Union** Stephan Keukeleire, Tom Delreux, 2022-02-10 Keukeleire and Delreux demonstrate the scope and diversity of the European Union's foreign policy showing that EU foreign policy is broader than the Common Foreign and Security Policy and the Common Security and Defence Policy and that areas such as trade, development, environment and energy are inextricable elements of it. This book offers a comprehensive and critical account of the EU's key foreign relations with its neighbourhood with the US, China and Russia and with emerged powers and argues that the EU's foreign policy needs to be understood not only as a response to crises and conflicts but also as a means of shaping international structures and influencing long term processes. This third edition reflects recent changes and trends in EU foreign policy as well as the international context in which it operates addressing issues such as the increasingly contested international order, the conflict in Ukraine, the migration and refugee crisis, Brexit and Covid 19. The book not only clarifies the formal procedures in EU foreign policy making but also elucidates how it works in practice. The third edition includes new sections and boxes on strategic autonomy, European arms exports, the EU's external representation, the Brussels Effect and decentring and gender approaches to EU foreign policy. Up to date, jargon free and supported by its own website eufp.eu, this systematic and innovative appraisal of this key policy area is suitable for undergraduate and postgraduate students as well as practitioners. *Follies of Power* David P. Calleo, 2009-04-20 The book discusses the dangers of the unipolar view of world politics, one in which the United States is overwhelmingly predominant and should act accordingly. The book notes the damage caused by this view in action as in the Middle East and Europe. It assesses the real strengths and weaknesses of American power: soft, military, economic and moral. It contrasts the federal systems of Old America and New Europe as models for governing today's increasingly plural system. It notes how friendly balancing from Europe is critical for maintaining

America's own constitutional equilibrium *Globalization and National Security* Jonathan Kirshner, 2013-01-11 In this book top scholars of international relations assess the consequences of globalization for national security identifying three distinct processes of globalization the intensification of economic exchange the flow of information and marketization the expansion of the set of social relations governed by market forces exploring how they can affect the capacity and power of states as well as conflict within and among them Though much has been written on the topics of globalization and national security there has been relatively little in the way of a systematic examination of the impact that globalization has on a state's national security These essays deal with how stateless actors such as terrorists utilize the benefits of globalization changing the nature of the security game Failure to account for the influence of globalization will make it increasingly difficult to understand changes in the balance of power prospects for war and strategic choices embraced by states Eurafrica Peo Hansen, Stefan Jonsson, 2014-10-23 In order to think theoretically about our global age it is important to understand how the global has been conceived historically Eurafrica was an intellectual endeavor and political project that from the 1920s saw Europe's future survival its continued role in history as completely bound up with Europe's successful merger with Africa In its time the concept of Eurafrica was tremendously influential in the process of European integration Today the project is largely forgotten yet the idea continues to influence EU policy towards its African partner The book will recover a critical conception of the nexus between Europe and Africa a relationship of significance across the humanities and social sciences In assessing this historical concept the authors shed light on the process of European integration African decolonization and the current conflictual relationship between Europe and Africa **European Public Diplomacy** Mai'a K. Davis Cross, Jan Melissen, 2015-12-11 Do the various aspects of Europe's multi-levelled public diplomacy form a coherent overall image or do they work against each other to some extent European Public Diplomacy pushes the literature on public diplomacy forward through a multifaceted exploration of the European case **EU Foreign Policy and Crisis Management Operations** Benjamin Pohl, 2014-03-21 This book explores the drivers of the EU's recent forays into peace and state building operations Since the Union's European now Common Security and Defence Policy ESDP CSDP became operational in 2003 the EU has conducted more than 20 civilian and military operations that broadly served to either deter aggression in host countries and or to build or strengthen the rule of law This sudden burst of EU activity in the realm of external security is interesting from both a scholarly and a policy perspective On one hand institutionalised cooperation in the field of foreign security and defence policy challenges the mainstream in IR theory which holds that in such sovereignty sensitive areas cooperation would necessarily be limited On the other hand the sheer quantity of operations suggests that the ESDP may represent a potentially significant feature of global governance In order to understand the drivers behind CSDP EU Foreign Policy and Crisis Management Operations analyses the policy output in this area including the operations conducted in the CSDP framework Up until now many studies inferred the logic behind CSDP from express intentions institutional developments and

