Wearden,2014-01-10 Mass communication is used by governments to support their war efforts while media images are created or manipulated to inform persuade or guide the consumers of those images But this book looks beyond the obvious The contributors examine historical and contemporary examples that reflect the role of the media or mass communication or both during wartime The essays highlight the centrality of communication to the perpetuation and to the resolution of war suggesting that the symbiotic relationship between communication and war is as important to understand as war itself

Collaborating(,) Literature(,) and Composition Frank Gaughan, Peter H. Khost, 2007 The disciplines of English and composition seem particularly prone to crisis driven proclamations our kids don't read the great works or they don't read at all or they can't write Crisis talk notwithstanding educators are left to theorize and practice ways to teach reading and writing with intelligence compassion and integrity However it often seems that theoretical formulations do not sufficiently explain their practicable applications and practicable discussions too rarely rise above the level of swapping recipes sharing assignments that work well in one context but may not in another Therefore the editors of this volume submit this collection of essays that strives to harmonize the all too often discordant qualities of theory and practice Each co authored essay illustrates and analyzes various classroom based strategies for productive collaboration between literature and composition This collection envisions a reciprocal to composing literature literaturing composition which entails living through literature as Louise Rosenblatt has it This process regards the literary text as a medium for creative action so that one reads not to criticize so much as to imagine new compositional possibilities The eight essays in this collection are divided into four sections which span topics that include textuality and critical pedagogy argumentation and hybrid genres student engagement and popular culture and materiality and assessment Publisher's website **Works and Days**, 2003 [JAC](#), 2007 [Jews of South Florida](#) Andrea Greenbaum, 2005 A lavishly illustrated and lively introduction to a unique American Jewish community **Bibliographic Index**, 2006 **Women's Emancipation Writing at the Fin de Siecle** Elena V. Shabliy, Dmitry Kurochkin, O'Donnell Karen, 2018-12-07 This work investigates women's emancipation writing in the second half of the nineteenth and the early twentieth centuries Many novelists in various national literatures touched upon the theme of an emancipated woman in the long nineteenth century and at the fin de siècle Philosophers poets writers and journalists were concerned with this problem and began popularizing wholeheartedly the so called burning questions The new femininity was represented not only in the Christian context many other traditions and cultures opened the discussion about the women's lot This volume analyzes women's literary voices from different parts of the world Turkey England the U S Italy Russia Spain and others Imagination as it is believed has no borders and is dialogical in its nature **The SAGE Handbook of Rhetorical Studies** Andrea A. Lunsford, Kirt H. Wilson, Rosa A. Eberly, 2008-10-29 The SAGE Handbook of Rhetorical Studies surveys the latest advances in rhetorical scholarship synthesizing theories and practices across major areas of study in the field and pointing the way for future studies Edited by Andrea A Lunsford and Associate Editors Kirt H Wilson and Rosa A Eberly the Handbook aims to introduce a new generation of students to rhetorical study and provide a deeply informed and ready resource for scholars currently working in the field **Public Relations and Social Theory** Øyvind Ihlen, Magnus Fredriksson, Betteke Van Ruler, 2009-03-30 Public Relations and Social Theory broadens the theoretical scope of public relations through its application of the works of prominent social theorists to the study of public relations The volume focuses on the work of key social theorists including Jürgen Habermas Niklas Luhmann Michel Foucault Ulrich Beck

Pierre Bourdieu Anthony Giddens Robert Putnam Erving Goffman Peter L Berger Gayatri Chakravorty Spivak Bruno Latour Leon Mayhew Dorothy Smith and Max Weber Unique in its approach the collection demonstrates how the theories of these scholars come to bear on the understanding of public relations as a social activity Understanding public relations in its societal context entails a focus on such concepts as trust legitimacy understanding and reflection as well as on issues of power behavior and language Each chapter is devoted to an individual theorist providing an overview of that theorist s key concepts and contributions and exploring how these concepts can be applied to public relations as a practice Each chapter also includes a box giving a short and concise presentation of the theorist along with recommendation of key works and secondary literature Overall this volume will enhance understanding of theories and their applications in public relations expanding the breadth and depth of the theoretic foundations of public relations It will be of great interest to scholars and graduate students in public relations and strategic communication
