Emergence Of Modern Russia 1801-1917:

The Emergence of Modern Russia: 1801-1917 Sergei Pushkarev, 1985 Reprint with new intro biography and rev bibliography Originally published New York Holt Rinehart and Winston 1963 **Russia and Eastern Europe, 1789-1985** Raymond Pearson, 1989 A History of Russia Volume 1 Walter G. Moss, 2003-07-01 This new edition retains the features of the first edition that made it a popular choice in universities and colleges throughout the US Canada and around the world Moss s accessible history includes full treatment of everyday life the role of women rural life law religion literature and art In addition it provides many other features that have proven successful with both professors and students including a well organized and clearly written text references to varying historical perspectives numerous illustrations and maps that supplement and amplify the text fully updated bibliographies accompanying each chapter as well as a general bibliography of more comprehensive works a glossary and chronological and genealogical lists Moss s A History of Russia will appeal to academics students and general readers alike **The Invention of Terrorism in Europe, Russia, and the United States** Carola Dietze, 2021-07-27 Terrorism s roots in Western Europe and the USA This book examines key cases of terrorist violence to show that the invention of terrorism was linked to the birth of modernity in Europe Russia and the United States rather than to Tsarist despotism in 19th century Russia or to Islam sects in Medieval Persia Combining a highly readable historical narrative with analysis of larger issues in social and political history the author argues that the dissemination of news about terrorist violence was at the core of a strategy that aimed for political impact on rulers as well as the general public Dietze s lucid account also reveals how the spread of knowledge about terrorist acts was from the outset a transatlantic process Two incidents form the book s centerpiece The first is the failed attempt to assassinate French Emperor Napol on III by Felice Orsini in 1858 in an act intended to achieve Italian unity and democracy The second case study offers a new reading of John Brown s raid on the arsenal at Harpers Ferry in 1859 as a decisive moment in the abolitionist struggle and occurrences leading to the American Civil War Three further examples from Germany Russia and the US are scrutinized to trace the development of the tactic by first imitators With their acts of violence the invention of terrorism was completed Terrorism has existed as a tactic since then and has essentially only been adapted through the use of new technologies and methods Russia Under the Last Tsar Theofanis G. Stavrou, 1969 The reign of Russia s last tsar Nicholas II from 1894 to 1917 constitutes a period of continuing controversy among historians Interesting in its own right it is also a time of great importance to an understanding of the cataclysmic events which follo **A History of Russia** George Vernadsky, 1969-01-01 Scholarly intellectually stimulating and readable It is not only a very good guide through the record of Russian development but it makes one go deeper by the way it raises interesting questions Frederick C Barghoorn Generally recognized as the standard one volume history of Russia this monumental work describes Russia s growth from the times of the nomadic tribes to the Cold War and examines the social religious and cultural as well as the political and economic

aspects of Russian civilization Professor Vernadsky reviews the origins of the Russian state Kievan Russia the Mongol period the tsardom of Moscow in the sixteenth and seventeenth centuries and the Russian empire from Peter the Great to Nicholas II The last third of the book discusses the revolution of 1917 and the emergence of the Soviet Union as a world power

Handbook for History Teachers W. Russia's Economic Transitions Nicolas Spulber, 2003-04-10 Russia's Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy's development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality impartiality and historical breadth have cogent economic social and political relevance