the potential of pooled capabilities By mining the rich data that CSDP operations represent in terms of the motives and ambitions of EU governments for the CSDP this book advances our understanding of the framework at large This book will be of much interest to students of European Security EU policy peacebuilding statebuilding and IR **Regional Leadership in the Global System** Daniel Flemes,2016-04-08 We assume that the ideas interests and strategies of regional powers are highly significant variables with the power to influence foreign policy Yet while comparative research projects involving OECD countries are fairly common comparative research integrating developing regions is still rare despite the fact that these countries are among the key actors of the twenty first century This collection emphasizes the role of regional powers in intra regional interregional and global contexts analyzing the rise of regional powers from a comparative perspective In so doing the book explains how these powers have power to shape regional and global politics *British Power and International Relations During the 1950s* Michael J. Turner,2009-01-01 This is an integrated international history that pays special attention to Britain s role and status It contributes to the ongoing debate about Britain s decline as a great power and suggests that despite some retreats and compromises Britain managed successfully to maintain its influence and defend essential national interests **The Future of Europe** Frances K. Scott,2001 In support of the Academy Assembly the Directorate of Libraries Dean of the Faculty produces a special bibliography of Air Force Academy library materials relevant to the current year s theme The theme for the 2001 2002 academic year is The Future of Europe Integration or Fragmentation This year s bibliography number 98 in the library s Special Bibliography Series was prepared by Frances K Scott Social Sciences Bibliographer and Reference Librarian who has prepared the annual Academy Assembly bibliography for the past ten years *Interdisciplinary Studies in Turkey* Eyup Saritas,2016-04-30 The information age facilitates life easier on the one hand and enables all to have access to any desired information in the shortest possible time Scientific studies that are products of great efforts keep pace with globalism to a substantial extent thanks to advanced technologies that shorten long distances As scientists we need to disregard negative impacts of globalism on all aspects of life and endeavour to make use of its positive effects Consequently as scientists that come up with good works after long and dedicated efforts we need to cut off ties with locality in modern information age As it will be seen what is meant by locality is not scientists working on local issues but addressing to a group limited to one s own country only For instance a scientific paper published in Turkey about a village or borough in Ankara might not easily exceed the narrow restriction of locality Likewise publishing in Dutch a scientific work on a historical or social problem in the city of Leiden would be hardly possible to provide scientifically influential conclusions *European Union Peacebuilding and Policing* Michael Merlingen,Rasa Ostrauskaite,2006-09-27 This new book provides an in depth analysis of the projects of improvement carried out by the civilian peacebuilding missions in Bosnia and Macedonia drawing on the work of Michel Foucault to make the case that the EU s self image as a model peacebuilder conceals another side of the European Security and Defence Policy The authors

explore the double sided nature of peacebuilding missions on the one hand as a way to pacify democratize humanize and improve life in societies emerging from crisis or violence and on the other hand as a kind of political pastorate that limits the range of acceptable heterogeneity by refashioning repositioning and reorganizing subjects in line with transcendentalized notions of good governance The authors develop a limited reform agenda for how EU police missions can fold an agonistic generosity more deeply into their civilizing ethos in order to ensure they have a light expatriate footprint in their host countries The prescriptive part of the book also discusses generic problems in the implementation of EU police reforms and suggests ways to overcome these challenges This book will be of great interest to students of European politics sociology political science and theory *Europe Since 1945* Mary Fulbrook,2001 This text brings home the waves of transformation that have washed across Europe in the second half of the 20th century sketching out general patterns of this change and exploring some of the local themes and variations in parts of Europe **An Introduction to International Political**

Economy Alison Watson,2004-01-01 This book provides an overview of the dynamics of the contemporary global political economy with an emphasis on explaining these dynamics in both theoretical and practical terms It opens with a chapter on exactly what the study of IPE entails looking at the way in which politics and economics interact the relationship between domestic and international factors and the role of the state Watson goes on to outline the major theoretical approaches to IPE from the traditional theories including liberalism and Marxism to alternative theories including rational choice and new institutionalism In Part Two she outlines the major policy issues characterizing IPE and in Part Three she looks at case studies to illustrate the theoretical points she has made These include the world trade negotiations at Seattle a description of the reasons for growth in regional integration arrangements such as the EU and a discussion of the impact of capital flight

