critique of early aughts pop culture What happened to feminism in the twenty first century This question feels increasingly urgent in a moment of cultural and legislative backlash when widespread uncertainty about the movement's power focus and currency threatens decades of progress Sophie Gilbert identifies an inflection point in the late 1990s and early 2000s when the energy of third wave and riot grrrl feminism collapsed into a regressive period of hyper objectification sexualization and infantilization Mining the darker side of nostalgia Gilbert trains her keen analytic eye on the most revealing cultural objects of the era across music film television fashion tabloid journalism and more What she recounts is harrowing from the leering gaze of the paparazzi to the gleeful cruelty of early reality TV and a burgeoning internet culture vicious toward women in the spotlight and damaging for those who weren't Gilbert tracks many of the period's dominant themes back to the rise of internet porn which gained widespread influence as it began to pervade our collective consciousness The result is a devastating portrait of a time when a distinctly American blend of excess materialism and power worship collided with the culture's reactionary puritanical and chauvinistic currents Amid a collective reconsideration of the way women are treated in public *Girl on Girl* is a blistering indictment of the matrix of misogyny that undergirded the cultural production of the early twenty first century and continues to shape our world today

Halloween Murray Leeder, 2015-02-17 The 1970s

represented an unusually productive and innovative period for the horror film and John Carpenter's *Halloween* 1978 is the film that capped that golden age and some say ruined it by ushering in the era of the slasher film Considered a paradigm of low budget ingenuity its story of a seemingly unremarkable middle American town becoming the site of violence on October 31 struck a chord within audiences The film became a surprise hit that gave rise to a lucrative franchise and it remains a perennial favourite Much of its success stems from the simple but strong constructions of its three central characters brainy introverted teenager Laurie Strode a late bloomer compared to her more outgoing friends Dr Loomis the driven obsessive psychiatrist and Michael Myers the inexplicable ghostlike masked killer Film scholar Murray Leeder offers a bold and provocative study of Carpenter's film which hopes to expose qualities that are sometime effaced by its sequels and remakes It explores *Halloween* as an unexpected ghost film and examines such subjects as its construction of the teenager and the relationship of *Halloween* the film to *Halloween* the holiday and Michael Myers's brand of pure evil It is a fascinating read for scholars and fans alike