Russia in the Nineteenth Century A. I. U. Polunov, Thomas C. Owen, L. G Zakharova, 2015-02-12 This is a comprehensive interpretive history of Russia from the defeat of Napoleon to the eve of World War I It is the first such work by a post Soviet Russian scholar to appear in English Drawing on the latest Russian and Western historical scholarship Alexander Polunov examines the decay of the two central institutions of tsarist Russia serfdom and autocracy Polunov explains how the major social groups the gentry merchants petty townspeople peasants and ethnic minorities reacted to the Great Reforms and why despite the emergence of a civil society and capitalist institutions a reformist evolutionary path did not become an alternative to the Revolution of 1917 He provides detailed portraits of many tsarist bureaucrats and political reformers complete with quotations from their writings to explain how the principle of autocracy although significantly weakened by the Great Reforms in mid century reasserted itself under the last two emperors Polunov stresses the relevance for Russians in the post Soviet period of issues that remained unresolved in the pre Revolutionary period such as the question of private property in land and the

relationship between state regulation and private initiative in the economy *Essays in Ottoman and Turkish History, 1774-1923* Roderic H. Davison, 2013-09-13 The effect of Western influence on the later Ottoman Empire and on the development of the modern Turkish nation state links these twelve essays by a prominent American scholar Roderic Davison draws from his extensive knowledge of Western diplomatic history and Turkish history to describe a period in which the actions of the Great Powers incipient and rising nationalisms and Westernizing reforms shaped the destiny of the Ottoman Empire and the creation of the new Turkish Republic Eleven of the essays were previously published in widely scattered journals and multi authored volumes The first of these provides a general survey of Turkish and Ottoman history from early Turkish times to the end of the Empire The following essays continue chronologically from 1774 detailing some of the changes in the nineteenth century Empire Several themes recur One is the impact of Western ideas and institutions and the resistance to that influence by some elements in the Empire Another concerns the diplomatic pressure exerted by the Great Powers of Europe on the Empire which amounted at times to direct intervention in Ottoman domestic affairs Taken together the essays portray a confluence of civilizations as well as a clash of cultures Professor Davison has written an interpretive introduction that sets out the historical trends running throughout the book In addition he includes a previously unpublished article on the advent of the electric telegraph in the Ottoman Empire to show how the adoption of a Western technological advance could affect many areas of life Of particular interest to students of Ottoman and Middle East history these essays will also be valuable for everyone concerned with modernization in developing nations Davison s interpretations and keen methodological sense also shed new light on several aspects of European diplomatic history *A History of Russia: Medieval, Modern, and Contemporary* Paul Dukes, 1974 *Library of Congress Subject Headings* Library of Congress, Library of Congress. Readings in Russian Civilization Volume III Thomas Riha, 2009-02-15 This new and enlarged version of *Readings in Russian Civilization* is the result of fairly extensive revisions There are now 72 instead of 64 items 20 of the selections are new The first volume has undergone the least change with 3 new items of which 2 appear in English for the first time In the second volume there are 6 new items all of them appear in English for the first time The third volume has undergone the greatest revision with 11 new items of which 6 are newly translated from the Russian It is the editor s hope that items left out in the new edition will not be sorely missed and that the new selections will turn out to be useful and illuminating The aim throughout has been to cover areas of knowledge and periods which had been neglected in the first edition and to include topics which are important in the study of the Russian past and present The bibliographical headnotes have been enlarged with the result that there are now approximately twice as many entries as in the old edition New citations include not only works which have appeared since 1963 but also older books and articles which have come to the editor s attention From the Editor s Preface a judicious combination of seminal works and more recent commentaries that achieves the editor s purpose