The Western European Union Sally Rohan,2014-07-17 This full term study of the Western European Union WEU brings to life the history of Europe s search for a co operative security and defence order from its post World War II origins to the present day Establishing the WEU as a support organization designed to promote the two security ideas of collective defence and integration through the primary organizations of Alliance and Community this book offers a window onto the challenges faced in the development and management of NATO and the evolving EC EU over time As the WEU s historical journey unfolds the frequently competing visions of the future organization of the European security space are exposed in the fluctuating nature of its own functional evolution and devolution A hybrid organization driven by its dual support role the constructively ambiguous and conveniently autonomous WEU was to provide a mechanism through which divergent interests could converge and inherent tensions be relieved preventing NATO and EC EU stagnation This book offers fresh insight into the means by which the gradual transformation of the institutional framework of European security was enabled and stakes the WEU s claim as a fundamental and life long contributor to the stability of the European security system **The Foreign Policy of the European Union** Federiga Bindi,2010-03-01 In a relatively short time the European Union has become one of

the world's most powerful and important bodies. Its critical role in international affairs extends to several different areas: economics, culture, the environment, and of course international security and foreign affairs. This important volume explains and evaluates EU foreign policy in all its confusing dimensions. Is there really any such thing as European Union Foreign Policy? If so, what is it? What are its goals and priorities, and how effective is it? How do outsiders perceive EU foreign policy, and what are the ramifications of those views? Those are just some of the questions this book tries to answer. In order to draw the most comprehensive picture possible of EU foreign policy, Federiga Bindi and her contributors dissect both horizontal and vertical issues. Vertical concerns focus on particular geographic regions such as the EU's foreign policy toward Africa and Asia and its relations with the United States. Horizontal issues explore wider crosscutting themes that help explain the EU's foreign policy choices and operations such as decisionmaking processes and procedures, European self-identity, and core priorities such as peace, democracy, and human rights.

Contents: Foreword by Giuliano Amato, former foreign minister and prime minister of Italy; Part I: The New Tools of EU Foreign Policy; II: US-EU Relations after the Elections; III: EU Relations with the Rest of the Americas; IV: Africa and Asia; V: The EU and Its Neighbors; VI: The EU, the Mediterranean, and the Middle East; VII: Promoting Values and Models Abroad; VIII: Conclusions: Assessing EU Foreign Policy.

Public Policy and the New European Agendas Fergus Carr, Andrew Massey, 2006-01-01. This broad and all-encompassing study focuses on Europe's new policy agendas. It brings together international academic experts on a range of policies to discuss Europe's place in the world and its relationship to the USA and beyond. This book concentrates on two key themes of particular salience for policy makers: the enlargement of the EU and the place of Europe in international politics. An expansive list of important policy areas within these themes is explored, including enlargement: political and constitutional implications and international socialization of central and eastern Europe; Europe and the USA: security and defence policy, trade, finance, and development; institutional development and external relations in justice and home affairs before and after September 11; international terrorism; EU immigration and asylum; and borders policy, human rights, and civil rights; agriculture; environmental policy; and regional policy; pensions and ageing in Europe. This book constitutes a major contribution to achieving a deeper understanding of European integration and the barriers to integration within the context of global and multi-level governance. As such, it will be of enormous interest to an extensive audience including academics, researchers, students, policy makers, and practitioners in the fields of political studies, international relations, public policy, European studies, US studies, and security studies.

NATO for a New Century Carl C. Hodge, 2002-10-30. NATO's military interventions in the Balkans have transformed the alliance. As the alliance goes East, its members are compelled to rethink NATO's and each member nation's military and political roles. Providing a well-rounded study of continuing change in the contemporary North Atlantic Treaty Organization, this book is constructed around eight essays by European security experts analyzing challenges confronting the Atlantic Alliance as a military alliance and as a collective security organization dealing simultaneously with deterrence, enlargement, and regional

crisis intervention It is intended for senior undergraduate and graduate students in international relations American foreign policy European studies security and strategic studies The evidence is that NATO will undergo many more changes responding to actual and potential threats to Europe s peace These range from a revival of the ethnic conflict in the former Yugoslavia to the proliferation and possible use of nuclear biological and chemical weapons Also discussed is the matter of NATO s further enlargement and the question of whether this offers more or less security to the alliance membership as are the emerging tensions between the EU and NATO security regimes Partners Or Rivals? Matthew Evangelista, Vittorio Emanuele Parsi, 2005 Partners of rivals European American relations after Iraq edited by Matthew Evangelista and Vittorio Emanuele Parsi 2005

Decoding **Elusive Quest For European Security From Edc To Cfsp**: Revealing the Captivating Potential of Verbal Expression

In a period characterized by interconnectedness and an insatiable thirst for knowledge, the captivating potential of verbal expression has emerged as a formidable force.