of stimulating curiosity and developing a point of view C Bickford O'Brien The Russian Review These three volumes cover quite well the main periods of Russian civilization The choice of the articles and other material is made by a competent and unbiased scholar Ivan A Lopatin Professor of Asian and Slavic Studies University of Southern California **Library of Congress Subject Headings** Library of Congress. Cataloging Policy and Support Office, 2003 *A History of Russia: To 1917* Walter Moss, 2002 **Twentieth Century Russia** Donald Treadgold, 2018-05-04 Donald Treadgold was one of the most distinguished Russian historians of his generation His *Twentieth Century Russia* a standard text in colleges and universities for several decades has been regularly revised and expanded to reflect new events and scholarship The present revision by Professor Herbert Ellison contains a major chapter on the Yeltsin era and brings the Russian story to the final year of the century Twice in the twentieth century the collapse of the Russian state and empire has been followed by an effort to build a democracy on the Western model The first effort succumbed within a few months to Lenin's communist revolution whose ideas and institutions dominated the history of Russia and eventually much of the world during the succeeding seventy-four years In August 1991 an attempt by Soviet leaders to suppress democratic and nationalist movements unleashed by the Gorbachev reforms and already victorious in Eastern Europe precipitated instead an anti-communist revolution under the leadership of Boris Yeltsin The revolution and the sweeping transformation that followed are treated in the new edition which assesses the aims and scope of the first decade of Russia's second revolution The transformation included a new constitutional structure two fully democratic parliamentary elections and a presidential election with another of each soon to come a vigorous revival of political parties and political debate and major questions about Russia's political future Against the broad background of the Russian experience over a turbulent century it raises the major questions What are the prospects for Russian democracy Why are the communists following an anti-communist revolution the most powerful parliamentary party in Russia's new parliament and what is their impact Why has the conversion to a market economy proved so difficult and painful and what are its prospects How has Russia related to the new states that were once fellow republics of the USSR Why has the foreign policy of the new Russian democracy moved from a vision of partnership with the US to a reality of conflict and confrontation *Twentieth Century Russia* poses these questions and many more for the student and the general reader alike against the fascinating background of Russia's experience before during and since the era of communist rule exploring the roots of current developments in the communist and pre-communist past **Readings in Russian Civilization Volume I** Thomas Riha, 2009-02-15 This new and enlarged version of *Readings in Russian Civilization* is the result of fairly extensive revisions There are now 72 instead of 64 items 20 of the selections are new The first volume has undergone the least change with 3 new items of which 2 appear in English for the first time In the second volume there are 6 new items all of them appear in English for the first time The third volume has undergone the greatest revision with 11 new items of which 6 are newly translated from the Russian It is the editor's hope that items left out in the new edition will

not be sorely missed and that the new selections will turn out to be useful and illuminating The aim throughout has been to cover areas of knowledge and periods which had been neglected in the first edition and to include topics which are important in the study of the Russian past and present The bibliographical headnotes have been enlarged with the result that there are now approximately twice as many entries as in the old edition New citations include not only works which have appeared since 1963 but also older books and articles which have come to the editor's attention From the Editor's Preface a judicious combination of seminal works and more recent commentaries that achieves the editor's purpose of stimulating curiosity and developing a point of view C Bickford O'Brien The Russian Review These three volumes cover quite well the main periods of Russian civilization The choice of the articles and other material is made by a competent and unbiased scholar Ivan A Lopatin Professor of Asian and Slavic Studies University of Southern California

States and Social Revolutions Theda Skocpol, 2015-09-29 State structures international forces and class relations Theda Skocpol shows how all three combine to explain the origins and accomplishments of social revolutionary transformations Social revolutions have been rare but undeniably of enormous importance in modern world history States and Social Revolutions provides a new frame of reference for analyzing the causes the conflicts and the outcomes of such revolutions It develops a rigorous comparative historical analysis of three major cases the French Revolution of 1787 through the early 1800s the Russian Revolution of 1917 through the 1930s and the Chinese Revolution of 1911 through the 1960s Believing that existing theories of revolution both Marxist and non Marxist are inadequate to explain the actual historical patterns of revolutions Skocpol urges us to adopt fresh perspectives Above all she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions

Imperial Rivals Sarah C.M. Paine, 2023-05-31 Based on archival research this is a history of the Russo Chinese border which examines Russia's expansion into the Asian heartland during the decades of Chinese decline and the 20th century paradox of Russia's inability to sustain political and economic sway over its domains

A History of Russia P. Dukes, 1998 Paul Dukes unbiased account of the History of Russia has been substantially rewritten and expanded to take into account the momentous events since the collapse of the former Soviet Union and the premiership of Boris Yeltsin
